Brief Summary

Provide a brief summary (preferably no more than 2 or 3 paragraphs) of this regulatory change (i.e., new regulation, amendments to an existing regulation, or repeal of an existing regulation). Alert the reader to all substantive matters. If applicable, generally describe the existing regulation.

The existing regulation provides for the hunting of fox squirrels in those counties west of the Blue Ridge as well as select counties in the eastern foothills of the Blue Ridge. Based upon observational data indicating expansion of the fox squirrel's range into additional counties, this regulation amendment would add Henry County to the list of counties where fox squirrels may be hunted.

Mandate and Impetus

Identify the mandate for this regulatory change, and any other impetus that specifically prompted its initiation (e.g., new or modified mandate, internal staff review, petition for rulemaking, periodic review, or board decision). For purposes of executive branch review, "mandate" has the same meaning as defined in the ORM procedures, "a directive from the General Assembly, the federal government, or a court that requires that a regulation be promulgated, amended, or repealed in whole or part."

The impetus for this regulatory amendment is the Board's biennial periodic review of its hunting, trapping, and wildlife-related regulations. Internal staff review, wildlife management and recreation goals, and consideration of public input through the Board's regulation review and amendment process deemed this amendment advisable.
