REPORTS:

Executive Director Report:

Ms. Douglas reported the following in addition to her written report:

- Board staff update –The Board's vacant positions are the RN
 Discipline Case Manager, the Licensing Examination Supervisor, and the CNA Discipline Specialist
- Board of Directors Meeting, October 15-16, 2018 Report the meeting was interesting and included orientation to the role of

Page 3 of 10

- NCSBN Board of Directors and the development of a strategic plan regarding future changes to the NCLEX exam, the APRN Compact and NCSBN's research scope of practice of the registered nurse
- International Nurse Regulator Collaborative (INRC) Symposium,
 October 22-23, 2018 Report Ms. Douglas attended the meeting on
 behalf of the NCSBN Board of Directors. Topics of discussion
 included International Regulatory issues that affect licensure of the
 foreign applicants as well as innovative approaches to regulation
 keeping the focus on high risk and harm scenarios

CORE Committee September 18, 2018 Meeting Minutes:

Ms. Minton highlighted the minutes as presented in the agenda and thanked Ms. Friedenberg for joining the Committee. Ms. Minton provided an overview of CORE Committee's works noting that the Committee is finalizing its review of the NCSBN 2016 summary of reports for discipline, licensure and education. Ms. Minton added that the Committee plans to present the summary and recommendations to the Board at its January 2019 meeting.

Mr. Monson moved to accept the minutes as presented. The motion was seconded and carried unanimously.

The Committee of the Joint Boards of Nursing and Medicine October 10.

2018 Business Meeting and Informal Conference minutes:

Ms. Hershkowitz reviewed the minutes as presented in the agenda.

Mr. Monson moved to accept the minutes as presented. The motion was seconded and carried unanimously.

NCSBN Update, President letter - this was provided for information only

OTHER MATTERS:

Board Counsel Update:

Ms. Mitchell reported that the Board has one pending appeal which was filed in Fairfax County Circuit Court. The case is related to licensure eligibility. Ms. Mitchell will represent the Board at this hearing which is scheduled for Friday, December 14, 2018 at 10 A.M. Board members and staff may attend this public proceeding if interested.

Review of Guidance Documents (GD):

Ms. Speller said that staff have completed the review of this first set of GDs and the following GDs need to be removed for additional review by Board Counsel and staff and will be brought back to the Board for action: 90-19, 90-26, 90-34, 90-41, 90-43, 90-48, 90-52, and 90-60.

Ms. Mitchell noted that GDs are the Board's further guidance of current laws and regulations and GDs have no force/effect of law. Additional review is

necessary to ensure the Board is not extending its scope of authority.

Ms. Yeatts indicated 2018 legislation requires a new process effective January 1, 2019; any revisions of the GDs will be subject to a 30-day public comment period and will require approval beyond the Board.

The Board reviewed and took action on the following GDs:

90-1: RN/LPN as First Assistants in Surgery

- Added "or Licensed Practical Nurses" after Registered Nurses... as First Assistants in Surgery
- Replaced "shall" with "should" in the second paragraph
- Deleted the last section regarding LPNs acting as first assistants in the operating room

Mr. Monson moved to adopted GD 90-1 as present and amended. The motion was seconded and carried unanimously.

90-15: Use of Cervical Ripening Agents

There was no amendment made after review:

Mr. Monson moved to adopted GD 90-15 as present. The motion was seconded and carried unanimously.

90-17: Cutting of Corns and Warts by RN's and LPN's

There was no amendment made after review.

Ms. Gerardo moved to adopted GD 90-17 as present. The motion was seconded and carried unanimously.

RECESS:

The Board recessed at 9:50 A.M.

RECONVENTION:

The Board reconvened at 10:00 A.M.

Dr. Allison-Bryan rejoined the meeting at 10:00 A.M.

PUBLIC HEARING

To receive public comment on Proposed Regulations for Supervision by Nurse Practitioners of Laser Hair Removal (18VAC90-30)

There was no one signed up to comment

PUBLIC COMMENT:

There was no public comment made.

VCU/BON STUDY:

"Is there a Relationship between the Level of Education of Registered Nurses" and the Incidence of State Board Violations?" - presentation by Catherine Neal, MS, RN, CMSRN, Nurse Manager at VCU Health System and Patricia

M. Selig, PhD, FNP-BC, Director at Center for Advance Practice at VCU Medical Center

Dr. Selig, past BON President, noted that this work was initiated by Dr. Lauren Goodloe.

Ms. Neal provided copies of PowerPoint presentation and provided information regarding the study. She noted that the conclusion of the study indicated that a "45 year old associate degree male nurse with 11 to 20 years experience working in the hospital" is at risk of State Board Violations.

Ms. Hershkowitz thanked Ms. Neal and Dr. Selig for their presentation.

RECESS:

The Board recessed at 10:55 A.M.

RECONVENTION:

The Board reconvened at 11:05 A.M.

LEGISLATION/ REGULATION:

Status of Regulatory Action:

Ms. Yeatts reviewed the chart of regulatory actions provided in the agenda.

Adoption of Final Regulatory Action on Prescribing of Opioids and Buprenorphine by Nurse Practitioners (18VAC90-30 and 40):

Ms. Yeatts stated that the emergency regulations will expired on May 6, 2019 and two comments were received regarding the final proposed regulations as provided in the handout. Ms. Yeatts noted the following amendments to the final proposed regulations:

Evaluation of the patient for acute pain shall exclude sickle cell patients.

Tramadol is defined as an atypical opioid.

The urine drug screens will be conducted randomly at the discretion of the practitioner at least once a year.

Nurse practitioners who have obtained a SAMHSA waiver and have been authorized by the Boards for autonomous practice can prescribe buprenorphine for opioid addiction without practice agreement.

Ms. Yeatts noted that the Board of Medicine adopted the final regulations on October 18, 2018 and they are presented for Board of Nursing's adoption. Dr. Hahn moved to adopt the final regulations as present. The motion was seconded and carried unanimously.

OTHER MATTERS (cont.): Review of Guidance Documents (GD) - cont.:

90-23: Decision-Making Model for Determining RN/LPN Scope of Practice

There was no amendment made after review.

Dr. Hahn moved to adopted GD 90-23 as present. The motion was seconded and carried unanimously.

90-40: Surveillance Activities Required by the OSHA Respiratory Standards

There was no amendment made after review.

Ms. Gerardo moved to adopted GD 90-40 as present. The motion was seconded and carried unanimously.

90-42: Reinstatement following Mandatory Suspension There was no amendment made after review.

Ms. Minton moved to adopted GD 90-42 as present. The motion was seconded and carried unanimously.

90-46: Administration of Certain Over-the-Counter Drugs by Certified Nurse Aides

There was no amendment made after review.

Ms. Cei moved to adopted GD 90-46 as present. The motion was seconded and carried unanimously.

CBC Audit Update:

Ms. Willinger indicated that no FBI audit was conducted as planned in October. She expected the audit will be completed prior to January 2019 Board meeting and is awaiting notification.

Ms. Willinger noted that Board of Pharmacy is now utilizing criminal background checks for Pharmaceutical Processors. She anticipated Physical Therapy and Counseling may begin requiring CBCs for licensees if there is legislative action,

Informal Conference Schedule for the first half of 2019:

Ms. Power reported that a final copy of the Informal Conference schedule for the first half of 2019 is provided today noting there is an extra Special Conference Committee "G" was added due to 14 Board Members total.

Board Member availability for January 2019 Board Week:

Ms. Douglas stated that there are only four Board Members available on Thursday, January 31, 2019, which is not enough to establish a Panel to conduct hearings. Ms. Douglas noted that there are nine Board Members available on Monday, January 28, 2019.

Ms. Hershkowiz asked some Board Members to move from Monday to Thursday. Ms. Gerardo and Mr. Monson volunteered to do so.

EDUCATION:

Education Informal Conference Committee November 1, 2018 Minutes and Recommendations:

Ms. Minton reviewed the November 1, 2018 minutes including recommendation to withdraw approval of Chester Career College to operate a practical nursing program and approval shall stayed with terms and conditions.

Ms. Minton moved to accept the minutes and recommendations as presented. The motion was seconded and carried unanimously.

Education Staff Report:

Dr. Saxby reported that recruitment is in process to replace the Senior Nursing Education Consultant position vacated by Ms. Ridout and interviews are scheduled for the second week of December 2018.

Dr. Saxby added that she hopes that the recruitment process for her own position will begin soon as her retirement is in effect on April 1, 2019.

ENVIRONMENTAL SCAN:

Ms. Hershkowitz asked Board Members to share updates or trends in their practice environments.

Dr. Hahn reported that her research project "Perceptions and Experience of National Regulatory Nurse Leaders in advancing the APRN Compact Policy Agenda" has been published in Journal of the American Association of Nurse Practitioners (JAANP). Dr. Hahn thanked Ms. Hershkowitz for her role as a reviewer.

Ms. Douglas said that NCSBN Board of Directors decided to establish a task force to revisit the APRN Compact due to some conflicts between state laws and compact language. The task force will have recommendations by the next NCSBN Mid-Year meeting. Ms. Douglas stated that NCSBN is also making plans to convene a forum of board of nursing regulators to discuss inconsistencies and challenges of the APRN Consensus Model.

Ms. Douglas reported that Board staff are experiencing increased calls regarding autonomous practice for NPs. She also noted that some RN/LPN scope of practice questions received require collaboration between Boards of Medicine and Pharmacy.

Ms. Phelps reported that she has seen decrease in number of opioid overdoses in some areas. She added that there is an increase in Medication Assisted Treatment (MAT) providers and positive reception of MAT in the community.

> Dr. Allison-Bryan stated that PMP Annual Report is posted on DHP website. which indicates a decreasing in prescribing of opioids and total of deaths due

to overdose.

The Board recessed at 12:00 P.M. **RECESS:**

The Board reconvened at 1:00 P.M. RECONVENTION:

CONSIDERATION OF CONSENT ORDER:

Delphine Anita Childress, RN 0001-123990

Mr. Monson moved to accept the consent order of voluntary surrender for indefinite suspension of Delphine Anita Childress' license to practice professional nursing in the Commonwealth of Virginia. The motion was

seconded and carried unanimously.

BOARD MEMBER DIALOGUE:

Board Processes and Board Members' Role – the Board discussed variety of topics including:

• Is there value in having each member do a brief online evaluation after each Board Business meeting? - the Board agreed to pilot the evaluation erally for two meetings starting with January 2019 meeting and to include the Board training in this evaluation.

What areas would Board Members like to see covered during Board Training sessions in 2019? - the Board agreed on Freedom of Information Act (FOIA), annual training by Board Counsel, regulatory updates, and Agency Subordinate process.

Should the Board consider redistribution of the Discipline caseload. utilizing Agency Subordinates more for informal conferences and increasing Board member focus on formal hearings? - the Board agreed on more informal conferences by Agency Subordinates. The Board also discussed the Board Business meeting being held less frequently, but no action was taken.

What kind of support would be helpful to each member more effectively cope with the workload and balance your other commitments? - The Board suggested tabbing cases/evidences, page stamping the items of the business agenda, and Holiday gathering for team-building. Board members acknowledged that for those Board members working, the time commitment is difficult.

ADJOURNMENT: The Board adjourned at 2:35 P.M.

RECONVENED: The Board reconvened at 9:00 A.M. on Wednesday, November 14, 2018 in

Board Room 2 to discuss appointment of Nominating Committee

January 29, 2019.

ADJOURNMENT:

The committee adjourned at 4:06 p.m.

Paula B. Saxby, R.N., Ph.D., Deputy Executive Director

Virginia Board of Nursing

CORE Committee Meeting

November 13, 2018

Time and Place: The meeting of the Board of Nursing CORE Committee was

convened at 3:02 P.M. on November 13, 2018 in Board Room 2, Department of Health Professions, 9960 Mayland Drive, Suite 201,

Henrico, Virginia 23233.

Board Members Present: Trula Minton, MS, RN, Chairperson

Ethyn McQueen-Gibson, DNP, MSN, RN, BC

Peggy Friedenberg, Citizen Member

Staff Members Present: Charlette Ridout, RN, MS, CNE, Deputy Executive Director

Guest Present: Tonora Graihutt, RN, ODU DNP student

(Left the meeting at 3:45 PM)

The Education Summary Report was discussed and approved with the following recommendations:

• Recommendation:

- o Board will encourage nursing program directors to share with faculty, staff and students data regarding near misses occurring in nursing education programs
- o Board will disseminate information and encourage nursing program involvement with the Safe Student Reports Research Study being conducted by NCSBN.

 Information regarding participation in the research study can be found at https://www.ncsbn.org/safe-student-reports.htm

Recommendation:

- Suggest nursing programs implement changes based on the feedback obtained from employers of graduates
- o Notify Board of nursing onsite reviewers of the data obtained regarding outcomes.
- Recommendation: Board will disseminate information to employers, nurses and educators regarding Laws and Regulations, Guidance Documents through more prominent notices on the Board website and exploring opportunities with the VNA publication.
- Recommendation: Board of Nursing will evaluate current number of employees working with the nursing education programs as well as work flow processes.

The Licensure Report 2016 Summary was presented to the Board at their Business Meeting on May of 2017: This report did not include recommendations.

The committee finalized the following recommendations to be presented to the Board at the January 2019 Business Meeting.

- Recommendation: Evaluate the number of full time employees dedicated to the licensure processes.
- Recommendation:
 - o Board will encourage nursing program directors to share with faculty, staff and students data regarding near misses occurring in nursing education programs
 - o Board will disseminate information and encourage nursing program involvement with the Safe Student Reports Research Study being conducted by NCSBN.

 Information regarding participation in the research study can be found at https://www.ncsbn.org/safe-student-reports.htm
- Recommendation: Continue to monitor annual data received from the Workforce Data Center to identify trends in initial licensure, licensure renewal and licensure by endorsement.
- Recommendation: Board will disseminate information to employers, nurses and educators regarding Laws and Regulations, Guidance Documents through more prominent notices on the Board website and exploring opportunities with the VNA publication.
- Staff will participate in the improvement of the Board of Nursing and DHP websites and recommend that enhancements include the use of social media, interactive options and podcast.

The Discipline Report 2016 Summary was presented to the Board at their Business Meeting on January 30, 2018: This report did not include recommendations.

The committee finalized the following recommendations to be presented to the Board at the January 2019 Business Meeting.

- Recommendation: Staff will participate in the improvement of the Board of Nursing and DHP websites and recommend that enhancements include the use of social media, interactive options and podcast.
- Recommendation: Explore options for how to best educate licensees on the mission of the Board of Nursing.
- Recommendation: Continue to monitor the length of time it takes for disciplinary cases to be resolved, using data to determine the need for additional process assessments and evaluation.

Virginia Board of Nursing CORE Committee Meeting September 18, 2018

The Practice Report 2016 was briefly reviewed. Committee members were asked to read the report in its entirety and forward to Ms. Ridout and Ms. Minton suggestions for Points of Pride and Recommendation by November 27, 2018.

The meeting was adjourned at 4:25 P.M.

Ms Gerardo will assume leadership of the Committee Joint Boards of Nursing and Medicine however she is not available in December and will not chair if there is a meeting.

2. Board Training

Ms. Phelps and Ms. Douglas will work on the agenda for January training with the focus being the Health Practitioners' Monitoring Program (HPMP) and the integration of Medication Assisted Treatment (MAT).

Presentation to include how HPMP views MAT and their plan to incorporate into the program. Additionally, will request that the presentation include:

- a) cost issues
- b) participant expectations (handbook)
- c) an overview of the HPMP process
- 3. Environmental Scanning as Regular Board Activity

The benefit of environmental scanning was discussed and reflection on how this went at the business meeting

4. Examination of Discipline Proceedings – Responsibilities and Scheduling

As discussed with Board staff, Ms. Douglas will consider increasing the number of Agency Subordinate days in an effort to further relieve Board members. Consideration also to be given to decreasing the number of full Board meetings

Virginia Board of Nursing Officer Meeting Minutes November 14, 2018

per year. Ms. Douglas informed the Board that she will begin implementing the suggestion related to labeling of Board business materials by numbering them. Additionally staff will explore with copy center and Adjudication Proceedings Division (APD), the creation of additional tabs or dividers for exhibits. Duplication of evidence will also be discussed with Enforcement and APD.

5. Evaluation Tool for Board Meetings

The post business meeting review will be included on future agendas and will be a verbal process. What went well? What didn't? Suggestions for improvements.

6. Support for Board Members

No additional discussion from Board meeting.

7. Executive Director Report

All information was reported in the Tuesday Business meeting.

The meeting was adjourned at 9:00 A.M.

VIRGINIA BOARD OF NURSING

Nominating Committee November 14, 2018 Minutes

TIME AND PLACE:

The meeting of the Nominating Committee was called to order at 3:45 pm on November 14, 2018, at Department of Health Professions, 9960 Mayland Drive, Suite

201, Board Room 2, Henrico, Virginia.

MEMBERS PRESENT:

Trula E. Minton, MS, RN, Chair

Margaret Friedenberg, Citizen Member

Dixie L. McElfresh, LPN

STAFF PRESENT:

Jay P. Douglas, MSM, RN, CSAC, FRE; Executive Director

DISCUSSION:

The Committee appointed Ms. Minton as Chair. Committee members reviewed their discussion with individual Board members, polling them regarding their interest in certain positions. The Committee agreed to the following slate of Board Members

who are interested in running for office for 2019:

President:

Louise Hershkowitz, CRNA, MSHA

(2nd term expires 2021),

First Vice President:

Jennifer Phelps, BS, LPN, QMHPA

(2nd term expires 2021)

Second Vice President: Marie Gerardo, MS, RN, ANP-BC (2nd term expires 2022)

Ms. Hereford, Dr. McQueen-Gibson and Dr. Gleason still need to be contacted. Board members will notify Jay Douglas regarding their interest.

The Executive Director was directed by the Committee to prepare the written slate and provide the slate to all Board Members in advance of the January meeting.

The Committee asked that Board members be reminded that nominations can be made from the floor at the annual meeting in January 2019.

ADJOURNMENT:

The meeting adjourned at 4:05 P.M.

Jay P. Douglas, MSM, RN, CSAC, FRE Executive Director

VIRGINIA BOARD OF NURSING MINUTES

November 14, 2018 Panel - A

TIME AND PLACE:

The meeting of the Virginia Board of Nursing was called to order at 9:25 A.M. on November 14, 2018 in Board Room 2, Department of Health Professions, 9960 Mayland Drive, Suite 201, Henrico, Virginia.

BOARD MEMBERS PRESENT:

Louise Hershkowitz, CRNA, MSHA, President

Margaret Friedenberg. Citizen Member

Dixie L. McElfresh, LPN Trula E. Minton, MS, RN Meenakshi Shah, BA, RN

STAFF PRESENT:

Jay P. Douglas, MSM, RN, CSAC, FRE; Executive Director

Charlette Ridout, RN, MS, CNE; Deputy Executive Director

Darlene Graham, Senior Discipline Spécialist

OTHERS PRESENT:

James Rutkowski, Assistant Attorney General, Board Counsel

ESTABLISHMENT OF A PANEL:

With five members of the Board present, a panel was established.

AGENCY SUBORDINATE RECOMMENDATIONS:

Keyona Denise Harris, CNA

1401-181420

Ms. Harris appeared and submitted written response.

CLOSED MEETING:

Ms. Minton moved that the Board of Nursing convene a closed meeting pursuant to §2.2-3711(A)(27) of the Code of Virginia at 9:28 A.M., for the purpose of consideration of the agency subordinate recommendation regarding Ms. Harris. Additionally, Ms. Minton moved that Ms. Douglas. Ms. Ridout, Ms. Graham and Mr. Rutkowski, Board counsel, attend the closed meeting because their presence in the closed meeting is deemed necessary and their presence will aid the Board in its deliberations. The motion was seconded and carried unanimously.

RECONVENTION:

The Board reconvened in open session at 9:39 A.M.

Ms. Minton moved that the Board of Nursing certify that it heard, discussed or considered only public business matters lawfully exempted from open meeting requirements under the Virginia Freedom of Information Act and only such public business matters as were identified in the motion by which the closed meeting was convened. The motion was seconded and carried

unanimously.

Virginia Board of Nursing

Panel A – Agency Subordinate Recommendations

November 14, 2018

Ms. Friedenberg moved that the Board of Nursing accept the recommended decision of the agency subordinate to revoke the certificate of Keyona Denise Harris to practice as a nurse aide in the Commonwealth of Virginia and to enter a Finding of Abuse against her in the Virginia Nurse Aide Registry. The motion was seconded and carried unanimously.

CLOSED MEETING:

Ms. Minton moved that the Board of Nursing convene a closed meeting pursuant to §2.2-3711(A)(27) of the Code of Virginia at 9:48 A.M., for the purpose of consideration of the remaining agency subordinate recommendations. Additionally, Ms. Minton moved that Ms. Douglas, Ms. Ridout, Ms. Graham and Mr. Rutkowski, Board counsel, attend the closed meeting because their presence in the closed meeting is deemed necessary and their presence will aid the Board in its deliberations. The motion was seconded and carried unanimously.

RECONVENTION:

The Board reconvened in open session at 10:32 A.M.

Ms. Minton moved that the Board of Nursing certify that it heard, discussed or considered only public business matters lawfully exempted from open meeting requirements under the Virginia Freedom of Information Act and only such public business matters as were identified in the motion by which the closed meeting was convened. The motion was seconded and carried unanimously.

Marcina Burnett Rawlings, RN Ms. Rawling did not appear.

