Ms. Chairman, I move that this meeting be recessed and that the Board immediately reconvene in closed meeting for the purpose of consultation with legal counsel and/or briefings by staff members pertaining to legal matters within the jurisdiction of the Board as permitted by § 2.2-3711.A.7 of the Code of Virginia. The following non-members will be in attendance to reasonably aid the consideration of the topic:

Mitch Melis, Steve Kirschner Tome Payne, James Flaherty and Marjorie King.

CERTIFICATION OF CLOSED MEETING

WHEREAS, the Board for Contractors has convened a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and

WHEREAS, § 2.2-3712 of the Code of Virginia requires a certification by this Board for Contractors that such closed meeting was conducted in conformity with Virginia law;

NOW, THEREFORE, BE IT RESOLVED that the Board for Contractors hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia law were discussed in the closed meeting to which this certification resolution applies and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed or considered by the Board for Contractors.

Elevator temporary certification

Elevator temporary certification

Marjorie King, Executive Director informed the Board in 2009, §54.1-1142.2 was enacted by the General Assembly of Virginia, requiring the Board to issue temporary certifications to elevator mechanics in the event of a shortage. It was recently identified the Board's regulations do not align with this requirement.

After discussion with elevator stakeholders and the Office of Attorney General (OAG), it is determined there is no controversy regarding the proposed regulations, therefore the OAG has approved the Board to move forward with a fast-track regulatory process. The fast-track process is a one-stage process for promulgating a regulation that is expected to be noncontroversial.

A motion was made by Mr. Spencer and seconded by Mr. O'Dell to adopt the proposed noncontroversial regulatory change.

The motion was approved with a vote of 13-0-0. Ayes: King, Johnson, Lowe, Groh, Trice, Brannon, Spencer, O'Dell, Heinline, Tomlin, Burwell, Burr, and Saucedo-Broach. **Nays:** None **Abstain:** None **Absent:** McGonegal.

A motion was made by Mr. Spencer and seconded by Mr. O'Dell to approve staff to make any necessary technical changes to the approved fast-track regulatory action.

The motion was approved with a vote of 13-0-0. Ayes: King, Johnson, Lowe, Groh, Trice, Brannon, Spencer, O'Dell, Heinline, Tomlin, Burwell, Burr, and Saucedo-Broach. **Nays:** None **Abstain:** None **Absent:** McGonegal.

Norfolk cross-connection equivalency

Marjorie King, Executive Director informed the Board, the City of Norfolk once issued a Backflow Prevention Device Tester License. The city accepted their own license, or the Board's Backflow Prevention Device Worker certification. Beginning January 1, 2023, the City of Norfolk no longer accepts their license and requires everyone testing and certifying backflow prevention devices to hold the Board's certification, even if they have previously held the City's license.

Individuals who were approved and held a license to perform backflow prevention device work through a local governing body prior to July 1, 1998, are exempt from the Board's examination, and the individual may simply swap their license. Individuals who were approved and held a license to perform backflow prevention device work through a local governing body after July 1, 1998, may use their locality license as the required vocational training, however, they must meet the experience requirements and are not exempt from the examination.

The Board has been asked to determine if the City of Norfolk's Backflow Prevention Device Tester License is substantially equivalent to the Board's Backflow Prevention Device Worker certification. Should the Board determine the license is substantially equivalent, individuals applying for a license that hold a City of Norfolk license will no longer be required to verify experience or complete the applicable examination. Note, the City of Norfolk's class was approved in 1998 for both a 16- and 40-hour course, however, in September 2022 Board staff received notification they were no longer offering the course.

A motion was made by Mr. Spencer and seconded by Mr. O'Dell to recommend approval to the Board for substantially equivalency to the Board's Backflow Prevention Device Worker certification

The motion was approved with a vote of 13-0-0. Ayes: King, Johnson, Lowe, Groh, Trice, Brannon, Spencer, O'Dell, Heinline, Tomlin, Burwell, Burr, and Saucedo-Broach. **Nays:** None **Abstain:** None **Absent:** McGonegal.
