However, upon Ms. Mayo's arrival the courses scheduled for that day were not in session and there was no information within the database. Finding no other classes in session, Ms. Mayo conducted and audit of a pre-licensed contractor course. The classroom appeared to be adequate and the course content appeared to be in accordance with the information contained in the Board-approved application. The report for this class was submitted within the required timeframe and contained all attendees on the sign-in sheet. However the report, when loaded contained the wrong provider number. After the provider number was corrected, the report loaded with the correct provider number. Board staff recommends the provider take steps to ensure the person who is registered for the course is the same individual in attendance on course day.

The next Board meeting will be December 17th, 2013.