0001-197083

Ms. Minton moved that the Board or Nursing accept the recommended decision of the agency subordinate to require Marcina Burnett Rawling to have an evaluation by a mental health specialist satisfactory to the Board and written report of the evaluation, including a diagnosis, a recommended course of therapy, and a prognosis sent to the Board within 90 days from the date of entry of the Order. The motion was seconded and carried unanimously.

Kisha Larae Johnson, RMA Ms. Johnson did not appear.

0031-008716

Ms. Minton moved that the Board of Nursing accept the recommended decision of the agency subordinate to indefinitely suspend the registration of Kisha Larae Johnson to practice as a medication aide in the Commonwealth of Virginia for a period of not less than one year from the date of entry of the Order. The motion was seconded and carried unanimously.

Amanda Kathryn Smith, LPN Ms. Smith did not appear.

0002-085232

Ms. Shah moved that the Board of Nursing accept the recommended decision of the agency subordinate to reprimand Amanda Kathryn Smith and to indefinitely suspend her license to practice a practical nursing in the Commonwealth of Virginia. The motion was seconded and carried unanimously.

Delita Anderson, CNAMs. Anderson did not appear.

1401-160348

The motion was seconded and carried unanimously,

Rometta L. Saunders, CNA Ms. Saunders did not appear.

1401-116107

Ms. Shah moved that the Board of Nursing accept the recommended decision of the agency subordinate to suspend the certificate of Rometta L. Saunders to practice as a nurse aide in the Commonwealth of Virginia for a period of not less than two years from the date on entry of the Order. The motion was seconded and carried unanimously.

Carla Serena Morse, RN Ms. Morse did not appear.

0001-219466

Ms. Minton moved that the Board of Nursing accept the recommended decision of the agency subordinate to accept the voluntary surrender for indefinite suspension of Carla Serena Morse's right to renew her license to practice professional nursing in the Commonwealth of Virginia for a period of not less than two years from the date of entry of the Order. The motion was seconded and carried unanimously.

Kimberly Lee Patterson, RN Ms. Patterson did not appear.

0001-227068

Ms. Minton moved that the Board of Nursing accept the recommended decision of the agency subordinate to indefinitely suspend the license of Kimberly Lee Patterson to practice professional nursing in the Commonwealth of Virginia. Said suspension is to be stayed upon proof of Ms. Patterson's entry into a Contract with the Virginia Health Practitioners'

Virginia Board of Nursing Panel A – Agency Subordinate Recommendations November 14, 2018

> Monitoring Program (HPMP) within 60 days of the date of entry of the Order and compliance with all terms and conditions of the HPMP for the period specified by the HPMP. The motion was seconded and carried unanimously.

Stephanie Lynne Vogel Harris, RN 0001-241511 Ms. Harris did not appear.

Ms. Shah moved that the Board of Nursing accept the recommended decision of the agency subordinate to reprimand Stephanie Lynne Vogel Harris and to require her within 60 days from the date of entry of the Order to provide written proof satisfactory to the Board of successful completion of the following NCSBN courses:

- Disciplinary Actions: What Every Nurse Should Know;
- ➤ Ethics of Nursing P+actice;
- > Professional Accountability & Legal Liability for Nurses; and
- > Righting a Wrong: Ethics and Professionalism in Nursing

The motion was seconded and carried unanimously.

Terri Medleta Jackson, LPN Ms. Jackson did not appear.

0002-073865

Ms. Shah moved that the Board of Nursing accept the recommended decision of the agency subordinate to indefinitely suspend the license of Terri Medleta Jackson to practice practical nursing in the Commonwealth of Virginia. Said suspension is to be stayed upon proof of Ms. Jackson's entry into a Contract with the Virginia Health Practitioners' Monitoring Program (HPMP) and compliance with all terms and conditions of the HPMP for the period specified by the HPMP. The motion was seconded and carried unanimously.

Emma Vastena Reaves, CNA Ms. Reaves did not appear.

1401-120945

Ms. Shah moved that the Board of Nursing accept the recommended decision of the agency subordinate to reprimand Emma Vastena Reaves. The motion was seconded and carried unanimously.

Yvettrise Marquitta Hoskie, CNA

1401-071854

Ms. Hoskie did not appear.

Ms. Minton moved that the Board of Nursing accept the recommended decision of the agency subordinate to reprimand Yvettrise Marquitta Hoskie and to order her undergo a mental health evaluation, to include a psychiatric evaluation conducted by a Board-approved specialist who holds an unrestricted license, and a written report of the evaluation, including a

diagnosis, recommended course of therapy, prognosis, and any other recommendations sent to the Board, within 90 days of the entry of the Order. The motion was seconded and carried unanimously.

Annah Higgs Barrett, RN Applicant

Ms. Barrett did not appear.

Ms. Shah moved that the Board of Nursing accept the recommended decision of the agency subordinate to approve the application of Annah Higgs Barrett for licensure to practice professional nursing in the Commonwealth of Virginai. Upon successful completion of the NCLEX examination, Ms. Barrett shall be issued an unrestricted license. The motion was seconded and carried unanimously.

Emily L. Payne, CNA 1401-082117 Ms. Payne did not appear but submitted written response.

Ms. Minton moved that the Board of Nursing accept the recommended decision of the agency subordinate to reprimand Emily L. Payne. The motion was seconded and carried unanimously.

Wendy May Kocsis Burkett, CNA

1401-096348

Ms. Burkett did not appear.

Ms. Minton moved that the Board of Nursing accept the recommended decision of the agency subordinate to revoke the certificate of Wendy May Kocsis Burkett to practice as a nurse aide in the Commonwealth of Virginia and to enter a Finding of Misappropriation of Patient Property against her in the Virginia Nurse Aide Registry. VIRGINIA BOARD OF NURSING MASSAGE THERAPY ADVISORY BOARD MINUTES

Monday, November 5, 2018

TIME AND PLACE: The meeting of the of the Massage Therapy Advisory Board convened at 10:00

a.m. in Board Room 2, Department of Health Professions, Perimeter Center, 9960

Mayland Drive, Suite 201, Henrico, Virginia.

PRESIDING: Stephanie Quinby, L.M.T., Vice-Chair

MEMBERS PRESENT: Stephanie Quinby, L.M.T., Vice-Chalr

Dawn Hogue, L.M.T.

Jermaine Mincey, Citizen Member - arrived at 10:28 am

MEMBERS ABSENT: Joseph L. Schibner, IV, LM.T., L.Ac. D.O.M., Chair

Kristina Page, L.M.T.

STAFF PRESENT: Jay P. Douglas, R.N., M.S.M., C.S.A.C., P.R.E., Executive Director

Lisa Speller, R.N., B.S.N.

Cathy Hanchey, Administrative Specialist

IN THE AUDIENCE: Becky Bowers-Lanier, American Massage Therapy Association-VA Chapter

CALL TO ORDER: Ms. Quinby called the business meeting to order at 10:00 a.m., noting that a

quorum was not established, but the meeting could proceed on those items not

requiring a vote.

NEW BUSINESS: Ms. Douglas addressed recent staff changes relative to the massage therapy

practice, specifically: Charlette N. Ridout, R.N., M.S., C.N.E., as the Deputy Executive Director to fill the position vacated with Brenda Krohn's retirement effective August 31, 2018; Cathy Hanchey as the Senior Licensing/Discipline Specialist to fill the position vacated by Latasha Austin; and, Lisa Speller, R.N., B.S.N., as a gubernatorial appointment as Policy Assistant to the Board of Nursing.

Section 54.1-3029.1 of the Code of Virginia, outlines requirements for the composition of the Advisory Board on Massage Therapy, including three (3)

members who are licensed massage therapists, one administrator or faculty member, and one citizen member. Ms. Douglas noted that Dr. Schibner and Ms. Quinby's terms expire as of June 30, 2019, and these vacancies will need to be

filled.

The By-laws for the Advisory Board on Massage Therapy require elections for a Chair and Vice-Chair annually, and a person may not serve for more than two

consecutive terms.

Ms. Douglas advised of an immediate need for coverage of informal conferences on February 12, 2019. Ms. Quinby advised that she would be available to serve as a member of the Special Conference Committee on that date.

Ms. Douglas also outlined dates for potential formal hearings requiring coverage, and advised that discipline cases are never heard on Tuesdays. Ms. Quinby and Ms. Hogue stated they would check their calendars for availability for future informal conference dates and formal hearings and advise Ms. Hanchey of their availability.

Ms. Douglas wanted to call attention to the recent regulatory changes affecting continuing competency requirements as requested by Dr. Schibner. Ms. Hogue asked about changes to provisional licensure, and Ms. Hanchey advised that is still an option, but provisional licenses have only been issued twice in the past year.

REPORTS:

Ms. Hogue provided an oral report re-capping the Federation of State Massage Therapy Boards (FSMTB) Annual Meeting that was held in Salt Lake City, Utah on October 4-6, 2018, including election of new officers and passing a resolution by Wisconsin for a model law on licensing of establishments. Additional discussions included the Massage Therapy Licensing Database (MTLD), climate of de-regulation, alternative testing, universal transcript template, and the use of cannabidiol oil where marijuana is legal.

Ms. Douglas gave a report on the criminal background check (CBC) requirement for massage therapist applicants by initial licensure, endorsement and reinstatement that was effective as of January 1, 2017. The report covered statistics from January 1, 2018 – September 30, 2018.

- A total of 905 LMT applicants initiated the CBC process for this reporting period
- Total number of LMT applicants with convictions (disclosed and nondisclosed) was 135.
- Total number of LMT applicants with no convictions was 770.

Ms. Hanchey reviewed with the Advisory Board the current number of disciplinary cases for LMTs regulated by the Board of Nursing, including 44 actions taken on 27 LMTs, of 8,695 active massage therapists as of September 30, 2018.

INFORMATION ONLY

Ms. Hogue reported that there were no changes to policy in the Commission on Massage Therapy Accreditation (COMTA) Policy and Procedure Manual updated July 2018. Changes were to process only.

Mr. Mincey joined the meeting at 10:28 a.m.

ESTABLISHMENT OF A QUORUM:

With 3 members of the Massage Therapy Advisory Board present at 10:28 a.m., a quorum was established.

OLD BUSINESS:

An overview was provided of the minutes from the last Massage Therapy Advisory Board meeting held on November 7, 2017. Ms. Hogue moved that the minutes from the November 7, 2017 meeting be approved. The motion was seconded by Mr. Mincey and carried unanimously.

PUBLIC COMMENT:

Ms. Bowers-Lanier stated that the Virginia Chapter of the American Massage Therapy Association had no public comment at this time.

NEW BUSINESS:

Elections were made for a Chair and Vice-Chair for the Advisory Board on Massage Therapy. Ms. Quinby made a motion to nominate Ms. Hogue as Chair. The motion was seconded by Ms. Hogue and carried unanimously. Ms. Quinby made a motion to nominate herself as Vice-Chair. The motion was seconded by Ms. Hogue and carried unanimously.

The Advisory Board on Massage Therapy reviewed and discussed Guidance Documents 90-58 and Guidance Document 90-38. The Advisory Board discussed the following proposed changes to the Guidance Documents:

- Guidance Document 90-58 Proposed to remove:
 - ❖ Article III, Section 3 in its entirety.
- Guidance Document 90-47 Proposed to add:
 - Under "Appropriate Draping and Technique," add: "... written informed consent of the client include: Anus, penis, testicles, scrotum, vagina, labla, clitoris, breast, nipples, and areola."

Mr. Mincey made a motion that the Advisory Board on Massage Therapy recommend to the Board of Nursing to accept the proposed recommended changes to remove Article III, Section 3 in its entirety from Guidance Document 90-58 and to add "breasts" to Guidance Document 90-47. The motion was seconded by Ms. Hogue and carried unanimously.

Ms. Quinby will provide changes to Guidance Document 90-47 to Ms. Speller by December 2018 for the January 2019 Board of Nursing meeting, including the National Certification Board for Therapeutic Massage & Bodywork's Standards of Conduct.

Dr. Schibner's October 31, 2018 correspondence requested that the Advisory Board on Massage Therapy discuss its stance on Thai Yoga Massage. Following discussion, the Advisory Board on Massage Therapy decided that there was not enough background provided to fully address the issue. The Board of Nursing would continue to address any complaints that may arise as they come to the Board of Nursing's attention. Additionally, the Board of Nursing cannot dictate to schools what is being told to students regarding exemption from massage therapy regulation. The Advisory Board on Massage Therapy decided to invite the State Council of Higher Education for Virginia (SCHEV) to attend and speak to the Advisory Board on Massage Therapy at its next meeting, tentatively planned for April 2019.

The Advisory Board on Massage Therapy had questions concerning implementation of FSMTB's MTLD. Board of Nursing staff will schedule a conference call with FSMTB to obtain answers to the Advisory Board's questions concerning implementation, participating states, public availability, and cost.

REPORTS:

Ms. Douglas gave an oral report on the October 12, 2018 meeting at the request of the Henrico County Police Department concerning human trafficking.

Ms. Speller provided an oral report on the October 23, 2018 meeting of the Anti-Human Trafficking Coordinating Committee report, "Laying the Foundation." This committee is currently not under Executive Order, and is currently operating as a voluntary committee with the participation of several state agencies.

DISCUSSION OF FUTURE MEETINGS:

Board staff will coordinate with the Advisory Board on Massage Therapy members on availability for a meeting in April 2019 and confirm exact date when possible.

ADJOURNMENT:

Mr. Mincey made a motion to conclude the meeting. The motion was seconded by Ms. Hogue and carried unanimously. The meeting was adjourned at 12:08 p.m.

Jay P. Döuglas, R.N., M.S.M., C.S.A.C., F.R.E. Executive Director

VIRGINIA BOARD OF NURSING POSSIBLE SUMMARY SUSPENSION TELEPHONE CONFERENCE CALL December 19, 2018

A possible summary suspension telephone conference call of the Virginia Board of Nursing was held December 19, 2018 at 12:04 P.M.

The Board of Nursing members participating in the meeting were:

Louise Hershkowitz, CRNA, MSHA; Chair Laura F. Cei, BS, LPN, CCRP Marie Gerardo, MS, RN, ANP-BC A Tucker Gleason, PhD, Citizen Member Joyce Hahn, PhD, RN, NEA-BC, FNAP, FAAN Mark Monson, Citizen Member Jennifer Phelps, BS, LPN, QMHPA Meenakshi Shah, BA, RN

Others participating in the meeting were:

Charis Mitchell, Assistant Attorney General, Board Counsel
Julia Bennett, Assistant Attorney General
James Schliessmann, Assistant Attorney General
Cynthia Gaines, Adjudication Specialist
Lana Jagadish, Adjudication Specialist
Grace Stewart, Adjudication Specialist
Jodi Power, RN, JD; Senior Deputy Executive Director
Robin Hills, RN, DNP, WHNP; Deputy Executive Director for Advanced Practice
Charlette Ridout, RN, MS, CNE; Deputy Executive Director
Patricia Dewey, RN, BSN; Discipline Case Manager
Sylvia Tamayo-Suijk, Discipline Team Coordinator

The meeting was called to order by Ms. Hershkowitz. With eight members of the Board of Nursing participating, a quorum was established. A poll of those participating showed that a good faith effort to convene a regular meeting within the week was not possible.

Julia Bennett, Assistant Attorney General presented evidence that the continued practice of massage therapy by Bradford Lynn McRae, LMT 0019-015168 may present a substantial danger to the health and safety of the public.

Ms. Gerardo moved to summarily suspend the nursing license of Bradford Lynn McRae pending a formal administrative hearing and to offer a consent order for revocation of his license, in lieu of a formal hearing. The motion was seconded and carried unanimously.

James Schliessmann, Assistant Attorney General presented evidence that the continued practice as a certified nurse aide by Christopher Harvey, CNA 1401-188923 may present a substantial danger to the health and safety of the public.

Virginia Board of Nursing Possible Summary Suspension Telephone Conference Call December 19, 2018

Mr. Monson moved to summarily suspend the nursing license of Christopher Harvey pending a formal administrative hearing and to offer a consent order for indefinite suspension of his certificate for not less than two years, in lieu of a formal hearing. The motion was seconded and carried with seven votes yes and one vote no (Ms. Phelps voted no).

Julia Bennett, Assistant Attorney General presented evidence that the continued practice of nursing by Timothy Michael O'Donnell, RN 0001-250363 may present a substantial danger to the health and safety of the public.

Ms. Gerardo moved to summarily suspend the nursing license of Timothy Michael O'Donnell pending a formal administrative hearing and to offer a consent order for indefinite suspension of his license until such time as he can demonstrate that he is capable of resuming the safe and competent practice of nursing in Virginia, in lieu of a formal hearing. The motion was seconded and carried unanimously.

The meeting was adjourned at 12:35 P.M.

Jodi Power, RN, JD

Senior Deputy Executive Director

VIRGINIA BOARD OF NURSING DISCIPLINE COMMITTEE MINUTES

November 13, 2018

TIME AND PLACE: The meeting

The meeting of the Discipline Committee was convened at 3 p.m. in

Training Room 2, Department of Health Professions, Perimeter

Center, 9960 Mayland Drive, 2nd Floor, Henrico, Virginia.

MEMBERS PRESENT:

Marie Gerardo, MS, RN, ANP-BC, Chairperson

Laura Cei, BS, LPN, CCRP

MEMBERS ABSENT:

Ann Tucker Gleason, Ph.D., Citizen Member

STAFF PRESENT:

Jodi P. Power, Senior Deputy Executive Director

Robin Hills, Deputy Executive Director for Advanced Practice

Ann Tiller, Compliance Manager

Tonya James, Compliance Case Manager Beoncia Johnson, Compliance Specialist

CALL TO ORDER:

Ms. Gerardo called the meeting to order at 3:00 p.m.

TOPICS DISCUSSED:

The Board of Nursing's Discipline Committee met on November 13, 2018, to:

- discuss case types that may be appropriate for imposing monetary penalties as a sanction;
- consider existing Guidance Documents previously adopted by the Board of Nursing that contemplate the use of monetary penalties; and
- review other Guidance Documents assigned to this Committee by virtue of their content as part of the Board's periodic review of all of its Guidance Documents.

The Committee reviewed, discussed and makes the following recommendations, which will be presented to the full Board for consideration at its meeting in January 2019.

1) Imposing Monetary Penalties pursuant to Va. Code §54.1-2401:

Historically the Board of Nursing has imposed monetary penalties in cases involving fraud, continued competency violations, and practicing on an expired license. The Committee believes these are logical categories of offenses to continue to impose monetary penalties and recommends the Board continue to indicate so in its existing guidance documents (considered individually later in this document).

Additionally, the Committee discussed the possibility of imposing monetary penalties in other case type scenarios. The Committee recommends the Board consider imposing monetary penalties for the following types of offenses:

RECOMMENDATION #1:

That the Board of Nursing consider imposing monetary penalties in cases of noncompliance with a prior Board order by Nursing Education Programs. The range of monetary penalty may be from \$2,000 - \$5,000, depending on the severity of noncompliance, whether it constitutes repeated violations of the terms of the prior Order, and the impact on students especially if fraud is involved (e.g., falsely documenting clinicals were provided students in certain settings/lifespan, false staff credentials, low NCLEX passage rates).

The rationale for imposing monetary penalties in cases of noncompliance with a prior Board order is similar to licensees who are noncompliant with a prior Board order, wherein a reprimand is often ordered (which may or may not be accompanied by indefinite suspension). Since a nursing education program cannot be issued a reprimand, the monetary penalty would be imposed in lieu of the reprimand for noncompliance and more appropriate for a business entity.

RECOMMENDATION #2:

That the Board of Nursing consider imposing monetary penalties on approved nursing education programs in cases of violations of regulations governing nursing education programs that involved fraudulent activity. The range of monetary penalty may be from \$2,000 - \$5,000, depending on the severity of the violation, whether it constitutes a repeated violation, and the impact on students (e.g., falsely documenting clinicals were provided to students in certain settings/lifespan, false staff credentials).

The rationale for imposing monetary penalties on nursing education programs for substantive violations of the governing regulations involving fraudulent activity is to be consistent with sanctions the board imposes on licensed individuals for fraudulent activity.

- ** NOTE: Recommendation #1 and #2 are pending board counsel opinion whether there is legal authority to impose a monetary penalty on a nursing education program.
 - ** If the Board adopts these Recommendations and legal counsel opines there is legal authority, a Guidance Document will be developed in accordance and a revision made to existing Guidance Document 90-35 (Non-compliance with Prior Board Orders) to incorporate this scenario.
 - **If the Board adopts these Recommendations and legal counsel opines there is no legal authority to impose a monetary penalty on a nursing education program, the Board may consider a legislative amendment to Va. Code §54.1-2401.

RECOMMENDATION #3:

That the Board of Nursing consider imposing a monetary penalty in cases of intentional conduct determined to be abuse by a licensee that does not result in the suspension or revocation of the license, certificate or registration.

The rationale is based on the intentional abusive behavior by the respondent licensee, and may be coupled with a reprimand depending on other factors in the case.

RECOMMENDATION #4:

That the Board of Nursing consider imposing a monetary penalty in cases of intentional conduct determined to be neglect by a licensee that does not result in the suspension or revocation of the license, certificate or registration.

The rationale is based on the intentional neglectful behavior by the respondent licensee, and may be coupled with a reprimand depending on other factors in the case.

** If the Board adopts Recommendations #3 and #4, a Guidance Document will be developed in accordance and a revision made to existing Guidance Document 90-12 (Delegation of Authority to BON RN Education and Discipline Staff) to incorporate these scenarios (adding a #6 in section II.E.)

2) Review and Consideration of Existing Guidance Documents

A. The Committee reviewed and makes the following recommendations regarding existing Guidance Documents that involve Monetary Penalties:

RECOMMENDATION #5:

That the Board of Nursing re-adopt #90-3 - Continuing Competency Violations for Nurses in substance. However, consider revising verbiage in the title and throughout the document to reflect "continued" competency (versus "continuing" competency) to be consistent with terminology used in the Board Regulations.

The rationale for doing so is that the Committee determined the proposed progressive actions for continued competency violations associated with license renewals to still be appropriate, including guidance for amounts and scenarios for imposing monetary penalties. However, the verbiage should mirror exact verbiage used in associated Board regulation.

RECOMMENDATION #6:

That the Board of Nursing re-adopt #90-38 - Disposition of Disciplinary Cases against Nurses and Massage Therapists Practicing on Expired Licenses, but consider revising it to double the amount of each monetary penalty per time frame cited, so that they range from \$200 to \$1,000 for practicing on expired licenses. Additionally, make massage therapist(s) plural in the title and stem sentence.

The rationale for doing so is the Committee felt revisions should be made to increase the monetary penalty amounts imposed to reflect inflation over time (as the amounts have remained the same since adopted in 1999), and due to income received with the associated practice. Additionally, changes are needed in the title and stem sentence to make massage therapist(s) plural to be grammatically correct and consistent with the plural used in nurses.

RECOMMENDATION #7:

That the Board of Nursing re-adopt #90-61 - Disposition of Disciplinary Cases against Certified Nurse Aides and Registered Medication Aides Practicing on Expired Certificates or Registrations, as is, with no changes.

The rationale for doing so is that this was original adopted in 2012 (versus 1999) so less inflation has occurred, along with lesser income received for unauthorized C.N.A and RMA practice.

RECOMMENDATION #8:

That the Board of Nursing incorporate revisions to Guidance Document #90-12 - **Delegation of Authority to Board of Nursing RN Education and Discipline Staff** to authorize staff to offer prehearing consent orders (PHCOs) to impose monetary penalties consistent with the above recommendations and individual guidance documents adopted by the Board:

- a) For existing case types as contained in #90-3, #90-38 and #90-61 (re: continued competency violations and practicing on expired licenses/certificate/registrations) -- incorporating associated revisions made.
- b) For new case types (ie, nursing education program noncompliance, intentional conduct determined to be abuse or neglect without suspension/revocation of license) should the Board adopt new guidance documents regarding these scenarios.

The rationale is to delegate to staff the authority to offer PHCOs in scenarios previously determined appropriate by the Board and contained in new/revised guidance documents, incorporating them by reference into #90-12.

B. The Committee reviewed and makes the following recommendations regarding other existing Guidance Documents related to Discipline:

RECOMMENDATION #9:

That the Board of Nursing change delegated staff authority in #90-12 - Delegation of Authority to Board of Nursing RN Education and Discipline Staff regarding standard of care violation cases to better reflect current Board trends in handling this case type. Specifically, that the Board revise #90-12 (section II.E.4) for staff authority to offer a PHCO for Reprimand in cases of failure to provide acceptable standard of care with patient injury (removing any reference to "one time" failure) and leave staff authority for offering a CCA when there is "little to no injury" or related to a systems issue (section II.G.2).

(A draft capturing the revisions will be provided to the full board at the January 29, 2019 full board meeting.)

The rationale for doing so is that, currently in #90-12, the authority exists for staff to offer a PHCO for Reprimand for "one-time failure to provide standard of care"; additionally authority exists for staff to offer confidential consent agreements (CCAs) for "standard of care violation with little or no patient injury". In reality, cases with one-time standard of care violations without patient injury are often closed undetermined, issued an advisory letter or offered CCAs, rather than offered PHCOs for Reprimand. Further, the Committee believes a better distinction should be made for issuing Reprimands versus CCAs.

Other Discussion regarding Guidance Document #90-12:

The Committee additionally discussed the possibility of adding delegated authority to staff in handling cases involving boundary violation and confidentiality breaches by misuse of social media. However, it decided that matter should be discussed after the review and consideration of the Use of Social Media Guidance Document (#90-48) by the Board. Thus, no recommendation for additions to Guidance Document #90-12 is made at this time regarding this topic.

RECOMMENDATION #10:

That the Board of Nursing adopt all suggested revisions from staff regarding Guidance Document #90-35 – Noncompliance with Board Orders, as detailed below.

(A draft capturing these revisions will be provided to the full board at the January 29, 2019 full board meeting.)

The Committee discussed and considered staff recommendations for revisions to Guidance Document #90-35, which included:

- improving wording to make it clearer and more consistent within the document;
- numbering the types of noncompliance in the chart for easier usage;
- removing referenced distinction in handling orders entered before and after 12/1/2011 (as no longer applicable since all monitored licensees have orders entered more recently); and
- changing Typical Board Actions for failing to obtain/comply with ordered
 evaluations to reprimand and indefinite suspension until such time (...as they appear
 before the board and demonstrate sufficient evidence of safety/competency to
 resume practice) instead of indefinite suspension "until meets the term" (i.e.,
 submitted the evaluation), as this is practically difficult and does not ensure the
 evaluation results are considered before a decision is made regarding lifting the
 suspension and reinstatement of the license.

That the Board of Nursing re-adopt #90-39 – Indefinite Suspension Timeframes, as is, with no changes.

The Committee reviewed and discussed Guidance Document #90-39 - Indefinite Suspension Timeframes, and believes it still appropriate for the Board to: a) routinely consider a two-

year minimum timeframe on indefinite suspensions for cases involving chemical dependency impairment without the option of a stayed suspension with HPMP participation, depending on factors including evidence of chemical dependency treatment and demonstrated period of sobriety; and b) not routinely impose a minimum timeframe on indefinite suspensions due to mental health impairment or practice issues.

December 21, 2018

Dear Commissioners:

Those of you who reviewed the NLC Strategic Planning Retreat briefing book will recall the various compact issues identified during the facilitator-conducted interviews which were included in the qualitative data report. Commissioners who attended the Nov 28-29 retreat know that these issues were also raised in our small group sessions. At the end of the retreat, the facilitator helped us to identify the primary issues which needed attention. They are:

- Philosophy related to original NLC vs. enhanced NLC
- Model consistency; what we want the compact to look like
- **■** Differing expectations and perceptions amongst stakeholders.

In my comments to the retreat participants, I let you know that these issues would be discussed at the Dec 11-12 meeting of the Executive Committee and that "next steps" would be identified and communicated back to you.

The Executive Committee discussed the above Issues and reviewed and considered proposals submitted by the Rules Committee related to multistate licensure implementation and deployment of the enhanced NLC in member states. No decisions were made relative to one specific way in which the multistate licensure model should be operationalized. Rather, the Executive Committee decided that all potential options should be considered and that decisions should be made by the full Commission. To that end, NLC staff is directed to plan and schedule a two-day (8:30 am to 4:30 pm) Commissioner Summit to be facilitated by Dr. Leonard Marcus in the near future. The goal of this meeting is to arrive at (1) the key principles related to multistate licensure which Commissioners agree to embrace, (2) implementation standards and (3) expectations related to licensure when an applicant resides in an NLC state. In the coming weeks, you will receive more information about this summit as well as a pre-summit assignment. Dr. Marcus has limited availability and therefore, I ask that you be very flexible when indicating the dates that you are available to attend. In light of the fact that eight or more states are anticipated to introduce NLC legislation In the 2019 session, it is imperative that the Commission resolve current issues In the short term. Please reply to the doodle poll before Dec 27. It is very important that you plan to attend the summit to participate in the decision-making process. To minimize disruption to your schedule during the legislative session, the summit will be held on a Friday and Saturday. The location is to be determined. While remote teleconferencing will be available, it is often difficult to hear the discussion from throughout the meeting room.

Regards,

Sue Tedford

Letter from the President

POST-BOARD MEETING UPDATE

Dec. 19, 2018

Dear Colleagues,

Your Board of Directors (BOD) met Dec. 3-4 in Chicago. We had a busy and productive meeting. One of the first things on our agenda was receipt of the annual environmental scan. Maryann Alexander and team always do a great job gathering and synthesizing information for this document. It will be published in conjunction with the January 2019 Journal of Nursing Regulation.

We received the Government Affairs update from Elliott Vice. I am pleased to report that NCSBN continues to increase visibility and influence policy at the national level. We were invited to participate at the White House Roundtable on Health Care Reform. NCSBN provided a comment letter and verbal recommendations to the White House staff.

The resulting White House report was just released, titled "Reforming America's Healthcare System through Choice and Competition." The report speaks to the benefit of the Nurse Licensure Compact (NLC) and advocates that states remove scope of practice barriers to allow full scope of practice for advanced practice registered nurses.

The BOD received and approved an unqualified (clean) audit opinion from our external auditors on both our financial statements and retirement plans. The BOD then approved a revision to fiscal policy 8.2, clarifying support and operationalizing the endowment fund approved in September.

We are increasing communication efforts related to Next Generation NCLEX® (NGN). "NGN Talks" (short videos) will be posted on the website. The first video is posted, so check it out! You can expect further discussion about NGN at our Midyear Meeting.

The BOD received an update on 2020–2022 Strategic Planning work from David Benton. Many of you were surveyed recently to solicit feedback about mission, vision and strategic initiatives. Dr. Stephanie Ferguson is analyzing survey results and will meet with the BOD for further work in February.

The BOD evaluates the passing standard for the NCLEX examinations every three years. On Dec. 4, after discussion and consideration of multiple sources of information, we voted to uphold the current passing standard for the NCLEX-RN® examination. The NCLEX-RN passing standard will remain unchanged through March 31, 2022.

If you have any questions, comments, or need for clarification on this report, please don't hesitate to contact me.

In closing, I want to wish all of you a peaceful and healthy holiday season and a very Happy New Year!

Best Regards,

Julia George, MSN, RN, FRE President 919.782.3211 ext. 250 Julie@ncbon.com

To:

Board Members

From:

Trula E. Minton, MS, RN,

Margaret Friedenberg, Citizen Member

Dixie L. McElfresh, LPN

Re:

Slate of Candidates for Officers for 2019

Date:

December 18, 2018

The Nominating Committee agreed to the following slate of Board Members who are interested in running for office for 2019:

President:

Louise Hershkowitz, CRNA, MSHA

(2nd term expires 2021)

First Vice President:

Jennifer Phelps, BS, LPN, QMHPA

(2nd term expires 2021)

Second Vice President: Marie Gerardo, MS, RN, ANP-BC

(2nd term expires 2022)

Mark Monson, Citizen Member

(2nd term expires 2022)

Ann Tucker Gleason, PhD, Citizen Member

(2020 Unexpired Term)

The voting for the election of officers will take place at the January board meeting and nominations may be accepted from the floor.

Legal Memorandum to Employers

TO: Employers Located in Nurse Licensure Compact Member States

FROM: Rick Masters, Special Counsel, Interstate Commission of Nurse License Compact Administrators

DATE: December 11, 2018

RE: Compact Requirement of Acceptance of Multistate License

This memorandum was prepared at the direction of the Executive Committee of the Interstate Commission of Nurse Licensure Compact Administrators in response to reports that some nurse employers in NLC member states have been requiring, as a condition of employment, that nurses apply for a nursing license in the state(s) where the employer is located, notwithstanding the fact that the nurse/employee in question is already licensed in another compact member state which is the primary state of residence ('PSOR").

Article III a. of the Compact provides: "A multistate license to practice registered or licensed practical/vocational nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a nurse to practice as a registered nurse (RN) or as a licensed practical/vocational nurse (LPN/VN), under a multistate licensure privilege in each party state."

Article IV b. of the Compact specifically provides: "A nurse may hold a multistate license, issued by the home state, in only one party state at a time." Moreover, under Article IV c. "If a nurse changes primary state of residence by moving between two party states, the nurse must apply for licensure in the new home state, and the multistate license issued by the prior home state will be deactivated in accordance with applicable rules adopted by the Commission.

- 1. The nurse may apply for licensure in advance of a change in primary state of residence.
- 2. A multistate license shall not be issued by the new home until the nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate license from the new home state."

Article IV d. of the Compact further states: "If a nurse changes primary state of residence by moving from a compact state to a non-compact state, the multistate license issued by the prior home state will convert to a single-state license, valid only in the former home state."

Legal Memorandum to Employers December 11, 2018 Page Two (2)

These provisions of the NLC, in any state in which it is enacted, have the same status as any other state law and entitle a nurse licensee, whose application is refused or whose job is terminated, to take legal action based upon the legal grounds that the multistate license is valid under Article III, a. of the compact and that Article IV expressly prohibits licensure in more than one compact state at a time.

An employer refusing to honor a multistate license or which is, in essence, requiring prospective employees to violate applicable state law by applying for license(s) in more than one compact state, is clearly acting in violation of state law, and is potentially legally liable to such employees for 'wrongful discharge' or "wrongful termination of employment in violation of public policy." See for example, Kirk v. Mercy Hospital Tri-County, 851 S.W.2d 617, 622 (Mo. App. S.D. 1993) (termination of a nurse's employment due to a refusal to violate or condone the violation of the Nurse Practice Act supports a claim for the public policy exception to wrongful discharge).

In summary, it is a violation of the NLC for an employer to refuse to honor a multistate license or requiring prospective employees to violate applicable state law by applying for licenses in more than one compact state, which clearly violates the compact. Such employers are potentially legally liable to such nurse employees for wrongful termination of employment in the event their employment is terminated in violation of public policy as expressed by the NLC requirements.

Guidance document: 90-2

Revised: September 11, 2012

Virginia Board of Nursing

Transmittal of Third Party Orders

Prescriber's orders should be transmitted by them directly to a licensed nurse. However, when circumstances preclude direct transmittal, such orders may be transmitted through a third party—an authorized agent of the prescriber in accordance with §54.1-3408.01 (C) of the Code of Virginia to the licensed nurse. The prescriber assumes responsibility for the orders transmitted by such a third party—an authorized agent and understands that the licensed nurse has the right and responsibility to talk to the prescriber concerning an order for which the nurse needs clarification.

The licensed nurse should include the name of the third party transmitting a prescriber order on the patient record, e.g. M. Smith, R.N. or LPN/ J. Brown (<u>status</u>)/ Dr. Miles.

Prescriber's orders for controlled substances shall be in accordance with requirements of § 54.1-3408.01:

§ 54.1-3408.01. Requirements for prescriptions.

A. The written prescription referred to in § 54.1-3408 shall be written with ink or individually typed or printed. The prescription shall contain the name, address, and telephone number of the prescriber. A prescription for a controlled substance other than one controlled in Schedule VI shall also contain the federal controlled substances registration number assigned to the prescriber. The prescriber's information shall be either preprinted upon the prescription blank, electronically printed, typewritten, rubber stamped, or printed by hand.

The written prescription shall contain the first and last name of the patient for whom the drug is prescribed. The address of the patient shall either be placed upon the written prescription by the prescriber or his agent, or by the dispenser of the prescription. If not otherwise prohibited by law, the dispenser may record the address of the patient in an electronic prescription dispensing record for that patient in lieu of recording it on the prescription. Each written prescription shall be dated as of, and signed by the prescriber on, the day when issued. The prescription may be prepared by an agent for the prescriber's signature.

This section shall not prohibit a prescriber from using preprinted prescriptions for drugs classified in Schedule VI if all requirements concerning dates, signatures, and other information specified above are otherwise fulfilled.

No written prescription order form shall include more than one prescription. However, this provision shall not apply (i) to prescriptions written as chart orders for patients in hospitals and long-term-care facilities, patients receiving home infusion services or hospice patients, or (ii) to a prescription ordered through a pharmacy operated by or for the Department of Corrections or

Revised: September 11, 2012

Guidance document: 90-2

the Department of Juvenile Justice, the central pharmacy of the Department of Health, or the central outpatient pharmacy operated by the Department of Behavioral Health and Developmental Services; or (iii) to prescriptions written for patients residing in adult and juvenile detention centers, local or regional jails, or work release centers operated by the Department of Corrections.

B. Prescribers' orders, whether written as chart orders or prescriptions, for Schedules II, III, IV, and V controlled drugs to be administered to (i) patients or residents of long-term care facilities served by a Virginia pharmacy from a remote location or (ii) patients receiving parenteral, intravenous, intramuscular, subcutaneous or intraspinal infusion therapy and served by a home infusion pharmacy from a remote location, may be transmitted to that remote pharmacy by an electronic communications device over telephone lines which send the exact image to the receiver in hard copy form, and such facsimile copy shall be treated as a valid original prescription order. If the order is for a radiopharmaceutical, a physician authorized by state or federal law to possess and administer medical radioactive materials may authorize a nuclear medicine technologist to transmit a prescriber's verbal or written orders for radiopharmaceuticals.

C. The oral prescription referred to in § 54.1-3408 shall be transmitted to the pharmacy of the patient's choice by the prescriber or his authorized agent. For the purposes of this section, an authorized agent of the prescriber shall be an employee of the prescriber who is under his immediate and personal supervision, or if not an employee, an individual who holds a valid license allowing the administration or dispensing of drugs and who is specifically directed by the prescriber.

Virginia Board of Nursing

Requests for Accommodations for NCLEX and NNAAP Testing and Medication Aide Examination for Registration

Only physical or mental impairments that substantially limit one or more major life activities are considered disabilities subject to protection of the Americans with Disabilities Act (ADA). "Major life activities" include walking, seeing, hearing, speaking, breathing, learning, working, caring for oneself, and performing manual tasks.

Requests for accommodations for testing should be directed to the Virginia Board of Nursing, Nursing Education eonsultant-Program Manager or Deputy Executive Director, and must include the following:

- 1. A letter of request from the candidate that specifies the testing accommodations being requested;
- 2. A written report of an evaluation (educational, psychological, or physical) within the preceding two years from a qualified professional which states a diagnosis of the disability, describes the disability, and recommends specific accommodations;
 - This evaluation should include a professionally recognized diagnosis of the disability and identification of the standardized and professionally recognized tests/assessments given (e.g. Woodcock-Johnson, Wechsler Adult Intelligence Scale; Audiology Assessment; Comprehensive Eye Exam.);
 - If testing was completed more than two years prior to this request, a physician or psychologist must provide a summary stating why current testing is not needed (e.g. the disability does not change over time and new testing would not reveal new information);
 - The scores resulting from testing, interpretation of the scores, and evaluations;
 - The recommendations for testing accommodations with a stated rationale as to why the requested accommodation is necessary and appropriate for the diagnosed disability; and
- 3. A written statement from the Program Director (or designee) of the nursing, nurse aide, or medication aide education program which describes any testing accommodations made while the student was enrolled in the program.

If the request for accommodation is granted, the information will be forwarded to either the National Council of State Boards of Nursing (NCLEX) or to PearsonVUE (NNAAP) or PSI Exam (for Registered Medication Aides) for their review and approval.

Candidates will be notified in writing whether the accommodation is granted or denied.

Guidance document: 90-28

Reaffirmed: March 19, 2013 D 5

Motion to Delete Information included in found in the Regulations for Nursing Education Programs at 18 VAC 90-27-100.B.

Virginia Board of Nursing

Clinical Hours for LPN to pre-licensure RN Transition/Bridge Programs

At its meeting on July 21, 2009, the Board of Nursing adopted the following statement for guidance when response is made to questions regarding the number of clinical hours that may be awarded to Licensed Practical Nurses (LPN's) who enter a pre-licensure Registered Nursing (RN) program. All pre-licensure RN programs must provide students with "a minimum of 500 hours of direct client care supervised by qualified faculty." [18VAC90-20-120.E.]

In general, it is the position of the Board of Nursing that LPN's transitioning into a pre-licensure RN program may be awarded not more than 150 clinical hours from their practical nursing program.

The remaining 350 hours must "encompass the attainment and maintenance of physical and mental health and the prevention of illness for individuals and groups throughout the life cycle in a variety of clinical settings" [18VAC90-20-120.B.1], which shall include registered nursing clinical experiences in Obstetrics, Pediatrics, Mental Health, and Medical/Surgical nursing.

This recommendation is intended to be merely advisory.

Accepted: July 21, 2009

Reviewed and reaffirmed: March 19, 2013

Virginia Board of Nursing

Whether a Nurse May Administer a Medication That Has Been Transmitted Orally Or In Writing By a Pharmacist Acting as the Prescriber's Agent

There is nothing in the laws or regulations governing the practice of nursing which would prohibit the nurse from administering a medication that had been so recorded by the pharmacist, provided the medication was actually ordered by a practitioner authorized to prescribe and provided the pharmacist had been so designated by that practitioner to act as his agent in accordance with \$54.1-3408.01 (C) and further transmit his oral, written or electronic order.

"Professional nursing", "registered nursing", and "registered professional nursing", as defined in § 54.1-3000 of the Code of Virginia includes the administration of medications or treatments as prescribed by any person authorized by law to prescribe such medications and treatments. While the term "prescribe" is not defined, the term "prescription" is defined in § 54.1-3401 of the Drug Control Act, Code of Virginia as the communication of an order for drugs or medical supplies to a pharmacist by a practitioner authorized by law to prescribe. In addition, § 54.1-3408 § 54.1-3408.01 (C) of the Code of Virginia authorizes a prescriber to make a licensed pharmacist or nurse his agent for the purpose of transmitting an oral prescription, whether or not that pharmacist or nurse is an employee of the prescriber.

For guidance on transmittal of a prescriber's order through a third party to a nurse and the right of the nurse to talk to the prescriber concerning the order, please refer to Guidance Document 90-2.

Adopted: September 8, 1998

Revised: November 18, 2003

September 12, 2012

January 4, 2019

Greetings,

We are writing to inform you that exam prices for the National Nurse Aide Assessment Program NNAAP will be changing effective February 1, 2019. The new fees for the exam will be:

Written Examination & Skills Evaluation (Both)	\$120
Oral Examination & Skills Evaluation (Both)	\$120
Written Examination Only	\$45
Oral Examination Only	\$45
Skills Evaluation Only	\$95

Any candidates testing on or after February 1, 2019 will have the new exam fees. If a candidate has already scheduled an exam appointment, no action will be necessary unless they reschedule or cancel their current appointment.

We are in the process of updating the website, candidate handbook, and the customer service teams.

Best regards,

Aaron Peterson

MEMORANDUM

To:

Board Members

Virginia Board of Nursing

From:

Paula B. Saxby, R.N., Ph.D.

Deputy Executive Director

Date:

January 16, 2019

Subject:

Revised Nurse Aide Curriculum

Emailed and provided on a jump drive with the Board mailing

*** (see note)

In response to a request from Delegate Robert D. Orrock, Sr., a task force was convened with the following stakeholders to discuss existing practices and curricula for certified nurse aides and seek ways to standardize and improve the training provided to Certified Nurse Aides.

Stakeholders:

JFS Richmond and Governor's Health Workforce Development Authority (VHWDA), Leading Age Virginia, Sunnyside Retirement Community, Alzheimer's Association, Virginia Department of Social Services, Virginia Health Care Association, Department for Aging and Rehabilitation Services, Adult Protective Services Division, Virginia Assisted Living Association (VALA), Virginia Department of Health (VDH), Virginia Department of Education (VDOE), and Virginia Nurses Association.

Summarv:

The first meeting was held on July 14, 2016 and a curriculum subcommittee was developed and met several times a year for the past 2½ years. The Chair of the committee was Dr. Joyce Hahn, with representatives of Board members (latest members were Mark Monson and Jennifer Phelps), as well as Board staff to guide the discussion and work on the curriculum and possible changes to the regulations.

The curriculum was reviewed page by page and unit by unit with input from each stakeholder group. After several edits and rewrites with Board members, Board staff, and stakeholder review, the Board is being presented with the revised curriculum in its entirety. It was not possible to show all changes and edits since there were so many revisions throughout this process. There were not any substantive changes, however, there was careful review and input from Adult Protective Services, Virginia Health Care Association and Assisted Living stakeholders, Department of Social Services, as well as, the Alzheimer's Association related to

dementia care and care of the elderly in general. We have also changed the format of the curriculum to "landscape" and added sections for teaching tools/resources; student evaluation; and instruction time allocation (classroom, skills lab, and clinical). The additional sections will allow each school/program to be accountable for how they are teaching the content and objectives of the curriculum.

Action:

The Committee is recommending using the revised curriculum and is asking for Board approval. There are regulations pending requiring schools/programs to use the Board approved curriculum. At this time, the Board approved curriculum is an option for schools/programs, however, most approved programs are using the Board approved curriculum and are eagerly awaiting the new version.

*** Please bring the jump drive to the Board meeting on January 29, 2019 as you will be required to turn these in on that day. Please be prepared for discussion and voting on the adoption of this revised nurse alde curriculum.

If you are in dire need of a hard copy of the curriculum, please contact Sylvia Tamayo-Suljk (Sylvia.tamayo-suljk@dhp.virginia.gov) at your earliest convenience

UNIT I - THE NURSE AIDE IN LONG-TERM CARE

EVALUATION TIME (classroom, skills lab, clinical)		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	I. Long-term Care & Acute Care A. Independent living B. Home health care C. Adult day care D. Assisted living facility E. Nursing home F. Hospice G. Continuum of care facility H. Rehabilitation I. Hospital (inpatient & outpatient) J. Dementia/memory care	II. Payment Options for Long-term Care Facilities A. Private pay 1. resident pays for health care from personal resources B. Group insurance 1. resident's health care is paid for by insurance that the resident has previously paid C. Medicaid 1. medical assistance program for low- income residents that pays for the resident's healthcare D. Medicare 2. funded by Social Security 3. Minimum Data Set (MDS) report required for each Medicaid
OBJECTIVES	Describe the different types of health care organizations as evidenced by participation in classroom discussion.	Describe comparisons and differences of various methods that residents use to pay for long-term care as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	III. Omnibus Budget Reconciliation Act of 1987 (OBRA-87) A. Federal regulation B. Set standards of care for long-term care facilities C. Requires all nurse aides in long-term care facilities to: 1. complete training program 2. pass certification exam D. Requires each state to have a registry of nurse aides (see Unit XIV) 1. available to the public 2. contains information on nurse aide's performance, including resident abuse 3. information to be kept minimum of five (5) years E. Requires continuing education 1. minimum of 12-hours in-service each year for nurse aides F. Requires nurse aide who has not worked for 2 consecutive years to retake the certification exam IV. The Health Care Team A. The Nurse 1. Registered Nurse (RN) 2. Licensed Practical Nurse (LPN) B. The Nurse Aide 1. care for residents 2. assist the RN and LPN 3. supervised by the RN or LPN C. Interdisciplinary Team 1. resident 2. physician
OBJECTIVES	Describe the role of the nurse aide in long-term care facilities as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		*
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	3. registered dietitian/nutritionist 4. physical therapist 5. occupational therapist 6. family member 7. social worker 8. licensed nurse 9. nurse aide 10. activities/enrichment 1. bathing 2. dressing 3. grooming 4. mouth care 5. toileting 6. eating & hydration 7. caring for skin; prevention of pressure ulcers B. Bed making C. Taking/recording vital signs; height & weight D. Observing/reporting resident changes to licensed nurse E. Maintaining safety, including fall prevention F. Caring for equipment G. Infection control	VI. Professional Behavior of the Nurse Aide A. Attitude 1. outward behavior 2. disposition 3. positive attitude a. caring b. compassionate c. committed to the job
OBJECTIVES	Describe common tasks for the nurse aide as evidenced by participation in classroom discussion.	Discuss professional behaviors of the nurse aide as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	B. Behavior 1. neatly dressed following facility uniform policy 2. on time to work 3. avoid unnecessary absences 4. use appropriate language 5. do not gossip about co- workers/residents 6. keep resident information confidential 7. speak politely 8. follow facility policies and procedures C. Grooming 1. wear clean, neat, unwrinkled uniform 2. attend to personal hygiene 3. do not use strongly scented fragrances (perfume, lotions, after-shave, body wash, hair spray) 4. keep hair away from your face 5. long hair should be secured at the back of the head or neck 6. keep beards neat and trimmed 7. use make-up sparingly 8. keep nails short 9. do not wear false nails 10. keep shoes/laces clean 11. jewelry should be minimal D. Work ethic 1. attitude toward work 2. punctual 3. reliable 4. accountable 5. conscientious 6. respectful of others
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	8. cooperative 9. empathetic 10. Delegation (see Regulations Governing the Practice of Nursing 18VAC90-20-420 to 460) 11. A Transferring authority to a person for a specific task 12. RN may delegate tasks to a nurse aide (NA) 13. RN retains responsibility and safely perform task 14. Relegated task communicated to NA on a resident-specific basis accountability for care of resident and supervises the NA 15. RN retains responsibility and accountability for care of resident and supervises the NA 16. RN on a resident-specific basis 5. clear, specific instructions for performance, potential complications, expected results are given to NA 16. NA is clearly identified with a name tag 17. NA may not reassign a task that has been delegated to her/him NIII. Applying for Employment as a Nurse Aide 18. Considerations 19. type of facility 2. adequate transportation 3. child care B. Complete resumé and application C. Guidance Document 90-55
OBJECTIVES	Explain delegation as it relates to the nurse aide as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	1. impact of criminal convictions on potential employment 2. certain convictions prohibit employment in long-term care facilities 3. review Guidance Document 90-55 D. Interview 1. arrive on time 2. dress appropriately a. professional attire b. neat 3. maintain good eye contact b. neat 6. be prepared to answer questions 7. be prepared to ask questions 6. thank the interview 7. mail short thank-you note the day after interview
OBJECTIVES	Explain the impact of Guidance Document 90-55 on potential employment for a nurse aide as evidenced by participation in classroom discussion.

UNIT II -- COMMUNICATION AND INTERPERSONAL SKILLS (18VAC90-26-40.A.1.a) (18VAC90-26-40.A.5.b) 18VAC90-26-40.A.10)

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	1. Elements of Communication 1. message 2. sender 3. receiver B. Listening is part of communication 1. hear the message 2. show an interest in the message 3. do not interrupt 4. ask appropriate questions for clarification 5. be patient allowing resident time to respond 6. reduce or eliminate distraction 7. use silence appropriately C. Non-verbal communication 1. posture 2. appearance 3. eye confact 4. gestures 5. facial expressions 6. touch 7. level of activity D. Barriers to communication 1. talking too fast or too softly 2. avoiding eye contact 3. belittling resident's feelings 4. physical distance 5. false reassurance 6. false reassurance 7. level of activity 8. avoiding eye contact 9. belittling resident's feelings 9. false reassurance 1. physical distance 1. can also a contact 2. dalse reassurance	6. changing subject 7. giving advice
OBJECTIVES	Identify three aspects of communication as evidenced by a minimum grade of 80% on the unit test. Demonstrate the ability to listen as evidenced by non-verbal communication such as eye contact, facial expression and verbal feedback. Recognize barriers to communication as evidenced by participation in classroom discussion.	

INSTRUCTION TIME (classroom,		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	8. use of slang/medical jargon II. Senses in Communication A. Sight 1. look for changes in resident 2. report changes to licensed nurse B. Hearing 1. listen to resident and family C. Touch 1. touch and feel for any changes in resident's body 2. report any changes to licensed nurse D. Smell 1. report any unusual odor	III. Communication Among the Health Care Team A. Resident's medical record (chart) 1. admission sheet 2. health history 3. examination results 4. physician's orders 5. physician's orders 6. health team notes 7. lab test results 8. special consents B. Hard copy of health record (EHR) 1. condensed version of medical record C. Minimum Data Set (MDS) 1. assessment tool 2. provides structured, standardized approach to care 3. helps identify resident
OBJECTIVES	Identify the role of the four senses in communication as evidenced by minimum grade of 80% on the unit test.	Describe the documents that are used by the health care team to communicate information and needs of the resident as evidenced by the ability to locate specific information in a designated documentation tool.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	health care problems D. Person-centered care plan 1. outlines care that health care team must perform to assist resident to attain optimal level of functioning 2. written by the nurse (RN or LPN) 3. nurse aide contributes by reporting signs and symptoms he/she observes 4. includes objective and subjective information a. objective – information that can be seen, heard, touched, smelled b. subjective – cannot be observed, may be heard or something the resident said E. The nursing process 1. assessment by the RN a. physical inspection b. medical record c. identifies resident's actual or potential health care problems 2. diagnosis 3. plan - sets goals and a plan to meet those goals 4. implementation - providing care to resident following the plan 5. evaluation - look carefully to see if the desired goals have been achieved; if goals are not achieved; if goals are not achieved care plan should be changed 6. nurse aide observations and
OBJECTIVES	understanding of the nursing process as evidenced by correctly observing and reporting objective and subjective information related to a specific task identified in the resident's personcentered nursing care plan.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	goals F. Reporting and documentation 1. throughout the day report changes in condition to the appropriate staff per facility policy 2. shift report a. received at beginning of shift from previous shift before nurse aide leaves unit at end of shift c. includes observations of changes in resident's condition or behavior 3. documentation a. all information is confidential b. document immediately after care is given c. never document before providing care d. document care in designated documentation tool (i.e. resident paper chart or other electronic health record) e. write notes neatly and legibly f. always sign your name and title g. document only facts, not opinions h. use accepted abbreviations i. do not erase or use white-out, draw a single line through and initial any error (follow facility guidelines)
OBJECTIVES	Demonstrate end-of-shift communication as evidenced by giving an accurate end-of-shift report and documenting with 100% accuracy on the resider ADL record.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	4. ADL record (activities of daily living) – check sheet for routine activities G. Communicating on the telephone 1. speak clearly and slowly 2. identify your facility and unit 3. identify who you are and your title 4. listen carefully 5. write any messages 6. end call with "thank you" and "good-bye"	N. Communicating with Specific Populations A. Hearing impaired 1. identify any assistive devices that resident uses a. hearing aides b. communication boards c. lip reading d. sign language 2. reduce distracting noise a. TV b. radio c. noise in adjacent room 3. get resident's attention before speaking 4. speak clearly, slowly 5. maintain eye contact 6. use short, simple words 7. use picture cards 8. write, if necessary
OBJECTIVES	Demonstrate the correct way to talk on the telephone as evidenced by completing a resident scenario with 100% accuracy.	Demonstrate communicating with a hearing-impaired resident as evidenced by use of six (6) of the eight (8) strategies identified in class.

INSTRUCTION TIME (classroom, skills lab. clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	B. Visually impaired 1. identify any assistive devices that resident uses a. glasses b. special lighting 2. knock on door and introduce yourself when entering room 3. position resident so they are not looking into bright light or bright window 4. position yourself where resident can see you 5. have adequate light in room 6. encourage resident to wear glasses 7. use face of a clock to describe location of items 8. only move items with permission	C. Dementia and cognitive impairment 1. recognizing the resident with cognitive impairment a. memory problems, trouble expressing oneself, not finding the right words to say b. trouble with being in new places; not knowing where one is c. trouble making decisions; confusion and inability to use logic d. trouble focusing for long; losing a train of thought easily e. most resident's cognitive condition will change over time
OBJECTIVES	Demonstrate communicating with a visually-impaired resident as evidenced by use of six (6) of the eight (8) strategies identified in class.	Describe the characteristics of cognitive impairment as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	2. cognitive impairment may be due to: a. Parkinson's disease b. multiple types of dementia including Alzheimer's c. strokes d. traumatic brain injuries e. alcoholism or drug toxicity (can be reversed) f. depression g. delirium h. urinary tract infection (UTI) 3. residents with cognitive impairment may be extremely anxious or frustrated and unable to communicating b. residents with needs a. cannot get needs met without communicating b. resident may need pain relief c. rights of resident may be violated d. may be uncooperative with your care if they do not know what you are doing 4. communication skills must be tailored to meet the needs of cognitively impaired residents a. be sure to have the resident c. allow the resident copportunities to talk d. keep the same routine as much as possible
OBJECTIVES	Explain why Explain why Communication challenges need to be overcome and list methods to overcome these challenges as evidenced by participation in classroom discussion and list methods to sovercome these challenges as evidenced by participation in classroom discussion and role-play scenarios.

INSTRUCTION TIME (classroom, skills lab. clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	e. be honest and reliable to gain resident's trust f. know resident's likes and dislikes g. speak slowly, softly, and simply D. Families l. respond to requests and complaints 2. answer questions honestly E. Other members of the health care team l. be tolerant of co-workers 2. be respectful of co-workers 3. be quiet when others are speaking 4. listen to ideas of co-workers 5. approach new ideas with an open mind 6. use appropriate language 7. use appropriate language 8. do not curse or use slang 9. do not talk about residents in a rude or disrespectful manner	V. Interpersonal Skills for the Nurse Aide A. Accept every resident 1. be tolerant 2. be patient 3. be understanding 4. be sensitive to needs of resident B. Listen to resident C. Be prepared to handle disagreement and criticism
OBJECTIVES	Discuss communicating with families as evidenced by using strategies discussed in class. Given specific scenarios, demonstrate appropriate communication with members of the health care team as evidenced by using seven (7) of the nine (9) communication strategies discussed in class.	Discuss important interpersonal skills for the nurse aide as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TOOLS/RESOURCES	
CONTENT OUTLINE	VI. Conflict Management A. Signs of stress at work I. anger or abuse displayed toward resident 2. arguing with supervisor 3. poor working relations with co- workers 4. complaining about responsibilities of job 5. having difficulty focusing on work 6. experiencing "burn out" B. Resources to assist with stress management I. family 2. friends 3. supervisor 4. place of worship 5. mental health agency C. Causes of conflict in the workplace I. misunderstanding 2. misinterpretation 3. stress 4. poor communication D. Who may be involved in conflict I. resident 2. family member 3. visitor 4. staff E. Conflict involving resident I. report to supervisor 2. report to ombudsman a. legal advocate for resident b. investigates complaints c. decides action to take if there is a problem
OBJECTIVES	Given selected scenarios, identify the stressors for the nurse aide and the resources the nurse aide may use to deal with the stress as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	d. educates consumers and care providers e. appears in court/legal hearings f. gives information to public F. Strategies for nurse aide to manage conflict l. stay calm, do not become emotional 2. remove yourself from the area of the conflict 3. be aware of your body language 4. do not discuss conflict in front of resident 5. speak privately with the person involved in the conflict 7. use "P" sentences 8. listen to the other person 9. ask other person for ideas on how to resolve conflict 10. be open to a solution 11. may be necessary to agree to disagree G. Critical thinking process l. identify the problem 2. list alternatives to solve the problem 3. list pros and cons to alternative solutions 4. mutually decide on a solution 5. evaluate the solution together
OBJECTIVES	Demonstrate conflict management strategies discussed in class as evidenced by successful resolution of conflicts in given role-play scenarios.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	National Council of State Boards of Nursing (NSCBN) Video Library: Professional Boundaries in Nursing Social Media Guidelines for Nurses
CONTENT OUTLINE	A. Definition of social media – a group of internet-based applications that allow the creation and exchange of user-generated content such as pictures and videos B. Some types of social media 1. Twitter 2. Facebook 3. Snapchat 4. Instagram 5. YouTube C. CNAs must protect the resident's privacy and confidentiality at all times 1. breaches in privacy or confidentiality can be a. intentional – i.e. posting a picture on Facebook of a resident wing in bed b. unintentional – posting a picture of self and a resident on Facebook 2. Health Insurance and Portability and Accountability Act (HIPAA) and Health Information Technology for Economic and Clinical Health (HITECH) protect resident's privacy 3. if you are aware of any violation it should be reported, whether intentional, or unintentional D. Use and misuse of resident's social media
OBJECTIVES	Demonstrate an understanding of boundary violations, use and misuse of social media, and use of cell phones, (pictures and texting) as it relates to the care of residents as evidenced by successful participation in role play scenarios and during clinical portion of course. Demonstrate the importance of protecting the resident's privacy and confidentiality as evidenced by participation in class discussion.

OBJECTIVES	CONTENT OUTLINE	TEACHING TOOLS/RESOURCES	STUDENT	INSTRUCTION TIME (classroom, skills leb clinical)
	E. Boundary violations			
	1. NEVER post pictures or			
	videos of residents on			
	any type of social media			
	2. may be subject to criminal			
	penalties and civil sanctions –			
	severe violation up to			
	\$250,000 fine and 10 years in			
	federal prison			
	3. may lose license			
	4. may be terminated by employer			

UNIT III – INFECTION CONTROL (18VAC90-26-40.A.1.b)

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	A. Microbes that cause disease (pathogens) 1. bacteria a. E. coli (urinary tract infections) i. bacteria found throughout the environment b. Staphylococcus aureus (skin infections) c. Group A Streptococcus (strep throat) d. other bacteria 2. fungus a. yeast infections b. athlete's foot c. ringworm 3. virus a. Haemophilus influenzae (Hib) i. flu - can be caused by different strains ii. prevention with flu vaccine b. common cold c. human immunodeficiency virus (HIV) d. hepatitis e. norovirus (gastroenteritis) i. very contagious causing vomiting and diarrhea 4. parasite a. giardia (intestinal parasite) b. roundworm c. tapeworm d. pinworm
OBJECTIVES	List various types of pathogens that cause disease as evidenced by a minimum grade of 80% on the unit test.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	B. Chain of infection 1. microbe (pathogen) 2. reservoir a. place for pathogen to accumulate 3. means for microbe to leave reservoir 4. method of transmission a. how the pathogen spreads 5. portal of entry to host a. how the pathogen enters the new host 6. susceptible host a. person infected C. Factors contributing to incidence of infection 1. number of organisms (pathogens) present a. hospital acquired infection— nosocomial 2. virulence of organism or pathogen 3. susceptibility of the host a. age b. illness c. chronic disease d. poor nutrition e. poor hygiene f. stress g. fatigue f. stress g. fatigue 6. environmental conditions that foster growth of pathogens a. food—live or dead matter b. moisture c. warm temperature d. darkness
OBJECTIVES	Describe the relationship of pathogens to the chain of infection as evidenced by a minimum grade of 80% on the unit test. Identify factors contributing to the incidence of infection as evidenced by minimum grade of 80% on the unit test.

STUDENT INSTRUCTION EVALUATION TIME (classroom, skills lab, clinical)	
STU	
TEACHING TOOLS/RESOURCES	
CONTIENT OUTLINE	D. Sources of infection 1. human a. not washing hands after going to the bathroom b. coughing/sneezing into your hands c. poor hygiene 2. animal a. fecal contamination b. cat scratch fever c. deer tick (Lyme disease, Rocky Mountain spotted fever) d. mosquito (West Nile virus, malaria) e. meat that is not prepared to the proper temperature 3. environment a. contaminated water b. contaminated food c. food that is not properly refrigerated E. Sites of infection 1. respiratory system 2. urinary system 3. blood 4. break in the skin 5. intestinal tract F. Human body defenses against infection 1. external defenses a. the skin b. mucous membranes c. hair in the nose and ears d. keeping the skin clean e. good oral hygiene 2. internal defenses a. immune response i. blood goes to area to clean i. blood goes to area to
OBJECTIVES	Describe sources and sites of infection as evidenced by participation in classroom discussion. Identify human defenses against infection as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	away pathogens (redness, swelling, warmth) ii. white blood cells attack pathogen (pus) iii. increased body temperature (fever) helps to destroy pathogens b. antibodies i. special proteins created by previous exposure to a pathogen ii. created by vaccination to a pathogen iii. attack newly arrived pathogens G. Early signs/symptoms of infection 1. feeling "unwell" 2. sore throat 3. coughing 4. fever/chills 5. nausea 6. diarrhea 7. drainage from a skin wound 8. report these signs to appropriate licensed nurse licensed nurse H. Why the elderly are so susceptible to infection 1. immune system becomes weaker 2. skin becomes thinner and tears more easily 3. limited mobility increases risk of pressure sores and skin infections 4. decreased circulation slows response of the blood to an infection 5. decreased circulation slows wound healing
OBJECTIVES	List early signs of infection and the importance of reporting signs to a licensed nurse as evidenced by completion of classroom scenario. Explain why the elderly are so susceptible to infection as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)						
STUDENT						
TEACHING TOOLS/RESOURCES						
CONTENT OUTLINE	catheters and feeding tubes are portals of entry for pathogens dehydration increases risk of infection malnutrition decreases body's defense mechanisms against infection	II. Prevention of Infection A. Standard Precautions I. all blood, body fluids, non-intact skin and mucous membranes are considered infected a. blood	b. tears c. saliva d. sputum e. vomit f. urine	g. feces h. pus or any fluid from a wound i. vaginal secretions j. semen 2. always follow Standard Precautions 3. established by Centers for Disease	B. Standard Precautions guidelines 1. wash hands before putting on gloves 2. wash hands after taking off gloves 3. do not touch clean objects with contaminated gloves	 4. immediately wash all skin contaminated with blood and/or body fluids 5. wear gloves if you may come in contact with blood or body fluids
OBJECTIVES		Describe Standard Precautions guidelines as evidenced by participation in classroom discussion.				

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	6. wear a gown if your body may come in contact with blood or body fluids 7. wear a mask, goggles and/or face shield if your face may come in contact with blood or body fluids 8. place all contaminated supplies in special containers 9. dispose of all sharp objects in biohazard containers 10. never recap a needle 11. clean all surfaces potentially contaminated with infectious waste C. Medical asepsis 1. physically removing or killing pathogens 2. uses a. soap b. water c. antiseptics d. disinfectants e. heat 3. sanitation a. basic cleanliness b. hand washing c. washing the body, clothes, linen, dishes a. kills pathogens or stops them from growing b. rubbing alcohol c. iodine 5. disinfect a. kills pathogen b. cleaning solutions 6. sterilization a. uses pressurized steam to kill
OBJECTIVES	Compare different methods used to achieve medical asepsis as evidenced by 80% minimum grade on unit test.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	D. Hand hygiene 1. most important factor in preventing transmission of pathogens 2. alcohol-based solutions are not a substitute for proper hand washing a. hand hygiene must include washing with soap and water versus hand sanitizer 3. keep fingernails short and clean washing with soap and water versus hand sanitizer 5. rings and bracelets collect pathogens and should not be worn of use lotion to keep skin soft and intact 7. when to wash hands a. arrival at work b. entering resident's room c. leaving resident's room d. before and after feeding resident e. before putting on gloves and after removing gloves fluids g. before and after handling food h. before and after handling sour hair k. after using the bathroom 1. after smoking j. after handling your hair k. after using the bathroom 1. after coughing, sneezing or blowing your nose m. before leaving the facility n. when you get home 8. hand washing technique in most current
OBJECTIVES	Washing technique as evidenced by Satisfactory grade on Skills Record.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	Virginia Nurse Aide Candidate Handbook E. Personal protective equipment (PPE) 1. barrier between a person and disease 2. gloves, mask, gown, goggles, face shield 3. don and remove PPE a. use technique in most current Virginia Nurse Aide Candidate Handbook F. Isolation precautions 1. for residents who may be infected or colonized with certain infectious agents (CDC) 2. measures taken to contain pathogens 3. follow CDC guidelines or facility policy 4. protocols to prevent exposure of other residents/staff to pathogens 5. Two levels of isolation precautions i. For all resident care ii. For all resident care iii. For all resident sagents b. 2 rd level - Standard Precautions contain infectious agents b. 2 rd level - Transmission-based 6. Three types a. contact - transmitted by touching such as skin, wound infections, feces, respiratory secretions b. droplet - transmitted by droplets from mouth or nose such as influenza, strep throat, pneumonia
OBJECTIVES	Demonstrate proper donning and removing technique for personal protective equipment as evidenced by Satisfactory grade on Skills Record. Identify various types of isolation precautions as evidenced by participation in classroom discussion.

OBJECTIVES CONTENT OUTLINE	c. airborne – transmitted through air, like tuberculosis, chicken pox 7. infectious agents commonly seen:
TOOLS/RESOURCES	nitted through osis, chicken mmonly seen: lin Resistant ureus) in Resistant lin Resistant lin Resistant lin Resistant sistant bacteria hronic illness tum difficile)— h causes the colon hea and serious the rest/sleep come to work k and secured for nails and nated waste to dispose of to dispose of disposed or disposed

STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	1. environmental risk factors a. floor – wet, cluttered b. equipment not used properly c. equipment not kept in good repair d. special precautions e. arrangement of furnishings/equipment to allow for a clear walkway (med cart, O2 tank, etc.) f. mirrors g. throw rugs h. shadows i. smells/odors j. lighting k. stairs 2. resident risk factors a. functional ability/frailty b. impaired vision c. impaired sense of smell e. impaired sense of smell e. impaired behavior h. impaired memory g. altered behavior h. impaired memory g. altered behavior h. impaired memory g. altered behavior c. use of equipment without proper training b. being in a hurry c. use of poor body mechanics c. use of poor body mechanics l. fall risks for the elderly resident a. impaired vision b. impaired hearing c. decreased balance/unsteady gait c. decreased balance/unsteady gait
OBJECTIVES	List risk factors for common accidents as evidenced by minimum grade of 80% on the unit test.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	d. impaired memory e. disoriented f. confused g. slower reaction time h. slower movements i. tremors j. medications j. medications 2. measures to prevent falls a. keep personal items within reach b. keep call bell within reach c. answer call bell within reach their glasses e. maintain adequate lighting in areas where resident to wear their glasses e. maintain adequate lighting in areas where resident will ambulate f. lock brakes on movable equipment g. wear non-skid footwear when walking h. wear clothing and footwear that fits properly – not too big or too long i. toilet resident on a regular basis j. keep clear walkway in room and halls k. avoid use of throw rugs l. wipe spills on the floor immediately m. only rearrange resident's furnishings with their approval n. report any equipment not in good working order o. report any payed electrical cords p. report any observations of high risk resident behavior
OBJECTIVES	Identify safety procedures to prevent falls in health care facilities as evidenced by participating in classroom discussion and demonstration in skiils lab.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	3. report a fall to appropriate licensed nurse immediately – follow health care facility policy for care of resident who has fallen D. Prevention of scalds and burns 1. scalds a. burns caused by hot liquid such as water, coffee or tea b. liquid temperature 140° or greater 2. burns a. cigarette burns d. electrical burns d. electrical burns 3. measures to prevent scalds or burns a. water temperature should be 110° b. do not have resident use to check water temperature of water before giving resident bath or shower d. use low setting on hair dryers e. do not use microwave oven to prepare a warm soak or application f. encourage resident to allow hot drinks to cool before drinking g. if resident has tremors, encourage use of closed cup when drinking hot liquids h. pour hot liquids away from residents i. require to follow facility smoking policy i. require to follow facility i. require to follow facility
OBJECTIVES	Identify the importance of reporting falls to the appropriate supervisor as evidenced by participating in classroom discussion. Discuss measures to prevent various common accidents in health care facilities as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	for fraying and report any that are frayed; use safety outlet plugs k. avoid keeping cleaning chemicals in areas where have access l. report a scald or burn to appropriate licensed nurse immediately - follow health care facility policy for care of resident who has been scaled or burned 4. Safety Data Sheets (SDS) a. an OSHA requirement in all health care facilities for any dangerous chemical on site b. all staff should have access and know where these are kept c. information included on SDS i. chemical ingredient ii. danger of the product 5. PPE to be worn when using chemicals 6. correct way to use and clean up the chemical 7. emergency action to take if the chemical 8. safe handling procedures for the chemical 9. risk factors a. personal care items - nail polish remover, soaps, perfume, hair products b. cleaning supplies c. some plants/flowers 2. Poison Control phone number
OBJECTIVES	Identify the information contained on a Safety Data Sheet (SDS) as evidenced by accurately reading a specified SDS.

ON TIME (classroom, skills lab, clinical)	
STUDENT	
TOOLS/RESOURCES	
CONTENT OUTLINE	3. measures to prevent poisoning a. keep cleaning chemicals in locked cabinet b. check drawers for hoarded food that may have spoiled c. keep medications away from the bedside d. report a poisoning to appropriate licensed nurse immediately a. follow health care facility policy for care of a who has been poisoned F. Prevention of choking l. object blocks the trachea (windpipe) 2. risk factors a. difficulty swallowing b. disoriented 3. measures to prevent choking a. resident in upright position for eating/feeding b. do not rush resident while eating c. cut food into small pieces d. use thickening for liquids if resident has difficulty with thin liquids e. make sure dentures fit correctly f. report any problems with swallowing or choking to appropriate licensed nurse d. demonstrate how to deal with an obstructed airway a. follow health care facility guidelines for obstructed airway a. follow health care facility
OBJECTIVES	Demonstrate the procedure for dealing with an obstructed airway as evidenced by successfully performing the procedure on a manikin.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	G. Prevention of suffocation 1. risk factors a. improperly fitting dentures b. poor feeding technique c. unattended baths d. use of restraints d. use of restraints 2. measures to prevent suffocation a. report to appropriate licensed nurse any dentures that do not fit properly b. always have resident in upright position when eating c. never leave resident in upright position when eating c. never leave resident unattended in a bath tub, whirlpool or shower d. avoid use of physical or chemical restraints 1. restraints a. restrict voluntary movement or behavior b. may be physical or chemical c. physical restraints/protective devices a. examples – vest, wrist/ankle restraints, waist/belt restraint, mitt b. bed side rails c. any chair that prevents resident from rising (geriatric table chair; recliner) 3. chemical restraints - medication that controls resident's behavior 4. problems with restraints/protective devices a. bruising
OBJECTIVES	Discuss the use of restraints, including the reasons to avoid their use, as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	b. decreased mobility i. pressure sores ii. pressure sores iii. incontinence iv. constipation c. social isolation d. stress and anxiety e. increased agitation f. loss of independence g. loss of dignity h. loss of self-esteem i. risk of suffocation 5. use of restraints/protective devices a. requires health care provider order b. illegal to use for convenience of the staff c. resident must be continually monitored, at least every 15 minutes d. restraint afternatives (restraint-free care) - evaluate situation for cause of behavior or problem by anticipating resident's needs: a. is resident wet? b. is resident thirsty? c. is resident thirsty? c. is resident thirsty? f. is resident bored? 7. observe for emotional status 8. observe for pain
OBJECTIVES	Explain the importance of and frequency of monitoring the resident while restraints/protective devices are in use as evidenced by participation in classroom discussion. Identify alternatives to restraints/protective devices as evidenced by active participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	9. is resident confused/disoriented? a. encourage resident independence i. provide meaningful activities ii. encourage to participate in activities to the best of resident's ability iii. redirect the resident's engagement i. involve in activities/life enrichment appropriate for resident iii. take resident for walk iiii. encourage participation in social activities that are meaningful to the resident iv. provide reading materials v. read to resident if desired 10. provide a safe area for resident to ambulate a. well-lighted b. free of clutter c. make sure resident wears non- skid footwear d. provide activity for resident who wanders at night 11. reduce tension and anxiety a. toilet every 2 hours b. escort resident to social activities c. provide backrub d. offer snack or drink e. reduce noise level around
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT II EVALUATION TI		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	f. play soothing music 12. involve family in resident's care a. encourage visits b. encourage participation in care of resident 13. other alternatives to restraints a. bed/chair alarms b. specially shaped cushions 14. report any changes in resident's behavior or mental status to appropriate licensed nurse 15. answer call bells immediately	II. Workplace Safety A. Body mechanics 1. definitions a. alignment – keeping muscles and joints in proper position to prevent unnecessary stress on them b. balance – keeping center of gravity close to base of support c. coordinated body movement – using your body weight to help move the object 2. lifting a. feet hip distance apart b. back straight c. knees bent d. object close to you e. tighten abdominal muscles f. lift with leg muscles g. keep object close to your body h. keep your back straight
OBJECTIVES		Demonstrate the use of good body mechanics as evidenced by Satisfactory performance of skills on Skills Record.

INSTRUCTION TIME (classroom, skills lab clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	3. resident care a. if resident is in bed, raise bed to waist height. Remember to lower bed when you are finished b. push, slide or pull rather than lifting, if possible c. avoid twisting when lifting by pivoting your feet d. do not try to lift with one hand e. ask for help from co-workers f. tell resident what you are planning to do so they can help you, if possible 4. assisting the falling resident a. do not try to prevent the fall b. stand behind the resident with arms around his torso c. slide resident down your body and leg, as a sliding board d. ease resident to the floor e. protect the head f. stay with resident and call for help	g. report the incident to the appropriate licensed nurse as soon as possible B. Incident/Accident reports 1. incident – accident, problem or unexpected event that occurs while providing resident care a. may involve staff, resident and/or visitor 2. report should be written as soon as possible after the event a. document exactly what happened
OBJECTIVES	Demonstrate the correct way to assist a falling resident as evidenced by role-playing with a fellow student.	Discuss the importance of and methods for reporting incidents/accidents to the appropriate supervisor as evidenced by accurately documenting an incident or an accident on an incident report.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	b. give time and condition of person involved c. only use facts, not opinions 3. information is confidential 4. report is given to the charge nurse 5. always file an incident report if you are injured on the job a. provides protection for you b. identifies that injury occurred at work C. Fire safety 1. fire requires a. object that will burn b. fuel – oxygen c. heat to make the flame 2. potential causes of fire a. smoking b. frayed/damaged electrical cord/wires cord/wires cord/wires f. overloaded electrical plugs/outlets f. oxygen use g. careless cooking h. oily cleaning rags i. newspapers and paper clutter 3. ways to prevent fire in a health care	facility a. stay with resident who is smoking b. make sure cigarettes and ash are in ashtray c. only empty an ashtray if cigarette and ash are not hot d. report frayed/damaged
OBJECTIVES	Identify potential causes of a fire in a health care facility as evidenced by participation in classroom discussion.	fire in a health care facility as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	cords/outlets immediately e. keep fire doors closed and accessible f. keep halls clear and accessible a. if fire occurs b. R – remove resident from danger c. A – activate alarm d. C – contain fire by closing doors and windows e. E – extinguish fire if possible or evacuate the area 5. use of a fire extinguisher - PASS a. P – pull the pin b. A – aim at the base of the fire c. S – squeeze the handle d. S – sweep back and forth at the base of the fire	fire a. call for help immediately b. know location of fire evacuation plan c. remain calm and do not panic d. remove all persons in the immediate area of the fire (RACE) e. if a door is close, always check it for heat before opening it f. stay low in room when trying to escape fire to avoid the smoke g. use wet towels to block doorways to prevent smoke from entering a room h. use covering over face to reduce smoke inhalation
OBJECTIVES	Demonstrate the proper use of a fire extinguisher as evidenced by successful role-play in class.	Discuss the sequence of events to be taken if fire is discovered in a health care facility as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	·	
STUDENT EVALUATION		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	i. if clothing is on fireStopDropRoll j. never get into an elevator during a fire; use the stairs D. Safety in a disaster 1. definition a. sudden unexpected event b. hurricane c. ice/snow storm d. flood e. tornado f. earthquake g. acts of terrorism 2. know where facility disaster policy/procedure manual is located 3. know your responsibilities during a disaster a. listen carefully to directions b. follow instructions c. know location of all exits and stairways d. know where fire alarms and extinguishers are located e. resident safety comes first f. keep calm 4. know facility evacuation plan E. Safety precautions for oxygen use 1. oxygen use a. resident with difficulty breathing b. prescribed by health care	 2. role of the nurse ande a. observation only b. only licensed person (RN or LPN) can adjust the flow rate 3. special safety precautions
OBJECTIVES	Discuss the sequence of events to be taken in the event of a disaster as evidenced by participation in classroom discussion. Explain the importance of the facility policy/procedure manual for fire and disaster, including its location as evidenced by finding the manual and locating the fire and disaster policies and the evacuation plan.	Discuss the role of the nurse aide and oxygen use in a health care facility as evidenced by accurate role-play in the skills lab.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	a. post "No Smoking" and "Oxygen in Use" signs in room and on the door to the room or around oxygen equipment resident's room or around oxygen equipment: razors, hair dryers, radios d. remove fire hazards from the room such as electrical equipment: razors, hair dryers, radios d. remove flammable liquids from resident's room: nail polish remover, alcohol e. do not permit candles, lighters or matches around oxygen equipment f. synthetic (man-made fibers), nylon and wool material should not be used around oxygen equipment because they create static electricity which can create a spark and start a fire g. check resident's nose and behind their ears for irritation caused by oxygen tubing and report irritation to appropriate licensed nurse h. learn how to turn off oxygen equipment in case of a fire 4. report any changes in the resident's condition to the appropriate licensed nurse 5. report any problems with the oxygen equipment immediately to the appropriate licensed nurse
OBJECTIVES	

UNIT V – EMERGENCY MEASURES (18VAC90-26-40.A.1.c) (18VAC 90-26-40.A.2.f)

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	A. Emergency A. Emergency 1. definition a. condition requiring immediate medical or surgical treatment to prevent the resident from having a permanent disability or from dying 2. basic steps for nurse aide in an emergency a. collect information from resident or situation b. call or send for help c. use gloves and a breathing barrier d. remain calm e. know your limitations f. assist medical personnel after help arrives 3. emergency situations a. change in level of consciousness b. irregular breathing or not breathing c. has no pulse d. severely bleeding e. unusual color or feel to the skin f. choking g. poisoning h. severe pain i. shock j. allergic reaction
OBJECTIVES	Identify the basic steps a nurse aide should take in any emergency situation as evidenced by participation in classroom discussion. Identify symptoms a resident may display when experiencing an emergency as evidenced by minimum grade of 80% on the unit test.

		4
INSTRUCTION TIME (classroom,		
STUDENT		
TOOLS/RESOURCES		
CONTENT OUTLINE	B. Responding to change in level of consciousness 1. definitions 2. conscious – mentally alert and aware of surroundings, sensations and thoughts 2. confused – disoriented to time, place, and/or person 3. unconscious – resident is unable to respond to touch or speech 2. responding to conscious resident 3. has a pulse and is breathing 4. observe skin color, warmth, moisture 5. call for help 6. question resident regarding pain, illnesses, current medical issues 6. take vital signs (VS) 7. remain calm 8. reassure resident 9. reassure resident 10. stay with resident until help arrives 11. document what occurred, the time, and VS 12. responding to an unconscious 13. responding to an unconscious 14. know resident's DNR status 15. c. know facility policy/procedure 16. for activating the EMS or 911 17. d. activate emergency medical 18. system by calling for help or have someone call immediately 18. initiate CPR (if facility policy permits) or first aid until EMS or medical personnel arrive	
OBJECTIVES	Demonstrate the appropriate response to a conscious or unconscious resident in an emergency situation as evidenced by role-play in class.	

INSTRUCTION TIME (classroom, skills lab, clinical)			
STUDENT			
TEACHING TOOLS/RESOURCES			
CONTENT OUTLINE	4. responding to resident who has no pulse and is not breathing (if facility policy permits a Nurse Aide to perform CPR and resident is not a DNR) a. follow the most current national guidelines for performing CPR	 II. Basic Emergency Measures A. Bleeding 1. call nurse immediately 2. put on gloves 3. have resident lie down 4. apply pressure to source of bleeding with a clean cloth 5. elevate source of bleeding above level of the heart, if possible 6. place another cloth on top of original cloth if the 1* one becomes saturated 	 when help arrives, remove gloves, wash hands and document what occurred B. Nose bleed (Epistaxis) may be caused by dry air, medical condition, medications notify nurse immediately put on gloves have resident tilt head slightly forward and squeeze bridge of the nose with your fingers apply pressure until bleeding stops apply ice pack or cool cloth to back of the neck, forehead or upper lip to help slow the bleeding stay with resident until bleeding stay with resident until bleeding
OBJECTIVES	Demonstrate CPR, including the use of an AED, on an adult manikin as evidenced by Satisfactory grade on Skills Record (not required by regulation).	Discuss appropriate nurse aide actions for a resident who is bleeding as evidenced by participation in classroom discussion/role-play scenarios.	Discuss appropriate nurse aide actions for a resident who is having a nose bleed as evidenced by participation in classroom discussion/role-play scenarios.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	8. remove gloves and document what occurred occurred C. Fainting (syncope) 1. caused by decreased blood flow to the brain 2. notify nurse immediately 3. assist resident to floor 4. if resident is in chair, have him/her place head between his/her knees 5. elevate feet about 12 inches above level of the heart 6. take VS 7. loosen any tight clothing 8. do not leave resident unattended 9. if resident vomits, turn on side in recovery position 10. after symptoms disappear have resident remain lying down for 5 minutes 11. slowly assist resident to seated position 12. document what occurred, the time and VS D. Vomiting (emesis) 1. notify nurse immediately 2. put on gloves 3. use emesis basin, wash basin or trash can 4. wipe resident's mouth and nose 5. be calm and reassuring to the resident 6. when resident is finished offer water or mouthwash to rinse the mouth 7. encourage resident to brush teeth or provide oral care to dependent resident
OBJECTIVES	Demonstrate appropriate nurse aide actions for a resident who has fainted as evidenced by participation in classroom discussion/role-play scenarios. Discuss appropriate nurse aide actions for a resident who has vomited as evidenced by participation in classroom discussion/role-play scenarios.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	8. provide resident with clean clothes and/or clean linen as necessary 9. flush vomit down the toilet after showing it to the nurse and wash the basin 10. place soiled linen in proper containers 11. remove gloves and wash hands 12. document time, amount, color, odor and consistency of vomitus E. Burns (1*, 2**, & 3**) degree) 1. notify nurse immediately – assist only as directed by licensed health professional (i.enurse, N.P., physician, P.A.) 2. put on gloves to protect resident and self 3. lightly cover with dry, sterile gauze, if directed 4. never apply butter, oil, or ointment, water or any other solution to a burn 5. have resident lie down and wait for	EMS to arrive 6. stay with resident until help arrives 7. remove gloves, wash hands and document what occurred per facility policy F. Heart attack - myocardial infarction (MI) 1. Signs - (may differ in males and females) a. c/o "heaviness" or pain in the chest b. female may feel tight discomfort described as a full feeling across entire chest c. c/o pain radiating down left arm c. c/o pain radiating down left arm
OBJECTIVES	Discuss appropriate nurse aide actions for a resident who has been burned as evidenced by participation in classroom discussion/role-play scenarios.	Explain the signs/symptoms of a heart attack as evidenced by minimum grade of 80% on unit test.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	d. c/o sharp upper body pain (female) e. difficulty breathing or SOB f. sweating – may be mistaken for hot flash in females g. skin looks pale or bluish h. complaint of nausea or indigestion i. stomach cramps (female) j. jaw pain (female) j. jaw pain (female) j. jaw pain (female) d. Heart attack - actions 1. have resident lie down 2. notify nurse immediately 3. this is medical emergency 4. elevate resident's head to help him/her breathe better 5. initiate CPR if necessary 6. stay with resident until help arrives 7. document what occurred and the time per facility policy H. Seizure 1. clear the immediate area of objects that may cause harm 2. assist resident to the floor 3. notify nurse immediately 4. protect the head, but allow remainder of body to move 5. note time seizure began 6. do not try to put anything in resident's mouth 7. after seizure, turn resident on side in recovery position 8. document time seizure began, what occurred per facility policy 8. document time seizure began, 8. document time seizure began, 8. document time seizure began, 9. document time seizure began,
OBJECTIVES	Discuss appropriate nurse aide actions for a resident who has signs/symptom of a heart attack as evidenced by participation in classroom discussion/roleplay scenarios. Discuss appropriate nurse aide actions for a resident who is having a seizure as evidenced by participation in classroom discussion/role-play scenarios.

INSTRUCTION TIME (classroom, skills lab, clinical)	•	
STUDENT EVALUATION		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	1. Signs of a cerebral vascular accident (CVA) such as stroke; remember to act FAST and report to nursing supervisor or appropriate licensed staff immediately 1. change in level of consciousness 2. complaint of severe headache 3. drooping on one side of the face 4. weakness on one side of the body 5. sudden on-set of slurred speech J. Stroke - actions 1. notify nurse immediately 2. this is medical emergency 3. have resident lie down 4. note time of on-set of symptoms 5. stay with resident until EMS arrives 6. document time of on-set of 7. Observe and Report - FAST a. FACE: Does one side of the face droop? b. ARMS: Does one arm drift downward when both arms are raised? c. SPEECH: Is speech slurred or strange? d. TIME: If you observe any of these signs, report to appropriate staff member immediately. This is a medical emergency; follow facility policy for activating 9-1-1	K. Shock 1. definition a. lack of adequate blood supply to body organs b. medical emergency
OBJECTIVES	Explain the igns/symptoms of a stroke as evidenced by minimum grade of 80% on unit test. Discuss appropriate nurse aide actions for a resident who is having a stroke as evidenced by participation in classroom discussion/role-play scenarios.	Discuss definition of and causes of shock as evidenced by minimum grade of 80% on unit test.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	2. causes a. bleeding b. heart attack c. severe infection d. low blood pressure e. exposure to environmental changes 3. signs/symptoms a. pale or bluish skin b. staring c. increased pulse and respirations d. decreased blood pressure e. extreme thirst 4. care of resident experiencing shock a. notify nurse immediately b. have resident lie down c. control any bleeding that you can see d. check VS e. if no respirations or pulse begin CPR f. cover resident with blanket to maintain temperature g. elevate feet about 12 inches h. do not give resident anything to eat or drink i. remain with resident until EMS arrives j. document what occurred L. Diabetic reactions 1. mnemonic - hot and dry, sugar high; cold and clammy, need some candy 2. low blood sugar (hypoglycemia) a. signs/symptoms ii. nervous ii. dizzy
OBJECTIVES	Identify the signs/symptoms of shock as evidenced by minimum grade of 80% on unit test. Discuss appropriate nurse aide actions for a resident who is in shock as evidenced by participation in classroom discussion/role-play scenarios. Explain the signs/symptoms of hypoglycemia as evidenced by minimum grade of 80% on unit test.

T INSTRUCTION ON TIME (classroom, skills lab, clinical)	
STUDENT	
TOOLS/RESOURCES	
CONTENT OUTLINE	iii. hungry iv. headache v. rapid pulse vi. disoriented vii. cool, clammy skin viii. unconscious b. care of resident with low blood sugar i. notify the nurse immediately ii. if conscious, give glass of orange juice or something to eat that has sugar or complex carbohydrates iii. know facility policy for low blood sugar iv. stay with resident until feels better v. document what symptoms you saw, when they occurred and what you did 3. high blood sugar (hyperglycemia) a. signs/symptoms i. increased thirst ii. increased thirst iii. increased thurger iv. flushed, dry skin v. drowsy vi. nausea, vomiting vii. unconscious b. care of resident with high blood sugar i. notify nurse immediately iii. follow nurse's instructions iiii. document what symptoms you saw, when they occurred and what you did
OBJECTIVES	Discuss appropriate nurse aide actions for a resident/resident who is hypoglycemic as evidenced by participation in classroom discussion/role-play scenarios. Explain the signs/symptoms of hyperglycemia as evidenced by minimum grade of 80% on unit test. Discuss appropriate nurse aide actions for a resident who is hyperglycemic as evidenced by participation in classroom discussion/role-play scenarios.

UNIT VI – CLIENT RIGHTS (18VAC90-26-40.A.1.d) (18VAC 90-26-40.A.1.e) (18VAC 90-26-40.A.4.b) (18VAC 90-26-40.A.4.h) (18VAC 90-26-40.A.7.a,b,c,d,e,f)

CONTENT OUTLINE	c. if client/resident wants to keep valuables, encourage use of lock box or facility safe d. honor privacy of client/resident regarding their possessions e. assist client/resident to keep personal possessions neat and clean f. permit client/resident right to decide where personal items are kept, if possible g. be careful when working around client/resident personal items h. complaint of stolen, lost or damaged property must immediately be reported and investigated i. avoid placing client/resident personal possessions in areas where nursing care is performed 7. promoting client's fresident's (vulnerable adults) right to be free from mistreatment, including abuse, neglect, exploitation of resident/resident property and the need to report any instances of such treatment to appropriate staff and/or Adult Protective Services (APS) philosophy) to: i. to be treated with dignity ii. refuse assistance if they are capable of making decisions
OBJECTIVES	Identify nurse aide actions that promote client's/resident's right to be free from mistreatment, including abuse, neglect and exploitation as evidenced by participation in classroom discussion and a minimum grade of 80% on the unit test.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	iii. make their own choices regarding how and where they live iv. privacy b. vulnerable adults are persons 18 years of age or older who are incapacitated, or persons 60 years of age or older c. mandatory reporting of suspicion of willful infliction of injury, unreasonable confinement, intimidation or punishment resulting in physical harm or mental anguish – Elder Justice Act d. mandatory reporters include, but are not limited to: i. any person licensed, certified or registered, by health regulatory boards (except veterinarians), any mental health service provider, any person employed by or contracted with a facility working with adults in an administrative, supportive, or direct care capacity, any law enforcement officer e. reports should be made immediately to the local Department of Social Services or toll-free 24-hour APS hotline 1-888-832-3858. As a caregiver, you are uniquely suited to observe mistreatment. i. if there is harm/injury, reporting must be immediate
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	ii. if there is harm/injury local law enforcement must be notified 8. define abuse a. abuse – the intentional infliction of physical pain or injury i. also includes mental anguish and extends to unreasonable confinement — physical or chemical restraints, isolation, or other means of confinement without medical orders, when such confinement is used for purposes other than providing safety and well-being of client/resident or those around the individual b. mental (psychological) anguish indicated by a state of emotional pain or distress resulting from activity (verbal or behavioral) or a perpetrator. The intent of the activity is to threaten or intimidate, to cause sorrow, or fear, to humiliate, change behavior or ridicule. Evidence must show that the mental anguish was caused by the perpetrator's activity including, but not limited to, an act committed with the intent to sexually molest, arouse, or gratify another person against that person's will, that occurs by force, threat,
OBJECTIVES	Define the types of adult abuse recognized in Virginia as evidenced by minimum grade of 80% on unit test. Recognize the indicators of sexual abuse of older or incapacitated adult as evidenced by minimum grade of 80% on unit test.

INSTRUCTION TIME (classroom, skills lab, clinical)	•
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	intimidation, or advantage d. indicators of physical abuse i. multiple and/or severe bruises, burns, and welts ii. unexplained injuries iii. a mix of old and new bruises (may indicate abuse over time) iv. signs of broken bones and fractures (may complain of pain or weakness) e. indicators of unreasonable confinement i. restraints used on chairs or bed ii. an adult who is placed or locked in a room iii. social isolation iv. pressure sores from prolong stays in a restrained position f. indicators of mental of psychological abuse i. verbal assaults, threats, or intimidation by a caregiver ii. the client/resident demonstrates fear of the caregiver iii. the caregiver iiii. the caregiver iiii. the caregiver iv. adult is withdrawn/doesn't communicate in the presence of the caregiver
OBJECTIVES	Recognize the indicators of physical abuse of older or incapacitated adult as evidenced by minimum grade of 80% on unit test. Recognize the indicators of unreasonable confinement of older or incapacitated adult (client/resident) as evidenced by minimum grade of 80% on unit test.

STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	b. makes it easier for resident to get into bed by himself 4. occupied bed a. made while the resident is in the bed 5. linen required to make a bed a. mattress pad i. makes mattress more comfortable ii. protects mattress from liquid spills b. top and bottom sheets i. bottom sheet is often fitted ii. top sheet is flat c. draw sheet i. small, flat sheet placed over the middle of the bed ii. goes from resident's shoulders to below buttocks iii. used to help lift or turn resident iv. sides are tucked under the mattress d. bed protector i absorbent fabric-backed waterproof material ii. used with residents who are incontinent e. blankets i. may be personal or provided by facility f. bedspread i. adds decorative look to room ii. may be personal or provided by facility f. bedspread i. adds decorative look to room ii. may be personal or provided by facility f. bedspread i. for comfort and for positioning resident
OBJECTIVES	Describe the different types of linen the nurse aide uses to make a bed in a long-term care facility as evidenced by obtaining the correct linen before beginning to make the resident's bed.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	ii. pillows always covered with pillowcase h. bath blanket i. keep resident warm during bed bath or linen change 6. other bed equipment a. pressure-relieving mattresses i. egg-crate mattress ii. alternating air mattress iii. alternating air mattress iii. alternating air mattress iii. alternating air mattress iii. metal frame that prevents top linen from placing pressure on the feet and causing foot drop d. foot board i. piece of wood placed at foot end of mattress to keep the feet in proper anatomical alignment e. fall mats 7. how to handle linen a. wash hands b. collect linen in order they will be used on the bed c. do not take linen from one resident room to another d. when carrying linen, take care not to touch linen to your uniform e. wear gloves to remove soiled linen finen f. when removing linen from the bed turn it from the ends of the bed toward the center of the bed g. NEVER place used linen on the
OBJECTIVES	Identify various devices used on the bed in a longterm care facility as evidenced by minimum grade of 80% on unit test. Demonstrate correct handling of linen as evidenced by Satisfactory rating on Skills Record.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONFENT OUTLINE	h. do not have used linen come in contact with your uniform i. place used linen in receptacle per facility policy j. wash hands 8. make a closed bed a. wash hands b. obtain linen and place on chair or table in resident's room c. flatten bed and raise to waist level d. loosen used linen and place in hamper or linen bag e. remake the bed starting with the bottom sheet with the seams down f. place end of bottom sheet flush with bottom end of mattress, tuck in at top of mattress and make mitered corners at top of mattress g. place draw sheet if appropriate h. place top sheet, seams up, with end of sheet flush with head of mattress and of sheet flush with head of mattress at foot of bed about 6 inches, tuck blanket under mattress at foot of bed about 6 inches, tuck blanket under mattress at foot of bed, about 6 inches, tuck blanket with bedspread and tuck under the pillow and pillow at head of bed k. cover pillow and blanket with bedspread and tuck under the pillow i. return bed to low position
OBJECTIVES	Demonstrate how to make a closed bed as evidenced by Satisfactory rating on Skills Record.

INSTRUCTION TIME (classroom, skills leb. clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	m. place call bell where resident can reach it n. dispose of used linen o. wash hands 9. make an open bed a. follow steps a-j for closed bed above b. standing at head of bed, grasp top sheet, blanket, bedspread and fold down to foot of bed and then bring them back up the bed to make a large cuff c. place clean pillowcase on pillow,	and pillow at head of bed d. return bed to low position e. place call bell where resident can reach it f. dispose of used linen g. wash hands 10. make an occupied bed a. identify yourself by name b. wash hands c. explain procedure to resident d. provide for resident privacy e. place clean linen on clean surface within reach f. adjust bed to waist height g. put on gloves h. loosen top linen from end of bed on side you will work on first i. unfold bath blanket over top sheet to cover resident and remove top sheet keeping resident covered at all times j. raise side rail on far side of bed to protect resident from falling out of bed while you are makine it
OBJECTIVES	Demonstrate how to make an open bed as evidenced by Satisfactory rating on Skills Record.	Demonstrate making an occupied bed as evidenced by Satisfactory rating on Skills Record.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	•
TOOLS/RESOURCES	
CONTENT OUTLINE	k. after raising side rail, go to other side of bed and assist resident to turn onto side away from you toward the raised siderail l. loosen bottom soiled linen, mattress pad, and protector on the working side m. roll bottom soiled linen toward resident, soiled side inside and tuck it snugly against resident's back n. place mattress pad on bed, attaching elastic corners on working side o. place mattress pad on bed, attaching slastic corners on working side o. place mattress pad on bed, attaching elastic corners on working side o. place and tuck in clean bottom linen; finish with bottom sheet free of wrinkles p. smooth bottom sheet out toward resident; roll extra material toward resident; tuck it under resident's body q. if using a draw sheet, place it on the bed and tuck in on your side, smooth it and tuck as you did with the other bedding a draw sheet, place it on that side and help resident turn onto clean bottom sheet s. loosen soiled linen; roll linen from head to foot of bed avoiding contact with your skin or uniform; place in laundry hamper or bag; NEVER place linen on the floor t. pull clean linen through as quickly as possible starting with mattress pad; pull and tuck in clean bottom
OBJECTIVES	

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	linen just like the other side; finish with bottom sheet free of wrinkles u. assist resident to turn onto back; keep resident covered and comfortable with pillow under head; raise side rail v. unfold top sheet and place over resident, centering it; slip bath blanket or old sheet out from underneath and put in hamper or bag w. place blanket over top sheet, matching top edges; tuck bottom edges of top sheet and blanket under bottom of mattress; miter corners and loosen top linens over resident's feet, fold top sheet over blanket at top of bed by about 6 inches x. remove pillow and change pillowcase placing soiled one in hamper or bag y. remove and discard gloves c. position resident in comfortable position; return bed to low position; return bed to low position; return bed to low position; return side rails to appropriate position and place call light within resident's reach. aa. take laundry hamper/bag to proper area bb. wash hands c. report any resident changes to nurse dd. document procedure using facility guidelines
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	 IV. Vifal Signs (VS) A. Purpose of VS I. measurement of body functions that are automatically regulated 2. change may indicate body is out of balance 3. indicate if the body is healthy or not healthy B. When are VS measured? I. upon admission to long-term care facility (baseline VS) 2. weekly, monthly according to facility policy 3. before and after certain medications as ordered by the health care provider 4. after diagnostic procedure or surgery 5. after a fall 6. during an emergency C. Temperature I. types of thermometers and/or methods of taking temperature a. oral - by mouth b. tympanic - in the ear c. NCIT (no contact infrared thermometer) - forehead d. rectal - by rectum (usually distinguished by red to deter use in mouth) e. axillary - under the armpit (axilla) f. most facilities use digital thermometers 2. measures the warmth of the body a. adult oral temperature 97.6° - 99.6°
OBJECTIVES	Discuss the importance of measuring and recording routine vital signs on geriatric residents as evidenced by participation in classroom discussion. Demonstrate the knowledge of types and use of thermometers to accurately measure and record resident's temperature as evidenced by satisfactory performance in skills lab and clinical.

TUME (classroom, skills lab. clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	 b. adult tympanic temp 96.6° - 99.7° c. adult NCIT (forehead) 97.2° - 100.1° d. adult rectal temp. 98.6° - 100.6° e. adult axillary temp. 96.6° - 98.6° 3. may be affected by a. age - less fat and decreased circulation lowers the temperature b. exercise - exercise increases body temp. c. circadian rhythm - resident has higher temp. during active times of the day d. stress - increases body temperature e. illness - increases body temperature f. environment - cold environment lowers body temp. (hypothermia), hot environment raises body temperature (hypothermia) 4. signs of hypothermia a. shivering b. numbness c. quick, shallow breathing d. slow movements e. mild confusion f. changes in mental status g. pale/bluish skin 5. signs of hyperthermia a. perspiration b. excessive thirst c. changes in mental status
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	6. signs of elevated temperature due to infection a. headache b. fatigue c. muscle aches d. chills e. skin warm and flushed 7. measure, record, and report temperature a. follow facility policy for taking temperature b. follow facility policy for taking temperature c. report changes to licensed nurse factors that can affect temperature i. eating/drinking something hot ii. smoking iii. wait 10-15 minutes to take temp. iv. physical activity v. heavy clothing or blankets b. lower the temperature i. eating/drinking something cold (wait 10-15 minutes to take temp.) iii. incorrect placement of thermometer to read temperatures a. do not force a rectal thermometer b. do not force a rectal thermometer b. do not force tympanic thermometer b. do not force tympanic
OBJECTIVES	Report abnormal readings or changes to the appropriate supervisor or licensed nurse as evidenced by satisfactory performance in skills lab and clinical. Identify specific factors that may affect the accuracy of the temperature reading as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinican	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. if the temperature seems questionable repeat the process; you may need to use a different thermometer D. Anatomy of the cardiovascular system 1. heart a. muscle b. pumps blood throughout the body 2. arteries a. blood vessels that carry blood from heart to every part of the body b. transport oxygen to cells of the body back to the heart b. transport carbon dioxide from cells back to the lungs 4. capillaries a. tiny vessels that connect arteries to veins 5. blood a. red blood cells carry oxygen to the cells b. white blood cells fight infection c. platelets form clots to stop bleeding E. Pulse 1. description a. heart contracts pushing blood out of heart b. that push is the pulse or beat of the heart b. that push is the pulse or beat of
OBJECTIVES	Describe the circulation of blood from the heart, to the periphery of the body and back to the heart as evidenced by a minimum grade of 80% on the unit test. Explain what the pulse measures as evidenced by a minimum grade of 80% on the unit test.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. can be felt by applying pressure over an artery d. tells how many times the heart is contracting or beating in 1 minute e. normal adult rate 60-100 beats/min f. tachycardia > 100 beats/min g. bradycardia < 60 beats/min g. bradycardia < 60 beats/min g. bradycardia < 60 beats/min g. brachial pulse is on thumb-side of the wrist a. radial pulse is on thumb-side of the windpipe in the neck d. apical – left ventricle of heart, 5th intercostal space on left side of chest e. femoral - in groin where leg attaches to torso f. popliteal - in space behind the knee 3. measure, record, and report pulse a. follow the procedure for "Counts and Records Radial Pulse" in the most current edition of Virginia Nurse Aide Candidate Handbook b. use stethoscope to listen to, then count and record apical pulse c. report any changes or abnormal rate to appropriate licensed nurse 4. factors that affect pulse rate a. age - decreases pulse b. sex - males have lower pulse than females
OBJECTIVES	Demonstrate how to count and record radial pulse as evidenced by Satisfactory rating on Skills Record. Report any changes or abnormal pulse rates to the appropriate licensed nurse as evidenced by satisfactory performance in skills lab/clinicals.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. exercise - increases pulse d. stress - increases pulse e. hemorrhage (bleeding) - increases pulse f. medications - depending on medication may increase or decrease pulse rate g. fever/illness - increases pulse rate P. Blood pressure (BP) I. definitions a. measures force applied to walls of arteries as the heart contracts pushing blood away from the heart b. measured in mm Hg (mercury) c. systolic - top number when BP is reported and recorded i. measures force applied to walls of arteries as the left ventricle contracts pushing blood away from the heart ii. normal adult range less than I20 mm Hg d. diastolic - bottom number when BP is reported and recorded i. measures pressure in the arteries when the heart is resting between contractions ii. normal range less than 80 mm Hg e. hypertension (elevated) i. high blood pressure ii. > 130/80 of higher ii. low blood pressure ii. < > 90/60
OBJECTIVES	Identify specific factors that may affect the accuracy of the pulse rate as evidenced by participation in classroom discussion. Explain what the blood pressure measures as evidenced by a minimum grade of 80% on the unit test.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	g. orthostatic hypotension i. when resident changes position from lying to sitting or sitting to standing the BP drops ii. when BP drops, resident becomes dizzy, lightheaded and may faint 2. equipment needed to take BP a. stethoscope b. blood pressure cuff (sphygmomanometer) i. size of cuff should match size of resident's arm ii. electronic iii. aneroid c. alcohol wipes 3. measure and record blood pressure a. follow the procedure for "Measures and Records Blood Pressure" per facility policy b. report any changes or abnormal blood pressure to appropriate licensed nurse 4. considerations for where to take BP a. do not take BP in arm with a shunt used for dialysis c. do not take BP in arm on same side as mastectomy surgery for breast cancer d. do not take BP in arm paralyzed due to stroke (CVA) e. do not take BP in extremity with an amputation e. do not take BP in extremity with
OBJECTIVES	Identify equipment needed to take a blood pressure as evidenced by satisfactory performance in the skills lab. Demonstrate how to measure as evidenced by Satisfactory rating on Skills Record. Report any changes or abnormal blood pressure to the appropriate licensed nurse as evidenced by satisfactory performance in skills lab.

INSTRUCTION TIME (classroom, skills lab. clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE		i. time of day - BP lower in morning and higher in the evening j. illness - diabetics and residents with kidney disease may have high BP k. medications 6. factors affecting accuracy of BP reading a. wrong size cuff b. not inflating cuff sufficiently c. releasing cuff pressure too quickly d. taking BP multiple times in rapid succession in same arm e. cuff placement f. using cuff over clothing
OBJECTIVES	Identify specific factors that may affect the BP reading as evidenced by participation in classroom discussion.	Identify specific factors that may affect the accuracy of BP reading as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	g. resident talking h. most recent physical activity G. Respirations 1. definitions a. inspiration – taking air and oxygen into the lungs (inhale), chest rises b. expiration - letting air and carbon dioxide out of the lungs (exhale), chest falls c. respiration - I complete inhalation and exhalation d. measured in breaths/minute e. normal adult respiratory rate 12-20 breaths/min f. apnea – absence of breathing g. dyspnea - difficulty breathing g. dyspnea - difficulty breathing g. dyspnea - difficulty breathing s. follow the procedure for "Counts and Records Respirations" in the most current edition of Virginia Nurse Aide Candidate Handbook b. report any changes or abnormal respiratory rate to appropriate licensed nurse H. Pain management 1. definitions a. fifth vital sign b. different for every person (some residents have higher pain tolerance than others) c. pain scale ii. some pain scales are 0-10 and some are 1-10 iii. objective value to sensation of
OBJECTIVES	Define the physiology of respirations, how respirations are measured and terminology related to respirations as evidenced by participation in classroom discussion and satisfactory performance in skills lab. Demonstrate how to count and record Respirations as evidenced by Satisfactory rating on Skills Record. Report any changes or abnormal respirations to the appropriate licensed nurse as evidenced by satisfactory performance in skills lab. Discuss pain management, the pain scale, and questions the nurse aide may asked to understand the resident's pain level as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom,			
STUDENT			
TEACHING TOOLS/RESOURCES			
CONTENT OUTLINE	2. questions to ask to understand resident's pain a. where is the pain? b. when did pain start? c. does the pain go away with rest? d. how long does pain last? e. describe the painsharp, shooting, dull, ache, burning, electric-like, constant, comes and goes		j. agitation k. changes in behavior l. crying m. difficulty moving n. guarding/protecting an area 4. report any complaints or observations of pain to appropriate licensed nurse 5. actions nurse aide can take to alleviate pain a. offer back rub b. assist to change position c. offer warm bath or shower d. encourage slow, deep breaths e. be patient, caring and gentle
OBJECTIVES	Describe observations that	the nurse aide can make to understand the resident's pain level as evidenced by participation in classroom discussion.	Describe comfort measures the nurse aide can perform in response to the resident's pain as evidenced by participation in classroom discussion.

pi		-
INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TOOLS/RESOURCES		
CONTENT OUTLINE	 V. Height and Weight A. Height (per facility policy) 1. usually performed on admission 2. assist to step onto the scale and measure height by extending height rod 3. if unable to stand, may use tape measure while resident is lying on bed 4. record accurately in feet and inches B. Weight 1. performed on admission and at regular intervals afterwards (per facility policy) 2. ambulatory resident uses standing scale 3. portable wheelchair scale, lift & tub scales, and/or bed scale may be available 4. measured in pounds or kilograms, per facility policy 5. uses a. data on nutritional status of resident b. calculate correct medication dosage 6. measure and record weight a. follow the procedure for "Measures and Records Weight of Ambulatory Resident" in the most current edition of Virginia Nurse Aide Candidate Handbook b. report any changes in weight to appropriate licensed nurse 	
OBJECTIVES	Demonstrate how to measure and record height of a resident as evidenced by a rating of Satisfactory on Skills Record. Demonstrate how to measure and record weight of ambulatory resident as evidenced by a rating of Satisfactory on Skills Record. Record. Report any changes in weight to the appropriate licensed nurse as evidenced by satisfactory performance in skills lab.

can be recorded as fluid	C. Fluid output			
output as evidenced by minimum grade of 80% on	1. Huld that is climinated by the body a. urine			
	h vomit (emecie)			

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. blood d. wound drainage e. diarrhea 2. measured in ml or cc 3. at end of shift record all fluid output per facility policy 4. fluid taken into the body should be approximately equal to the amount of fluid that the body eliminated D. Measure and record urinary output 1. equipment a. graduate b. commode hat c. urinal d. catheter drainage bag 2. measuring output a. lml = 1 cc (cc = cubic centimeter) b. 30 ml = 1 oz calways measure fluid output in graduate, not in urinal, commode hat or catheter drainage bag d. urinary output should not be less than 30ml per hour e. always wear gloves to measure output 3. measure and record urinary output a. follow the procedure for "Measures and Records Urinary Output" in the most current edition of Virginia Nurse Aide Candidate Handbook b. report unusually low or high urinary output to appropriate licensed nurse licensed nurse 4. factors affecting urinary output a. decreased intake of fluids
OBJECTIVES	Identify equipment used to measure fluid output as evidenced by satisfactory participation in skills lab. Demonstrate accurate measurement and recording of urinary output as evidenced by a rating of Satisfactory on Skills Record. Report any changes in urinary output to the appropriate licensed nurse as evidenced by satisfactory performance in skills lab.

INSTRUCTION TIME (classroom, skills lab. clinical)																								
STUDENT																								
TEACHING TOOLS/RESOURCES																								
CONTENT OUTLINE	b. fever (increased temperature)c. increased salt in diet	d. excessive perspiration	e. medical condition	f. medications	E. Measure and record food intake	1. know facility policy	a. percentage methods –	percentage of each food item	i. calculated by dietician	ii. record percentage (%) of each	item on meal tray eaten	iii. add together all the percentages	and record total percent of meal	eaten	iv. some facilities use percentage	of entire meal rather than	percentage of each item on	meal tray	b. be accurate and consistent	c. at end of shift record all food	intake per facility policy	d. report unusually small or large	food intake to appropriate	licensed nurse
OBJECTIVES					Identify factors that may	affect the resident's	urinary output as	evidenced by	participation in classroom	discussion.		Demonstrate accurate	measurement and	recording of food intake as	evidenced by satisfactory	rating in skills lab.			Report any changes in	food intake to the	appropriate licensed nurse	as evidenced by	satisfactory performance	in skills lab.

UNIT VIII – PERSONAL CARE SKILLS (18VAC90-26-40.A.3.a, b, c, d, e, f, g)

OBJECTIVES	CONTENT OUTLINE	TEACHING TOOLS/RESOURCES	STUDENT	INSTRUCTION TIME (classroom, skills lab, clinical)
	Guidelines for Assisting with Personal Care A. Definitions I. hygiene			
	a. methods of keeping the body			
	2. grooming			
	a. hair, nail and foot care			
	 shaving facial hair diaphoretic 			
Identify the components of	B. Components of personal care			
personal care as evidenced	1. bathing			
by participation in	3. shaving			
Cidosi Com Ciocassorio				
	5. dressing and undressing			
	6. hair care			
	8. elimination			
Explain routine personal	C. Koutine personal care (with anenuon to			
care for both morning and	Testocat preference			
narticination in classroom	a. after waking and before			
discussion.	breakfast			
	b. going to the bathroom			
	c. washing hands, face			
	d. mouth care			
	2. morning (AM) care - preparing for			
	the day			
	a. take resident to bathroom or			
	assist with elimination			
	b. assist to wash hands			

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. before or after breakfast (resident preference) assist with mouth care/denture care d. assist with bathing e. provide a back rub f. helping resident to dress in day- time clothes g. assisting resident with hair care, shaving, hand care, foot care, make-up h. make bed i. tidy room 3. evening (PM) care – preparing for bedtime a. offer bedtime snack and fluid, if appropriate b. take resident to bathroom or assist with elimination c. assist with elimination c. assist with bathing, if resident preference; otherwise assist to remove make-up, if appropriate, wash hands and face d. help with mouth care/denture care e. help with hair care f. assist to put on night clothes g. provide back rub h. prepare bed for resident i. tidy room D. Person-centered care (PCC) - promotes choice, purpose and meaning in daily life I. resident can direct care and services 2. resident choice fosters engagement and improves quality of life
OBJECTIVES	Describe person-centered care (PCC) as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	3. resident lives in an environment of trust and respect 4. resident is in a close relationship with staff that are attuned to his/her changes and can respond appropriately 5. resident continues to live in a way that is meaningful to him/her Care in a person-centered home-like environment 1. promote resident dignity a. address by name b. treat as an adult c. explain what you will be doing d. provide privacy during personal care b. treat as an adult c. explain what you will be doing d. provide privacy during personal care b. treat as an adult c. explain what you will be doing d. provide privacy during personal care b. treat as an adult c. explain what you will be doing d. provide privacy during personal care a. encourage resident to perform tasks b. provide time for resident to perform tasks a. permit resident preferences a. permit resident preferences a. permit resident to make choices regarding clothing, hair style, make-up b. allow resident's routine a. routine may be comforting b. allows resident choice in care follow care plan instructions a. consistency among staff helps to prevent behavior problems b. assures that resident receives all the care and assistance they require
OBJECTIVES	Explain why it is important to provide PCC in the long-term care environment as evidenced by participation in classroom discussion. Describe the guidelines for assisting the resident with person-centered personal care as evidenced by participation in classroom role-play or discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)			
STUDENT			
TEACHING TOOLS/RESOURCES			
CONTENT OUTLINE	F. Observation during personal care 1. skin a. areas that are red, white, bluish b. areas of broken skin c. bruises d. edema e. condition of fingernails and toenails f. blisters g. odors 2. mobility a. difficulty walking b. difficulty raising arms to dress c. difficulty repositioning 3. flexibility	4. complaint of pain (verbal or nonverbal) a. location of pain b. cause of pain c. description of pain d. duration of pain e. what causes pain to cease 5. change in level of consciousness a. drowsy b. confused c. disoriented to person, place, time d. not able to arouse	A. Purpose 1. clean the skin 2. eliminate body odor 3. relax and refresh resident 4. exercise muscles 5. stimulate blood flow to skin 6. improve resident self-esteem 7. nurse aide can observe skin
OBJECTIVES	Explain what the nurse aide is able to observe while assisting the resident with personal care as evidenced by accurate reporting during classroom and skills lab role-play.	Identify different pain scales (per facility policy) as evidenced by participation in classroom discussion and skills lab role-play.	Identify the purpose of bathing as evidenced by a minimum grade of 80% on the unit test.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	B. Supplies 1. soap (resident may have personal preference for type of soap used) 2. wash clothes 3. bath towels 4. clean clothes 5. non-skid footwear 6. gloves 7. lotion/cream/oil 8. deodorant 9. shampoo C. Types of baths 1. shower 1. shower 2. tub bath a. uses a whirlpool or bath tub 3. partial a. tace, underarms, hands, perineal area, feet b. can be performed in bathroom or while resident is in bed 4. bed bath a. resident unable to leave bed b. entire body washed while resident in bed b. entire body washed while instructions 1. follow nursing care plan for special instructions 2. if nurse aide cannot handle resident alone, ask for help 3. gather all supplies before entering the bathing area and put them where they are easily accessible 4. resident should wear non-skid shoes to and from the bathing area 5. keep resident covered on way from room to bathing room
OBJECTIVES	Identify the supplies required for bathing as evidenced by successful preparation for bathing in skills lab and in clinical. Describe the safety guidelines the nurse aide should follow when assisting the resident to bathe as evidenced by successful completion of role-play in classroom and skills lab.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	6. have bathing room warm before bringing resident to room 7. follow facility policy for cleaning bathing area before and after resident use 8. make sure floor in bathing area is dry before resident walks on it 9. use non-slip mats in tub 10. hand rails and grab bars should be sturdy and secured to the walls 11. do not leave resident unattended in bathing area 12. check water temperature before resident tests water (should not be greater than 105°F;); test on inside of wrist or elbow 13. have resident check water temperature (not too hot; not too cold) 14. wear gloves to bathe resident 15. do not have electrical items (razons, hair dryers) near water source 16. remember to report any observations of changes in resident's condition or behavior to appropriate supervisor E. Order of bathing 1. clean to dirty to prevent transferring micro-organisms from one part of the body to another 2. eyes first – nose to temple (no soap) 3. face (no soap) 4. ears 5. neck 6. arms, underarms (axilla), hands – from torso outward 7. chest
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor/licensed nurse. Explain the importance of following the correct sequence of bathing as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	8. abdomen 9. legs, feet – from torso downward 10. back 11. perineum 12. buttocks 1 . Supplies a. soap (resident may have personal preference for type of soap used b. washcloths c. towels d. clean clothes e. non-skid footwear f. gloves g. lotion/cream/oil h. deodorant i. shampoo 2. make sure shower room is clean, including shower chair including shower roair 4. with resident's input gather clean clothing, personal toiletries 5. have resident wear non-skid footwear 6. transport resident to shower room, making sure resident to shower chair when resident has been transported to shower 7. lock wheels of shower chair when resident has been transported to shower 8. test temperature of water before running water on resident 9. put on gloves 10. assist resident to wash face, arms, chest, abdomen, and hands
OBJECTIVES	Demonstrate how to give a shower as evidenced by a Satisfactory rating on the Skills Record during the clinical experience.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	12. wash resident's back, legs, feet and perineum 13. rinse, being careful to remove all soap residue 14. cover resident's back with towel after washing and rinsing to keep resident warm 15. unlock shower chair wheels, roll resident to dressing area and dry with bath towels, including under breasts and between the toes blace bath blanket around shoulders to keep resident warm 17. apply decodorant and lotion per resident's request and as needed 18. remove gloves and wash hands 19. assist resident to put on clean clothes, including non-skid footwear 20. return resident to room 21. assist with remainder of grooming: hair care, shaving, nail care position 22. help resident to comfortable position 23. place call bell within reach 24. wash hands 25. be courteous and respectful to resident at all times 26. report any observations of changes in resident's condition or behavior to appropriate supervisor 27. document on ADL (Activities of Daily Living) form or designated documentation tool per facility policy
OBJECTIVES	Accurately document performance of a shower on facility ADL Form as evidenced by Satisfactory rating on Skills Record.

INSTRUCTION TIME (classroom, skills lab, clinical)

TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	 G. Giving a tub bath 1. equipment is the same as shower 2. make sure tub room is clean, including the bathtub 3. explain procedure to resident 4. with resident's input gather clean clothing, personal toiletries 5. have resident wear non-skid footwear 6. ambulate or transport resident to tub room, making sure resident is fully covered and warm 7. lock wheels of tub chair or tub lift when resident has been safely transferred to chair or lift 8. test temperature of water and fill tub half-full with warm water 9. put on gloves 10. assist resident to undress, removing non-skid footwear last 11. encourage resident to wash face, arms, chest, abdomen, and hands 12. wash resident's back, legs, feet and perineum 13. rinse, being careful to remove all soap resident warm 14. cover resident's back with towel after washing and rinsing to keep resident warm 15. remove resident from tub and dry with bath towels, including under breasts and between the toes 16. place bath blanket around shoulders to keep resident's request and as needed 17. apply deodorant and lotion per resident's request and as needed 18. remove gloves and wash hands
OBJECTIVES	Demonstrate how to give a tub bath as evidenced by a Satisfactory rating on the Skills Record during the clinical experience.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	19. assist resident to put on clean clothes, including non-skid footwear 20. return resident to room 21. assist with remainder of grooming: hair care, shaving, nail care position 22. help resident to comfortable position 23. place call bell within reach 24. wash hands 25. be courteous and respectful to resident at all times 26. report any observations of changes in resident's condition or behavior to appropriate supervisor 27. document on ADL (Activities of Daily Living) Form or designated documentation tool per facility policy H. Giving a partial bath 1. used on days resident does not receive complete bath or shower cerive complete bath or shower contothing, personal toiletries 4. have resident's input gather clean clothing, personal toiletries 5. transport resident to bathroom, making sure resident to bathroom, making sure resident to bathroom 6. lock wheels of chair when resident has been transported to bathroom 7. if giving a partial bed bath, raise level of bed to waist-height of the nurse aide (lock bed wheels)
OBJECTIVES	Accurately document performance of a tub bath on facility ADL Form as evidenced by Satisfactory rating on Skills Record. Demonstrate how to give a partial bed bath as evidenced by a Satisfactory rating on the Skills Record during the clinical experience.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	8. test temperature of water at sink or before filling bath basin about halffull 9. Have resident test water temperature (not too hot; not too cold) 10. put on gloves 11. assist resident to undress, removing non-skid footwear last 12. encourage resident to wash face, underarms, and hands 13. assist resident to wash perineum remembering to wash front to back, rinse front to back and dry front to back 14. help resident to rinse being careful to remove all soap residue 15. apply decodorant and lotion per resident's request and as needed 16. remove any wet bed linens 17. remove gloves and wash hands 18. assist resident to put on clean clothes, including non-skid footwear 19. remake bed, if needed 20. assist with remainder of grooming: hair care, shaving, nail care position chair or bed) 22. place call bell within reach 23. if partial bed bath was given, return bed to low position 24. wash hands 25. be courteous and respectful to resident at all times
OBJECTIVES	

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	26. report any observations of changes in resident's condition or behavior to appropriate supervisor 27. document on ADL (Activities of Daily Living) Form, or designated documentation tool per facility policy 1. Giving a complete bed bath 2. supplies are the same as above with addition of bath basin 2. explain procedure to resident 3. provide resident privacy be pulling privacy curtain or closing resident's door 4. with resident's input gather clean clothing, personal toiletries 5. test temperature of water at sink before filling bath basin about halffull and taking to bedside 6. have resident verify water temperature is OK 7. raise level of bed to waist-height of the nurse aide and lock wheels of bed 8. cover resident with bath blanket to maintain warmth and remove night clothing 9. put on gloves 10. beginning with eyes, wash eyes with wet washcloth (no soap) using different area of washcloth for each eye, washing from the nose toward the temple 11. wash remainder of face 12. dry face with towel
OBJECTIVES	Accurately document performance of a partial bed bath on facility ADL Form as evidenced by Satisfactory rating on Skills Record. Demonstrate how to give a complete bed bath as evidenced by a Satisfactory rating on the Skills Record during the clinical experience.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	13. keeping resident covered with bath blanket, expose one (1) arm placing a clean, dry towel under the exposed arm 14. with soap on the washcloth, wash arm, hand and underarm and pat dry with towel and place under bath blanket 16. repeat process for 2 ²⁴ arm 17. expose resident's chest and abdomen and cover with soap on washcloth wash chest (including under the breasts) and abdomen and cover with bath blanket 18. rinse and dry chest and abdomen 18. rinse and dry chest and abdomen 18. rinse and dry chest and abdomen 19. expose one leg and foot and place clean, dry towel under leg 20. with soap on the washcloth, wash leg and foot (including between the toes) and rinse 21. dry leg and foot with towel that is underneath leg 22. cover leg and foot with bath blanket 23. repeat process for 2 ²⁴ leg and foot 24. wash front of perineum, front to back a. use clean area of washcloth for each stroke b. using clean washcloth, rinse soap from perineum, front to back using clean area of washcloth for each stroke 25. dry perineum, front to back with towel 26. return bed to low position
OBJECTIVES	

INSTRUCTION TIME (classroom, skills tob. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	clean, warm water 28. raise bed to comfortable level for the nurse aide and raise side rail on opposite side of bed 29. turn resident on side toward raised side rail and wash rectal area with clean washcloth and soap front to back with clean area of washcloth for each stroke 30. dry with towel 31. reposition resident 32. apply decodorant and lotion per resident's request and as needed 33. remove gloves and wash hands 34. assist resident to put on clean clothes, including non-skid footwear, if appropriate 35. assist with remainder of grooming: hair care, shaving, nail care 36. help resident to comfortable position 37. place call bell within reach 38. return bed to low position 39. empty, rinse, dry basin and store per facility policy 40. dispose of soiled washcloths, towels and linen per facility policy 41. be courteous and respectful to resident at all times 42. report any observations of changes in resident's condition or behavior to appropriate licensed nurse 43. document on ADL (Activities of Daily Living) Form, or designated documentation tool per facility policy
OBJECTIVES	Accurately document performance of a complete bed bath on facility ADL. Form as evidenced by Satisfactory rating on Skills Record.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	 J. Give a modified bed bath 1. skill required for NNAAP testing a. follow the procedure for "Gives Modified Bed Bath" in the most current edition of Virginia Nurse Aide Candidate Handbook 	III. Oral Hygiene A. Definitions 1. oral hygiene a. teeth b. gums c. tongue d. bridge e. dentures 2. periodontal disease - diseases of the gums 3. plaque a. sticky, colorless deposit that forms on teeth b. develops when food containing carbohydrates is left on the teeth c. bacteria live in plaque and destroy the tooth enamel causing tooth decay 4. tartar a. plaque left on teeth more than 24 hours hardens into tartar b. promotes tooth decay and gum disease, gingivitis 5. gingivitis 7. gingivitis 8. singivitis 9. can be prevented with regular brushing, flossing and cleaning by a dentist
OBJECTIVES	Demonstrate how to give modified bed bath (face, 1 arm, hand and underarm) as evidenced by Satisfactory rating on Skills Record.	with oral hygiene as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	6. periodontitis a. inflammation of gums becomes more severe b. gums pull away from teeth allowing bacteria and food to accumulate c. gums become infected d. teeth become loose and fall out or must be removed 7. halitosis a. bad breath b. caused by poor oral hygiene c. bacteria and plaque build-up around un-brushed teeth producing odor 8. bridge a. may be permanent or removable b. bridge a gap between resident's own teeth producing odor c. attach to resident's own teeth c. attach to resident's own teeth 9. edentulous - toothless 10. dentures a. removable replacement for teeth and gums b. all resident's teeth are removed c. may have upper – replaces teeth in lower jaw d. lower denture – replaces teeth in lower jaw 2. remove food and bacteria from teeth, tongue, gums, cheeks 3. prevent tooth decay and gum disease 4. prevent bad breath
OBJECTIVES	Demonstrate an understanding of the importance of oral hygiene as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. Observations to make while assisting with oral care 1. lips a. dry b. cracked c. bleeding d. chapped e. cold sores (fever blisters) 2. tongue, gums, and cheeks a. red, white or swollen areas b. sores or white spots c. bleeding 3. teeth a. loose b. cracked c. chipped d. broken e. discolored f. missing 4. dentures (partial, upper, lower) a. chipped b. cracked c. fit poorly 5. breath a. bad breath that does not go away with brushing b. fruity aroma to breath 6. difficulty swallowing a. gagging b. choking 7. resident complains of pain in mouth D. Guidelines for good oral hygiene 1. brush teeth after each meal and at bedtime 2. floss once a day 3. rinse dentures after each meal
OBJECTIVES	Describe observations that the nurse aide may make while providing oral hygiene to a resident as evidenced by accurate documentation form during role-play in skills lab. Identify the guidelines for good oral hygiene as evidenced by a minimum grade of 80% on unit test.

INSTRUCTION TIME (classroom, skills tab. clinical)	
STUDENT	
TOOLS/RESOURCES	
CONTENT OUTLINE	A. remove dentures at becttime and soak overnight in soaking solution 1. toothbrush 2. toothpaste 3. emesis basin 4. gloves 5. towel 6. glass of water 7. denture cup for resident with dentures 8. floss 9. mouthwash F. Provide mouth care 1. consider the toothbrush as a "clean" instrument throughout procedure 2. encourage resident to be as independent as he can assistance gathering supplies or transport to the bathroom 4. follow the procedure for "Provides Mouth Care" in the most current edition of Virginia Nurse Aide Candidate Handbook 5. document procedure on Activities of Daily Living form, or designated documentation tool per facility policy 6. report any observations of changes in resident's condition or behavior to appropriate licensed nurse
OBJECTIVES	Demonstrate how to provide mouth care as evidenced by Satisfactory rating on skills Record for skills lab and for clinical. Accurately document performance of mouth care on facility ADL form as evidenced by Satisfactory rating on Skills Record. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	G. Provide mouth care for edentulous resident 1. even though teeth are absent, mouth care is important 2. use foam-tipped applicators moistened with mouthwash or half-strength mouthwash/hydrogen peroxide to clean gums 3. use applicators to clean tongue 4. rinse mouth with mouthwash 5. document procedure on Activities of Daily Living form, or designated documentation tool per facility policy 6. report any observations of changes in resident's condition or behavior to appropriate licensed nurse H. Flossing teeth 1. purpose a. cleans food and bacteria from between teeth where toothbrush cannot reach 2. equipment a. dental floss b. gloves c. towel d. water for resident to drink e. emesis basin 3. procedure a. identify yourself to resident b. explain what you will be doing c. provide privacy d. wash hands e. gather supplies f. place resident in upright sitting position with towel over chest
OBJECTIVES	Demonstrate how to provide mouth care for an edentulous resident as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical. Accurately document performance of mouth care on facility ADL form as evidenced by Satisfactory rating on Skills Record. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor. The appropriate supervisor. Demonstrate how to floss a resident's teeth as evidenced by satisfactory practice in skills lab.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	i. if resident in bed, raise bed to waist-height and lower side rail closest to you g. put on gloves h. wrap ends of floss securely around each of your index fingers i. beginning with back teeth, using a sawing motion, move floss up and down between teeth j. gently slip floss into space between gum and tooth k. repeat on each side of the tooth l. after every 2 teeth, unwind floss and use a new area of floss m. offer resident water to drink and provide emesis basin to spit the water into n. clean resident's mouth with towel o. return bed to low position, replace side rail as appropriate pp place call bell within reach of resident q. clean and return supplies to appropriate storage area r. remove and dispose of gloves and used floss s. wash hands t. document procedure on Activities of Daily Living form, or designated documentation tool, per facility policy u. report any observations of changes in resident's condition or behavior to appropriate licensed nurse
OBJECTIVES	Accurately document performance of flossing teeth on facility ADL form as evidenced by Satisfactory rating on Skills Record.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	1. Provide denture care 1. always wear gloves when handling dentures 2. dentures are very expensive, handle with care 3. always store in water 4. follow the procedure for "Cleans Upper or Lower Denture" in the most current edition of Virginia Nurse Aide Candidate Handbook 5. document procedure on Activities of Daily Living form or designated documentation tool, per facility policy 6. report any observations of changes in resident so appropriate licensed nurse 7. Provide oral care for unconscious resident 8. Provide oral care for unconscious from drying 9. Reep teeth and gums moist c. keeps lips moist to prevent cracking 2. supplies 8. toothbrush or foam-tipped applicator 9. toothpaste or cleaning solution c. gloves 9. toothpaste or cleaning solution 1. ip lubricant 2. gloves 9. toothous and fo, even explain what you will do, even	
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor. Demonstrate how to provide denture care as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor. Accurately document performance of denture care on facility ADL form as evidenced by Satisfactory rating on Skills Record. Demonstrate how to provide mouth care for an unconscious resident as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical.	

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	b. provide resident is unconscious b. provide resident privacy c. wash hands d. gather supplies e. raise bed to waist-height and lock wheels of bed f. lower side rail closest to you g. turn resident on side, facing you h. put on gloves i. place towel under resident cheek and chin j. place emesis basin next to cheek and chin to catch fluid from mouth k. using moistened toothbrush or foam-tipped applicator gently clean teeth, gums, tongue l. rinse and remoisten brush or applicator as needed m. when finished use towel to dry resident's face n. remove towel and basin o. apply lip lubricant p. reposition resident q. replace side rail to appropriate position reach t. clean and store equipment u. dispose of linen v. remove gloves and wash hands w. document procedure on Activities of Daily Living form, or designated documentation tool, per facility policy
OBJECTIVES	Accurately document performance of mouth care for the unconscious resident on facility ADL form as evidenced by Satisfactory rating on Skills Record.

INSTRUCTION TIME (classroom, skills lab, clinical)			
STUDENT			
TEACHING TOOLS/RESOURCES			
CONTENT OUTLINE	x. report any observations of changes in resident's condition or behavior to appropriate licensed nurse	IV. Grooming A. Maintaining neat, clean, and well-groomed appearance 1. hair care 2. shaving 3. make-up 4. fingernail care 5. foot care	
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor.	Identify the components of personal grooming as evidenced by a minimum grade of 80% on the unit test.	Explain how to shampoo a resident's hair as evidenced by Satisfactory rating on the Skills Record during clinical experience.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	changes in resident's condition or behavior to appropriate licensed nurse d. shampoo in bed (some facilities have shampoo basin for use in bed) e. dry, powder shampoo may be used for bed-ridden resident daily hair care a. improves self-esteem b. resident chooses how to style his/her hair c. brushing hair massages scalp d. prevents tangles d. prevents tangles d. prevents tangles equipment a. resident's own comb and/or brush b. mirror c. towel d. hair care items requested by resident explain what you will be doing b. gather supplies c. wash hands d. provide for resident privacy e. place towel over shoulders to collect hair that comes out while combing/brushing at the ends and working toward the scalp g. remove tangles first h. then brush hair from scalp to ends of hair i. style as resident prefers
OBJECTIVES	Demonstrate how to provide hair care as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	j. clean hair from comb and/or brush and return equipment to appropriate storage k. dispose of towel per facility policy position resident comfortably m. place call bell within resident's reach n. wash hands o. document procedure on Activities of Daily Living form, or designated documentation tool, per facility policy p. report any observations of changes in resident's condition or behavior to appropriate licensed nurse C. Shaving 1. guidelines for shaving men facial hair a. respect resident preference b. follow the facility policy for shaving c. some residents do not shaving c. some residents do not shaving e. before shaving with safety or disposable razor, soften facial hair with warm, moist cloth f. always shave in same direction as the hair grows g. follow resident preference for shaving and after-shave products h. discard disposable razors in the biohazard container
OBJECTIVES	Accurately document performance of hair care on facility ADL form as evidenced by Satisfactory rating on Skills Record. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor. Explain guidelines for nurse aide when shaving a resident as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom,		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	i. never cut or trim resident's facial hair without their permission 2. supplies a. electric razor i. safest ii. does not require shaving cream or soap iii. prevents nicks and cuts iv. should be used if resident receiving anti-coagulant medications v. do not use near water source or when oxygen is in use be disposable razor i. requires shaving cream or soap ii. may make nicks or cuts because they are very sharp c. safety razor i. requires shaving cream or soap ii. blades need to be changed when become dull iii. blades need to be changed when become dull iii. dispose of old blades in biohazard container iv. may make nicks or cuts because they are very sharp d. towels e. washcloth f. mirror g. shaving cream or soap h. gloves	3. procedure for shaving male resident a. identify yourself and explain what you will be doing b. gather supplies
OBJECTIVES	Describe the different types of razors including how the nurse aide would use each type as evidenced by satisfactory practice in the skills lab.	Demonstrate how to shave a resident as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. fill basin half-full of warm water for use with resident in bed d. provide for resident privacy e. if resident is in bathroom, position him in front of mirror f. if resident is in bed, raise bed to waist-height, lower side rail closest to you and raise head of bed to sitting position g. put on gloves h. for safety or disposable nazor i. drape towel over resident's chest iii. moisten beard with warm, moist cloth iii. apply shaving cream or lathered soap to cheeks, chin and front of neck iv. holding skin taut shave in direction hair grows (downward on face, upward on neck) v. rinse razor frequently to get rid of excess cream/soap/whiskers vi. offer mirror to resident for approval viii. apply after-shave per resident preference ix. remove and dispose of towel x. remove gloves and wash hands i. for electric razor i. do not use near the sink iii. put on gloves

INSTRUCTION TIME (classroom, skills lob clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	iv. apply pre-shave lotion per resident preference v. holding skin taut shave with smooth, even, circular motions if razor has 3 heads, otherwise go back and forth in direction of hair growth (downward on face and upward on neck) vi. offer mirror to resident for approval vii. apply after-shave per resident preference viii. remove and dispose of towel ix. remove gloves and wash hands x. remove any loose hairs from resident xi. position resident comfortably j. if in bed, return bed to low position k. place call bell within resident's reach l. clean razor of hair and/or soap m. return equipment to appropriate storage n. document procedure on Activities of Daily Living form, per facility policy or report any observations of changes in resident's condition or behavior to appropriate licensed nurse licensed nurse licensed nurse a always obtain resident consent b. some women want to shave unwanted facial c. hair, underarm hair and/or leg
OBJECTIVES	Accurately document shaving on facility ADL form as evidenced by Satisfactory rating on Skills Record. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor. Discuss procedure for shaving a female resident as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE		E. Fingernail care 1. purpose of nail care a. nails collect micro-organisms b. long, jagged nails can scratch resident, care giver or another resident c. improves self-esteem 2. guidelines for nail care a. do not cut with scissors or trim with nail clippers b. file nails straight across using emery board and shape the nail c. no shorter than the end of the finger d. never share nail equipment between residents 3. observations nurse aide may make a. pain or tenderness in hands/fingers b. dry, cracked skin c. bruising d. discolored nail beds e.
OBJECTIVES	Explain why make-up may be important for the resident as evidenced by participation in classroom discussion.	Identify the importance of fingernail care as evidenced by participation in classroom discussion. Describe guidelines the nurse aide should follow when providing nail care as evidenced by Satisfactory rating on Skills Record during skills lab and clinical. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor as evidenced by classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	A. supplies a. orangewood stick b. emery board (nail file) c. lotion d. basin with warm water e. soap f. gloves g. towel 5. provide fingernail care a. identify yourself by name b. wash your hands c. explain procedure to resident d. provide for privacy with curtain, screen or door e. if resident is in bed, adjust bed to safe level, usually waist high and lock the wheels f. fill basin halfway with warm water, no warmer than 105° and place basin at comfortable level for resident (have resident check water temperature) g. put on gloves h. soak resident's hands and nails in water at least 5 minutes i. remove one hand from water, wash with soapy wash cloth; rinse; pat dry with towel, including between fingers j. place hand on towel k. gently clean under each fingernail with the orangewood stick, wiping orangewood stick on towel after cleaning under each nail l. repeat steps i-k for the second hand
OBJECTIVES	Demonstrate how to provide fingernail care as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	m. wash and rinse both hands again and dry thoroughly between fingers n. shape fingernails with emery board or nail file o. finish with nail smooth and free of rough edges p. apply lotion from fingertips to wrists q. empty, rinse and dry basin before placing in designated dirty supply area or returning to storage per facility policy r. place soiled clothing and linens in proper containers s. remove and discard gloves before washing your hands t. make resident comfortable u. return bed to low position and remove privacy measures v. place call bell within reach of resident w. wash hands x. document procedure on Activities of Daily Living form, per facility policy y. report any observations of clanges in resident's condition or behavior to appropriate licensed nurse F. Foot care 1. purpose a. prevent foot odor b. prevent infection c. prevent pressure ulcer d. prevent complications of diabetes mellitus
OBJECTIVES	Accurately document performance of fingernail care on facility ADL form as evidenced by Satisfactory rating on Skills Record. Discuss the importance of foot care as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	e. provides nurse aide opportunity to observe feet and toes shoes uncomfortable shoes uncomfortable a. rouns or calluses of foot care a. nurse aide may not cut toenails, corns or calluses b. always dry feet thoroughly, including between the toes c. put on clean socks every day observations the nurse aide may make during foot care a. dry skin b. breaks or tears in the skin (including between toes) c. ingrown nails d. red areas on the feet, heels, or toes e. drainage or bleeding f. change in color of skin or nails g. heels that are soft or whitish or discolored h. corns, blisters, calluses, warts i. complaints of pain, burning or tenderness in feet, heels, or toes j. rash k. unusual odor tenderness in feet, heels, or toes i. soap d. lotion e. gloves f. washcloth g. clean socks
OBJECTIVES	Identify guidelines for foot care as evidenced by Satisfactory rating on Skills Record during skills lab and clinical. Discuss observations that the nurse aide may make while providing foot care as evidenced by accurately documenting foot care practiced in skills lab and in clinical. Demonstrate how to provide foot care as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	5. provide foot care a. follow the procedure for "Provides Foot Care on One Foot" in the most current edition of Virginia Nurse Aide Candidate Handbook b. document procedure on Activities of Daily Living form, per facility policy c. report any observations of changes in resident's condition or behavior to appropriate licensed nurse	 A. Purpose 1. everyone should dress in clean clothes every day 2. promotes self-esteem 3. cleanliness helps to prevent odors B. Guidelines for dressing resident (explain procedure and provide privacy) 1. encourage resident to be as independent as possible within their capabilities 2. provide resident opportunity to make choices regarding what clothing to wear 3. allow resident time to make decisions and choices 4. clothing should be appropriate to time of year, temperature of surroundings 5. all of resident's clothing should be labeled with name and room number
OBJECTIVES	Accurately document performance of foot care on facility ADL form as evidenced by Satisfactory rating on Skills Record. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor as evidenced by classroom discussion.	Describe the importance of daily dressing as evidenced by participation in classroom discussion. Discuss guidelines the nurse aide should follow when helping a resident to dress as evidenced by Satisfactory rating on Skills Record in lab and in clinical.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	6. handle resident's clothing with care 7. report to supervisor any clothing that needs to be repaired in any way 8. provide resident privacy when dressing or undressing 9. report to supervisor or family clothing and shoes that are too big or too small 10. begin dressing on the weak side 11. begin undressing on the strong side 12. dresses that open in the front are easier to put on than ones that open in the back 13. slacks, skirts and pants with elastic waistbands are preferable 14. shoes should have non-skid soles 15. to promote resident independence, assistive clothing devices may be required a. zipper-pull b. extended shoe horn c. button hole helper d. long handled graspers e. Velcro openings C. Observations nurse aide may make when assisting resident to dress 1. change in flexibility of joints 2. weakness of one side of body 3. loss of weight if clothing becomes loose 4. gaining weight if clothing becomes tight
OBJECTIVES	Identify assistive devices that are useful for residents when they are dressing themselves as evidenced by using these devices appropriately in skills lab and in clinical. Explain observations the nurse aide may make when assisting the resident to dress as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	D. Safety measures and precautions when assisting resident to dress and undress 1. clothing should fit properly a. not too long b. not too tight c. not too loose 2. shoes should have non-skid soles 3. encourage resident to sit when putting on socks/stockings and shoes 4. provide sweaters and long-sleeved tops if resident complains of feeling cool or cold E. Dress resident 1. if resident needs assistance follow the procedure for "Dresses Resident with Affected (weak) Right Arm" in the most current edition of Virginia Nurse Aide Candidate Handbook a. document procedure on Activities of Daily Living form, per facility policy b. report any observations of changes in resident's personal clothing a. labeled with name and room number b. place in hamper for laundry when soiled or when removed at end of the day c. store clean clothes per facility policy bolicy
OBJECTIVES	Identify safety measures and precautions the nurse aide should be aware of when assisting the resident to dress as evidenced by participation in classroom discussion. Demonstrate how to dress resident with affected (weak) right arm as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical. Accurately document dressing on facility ADL form as evidenced by Satisfactory rating on Skills Record. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor as evidenced by classroom discussion.

INSTRUCTION TIME (classroom,		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	d. report to supervisor and/or family clothing that needs to be mended e. report to supervisor and/or family clothing/shoes that no longer fit	VI. Toileting A. Anatomy and physiology of urinary system 1. kidneys a. most people have 2 kidneys, one on each side of the small of the back b. cleanse and filter the blood c. regulate the balance of water, sodium, potassium d. remove toxins and waste products from blood e. assist to regulate blood pressure 2. urine - fluid created by kidneys from the water and waste products filtered from the blood 3. ureters - thin tube that carries urine from each kidney to the bladder 4. bladder - collects urine 5. internal urethral sphincter - muscle that holds the neck of the bladder closed, keeping the urine in the bladder 6. urethra - tube that carries urine from bladder to the outside of the body a. about 3- 4 inches long in males 7. external urethral sphincter - muscle that contracts to prevent urine from exiting the urethra
OBJECTIVES		Explain the anatomy and physiology of the urinary system as evidenced by being able to correctly identify each component part and its function.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	8. urethral meatus - opening to the outside of the body at the end of the urethra urethra B. Process of passing urine from the body 1. voiding 2. micturating 3. urinating 6. Urinary incontinence 1. unable to control the internal sphincter 2. involuntary passing of urine D. Definitions 1. hematuria - blood in the urine 2. anuria - no urine 3. dysuria - painful urination 4. nocturia - urinating at night 5. polyuria - excessive urination 6. Age-related changes to the urinary system 7. kidneys do not filter the blood as efficiently a. increase in blood pressure b. urethral sphincter muscle tone decreases i increases risk of urinary incontinence b. urethral sphincter muscle tone decreases i increases i increased risk of urinary tract infection i increased risk of urinary tract infection i increased risk of urinary tract infection
OBJECTIVES	Define the terms used in the urinary system as evidenced by participation in classroom discussion. Describe age-related changes seen in the urinary system as evidenced by accurately participating in classroom discussion.

INSTRUCTION TIME (classroom,	skills lab, clinical)	
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	F. Urine 1. color a. pale yellow – normal b. dark yellow to amber – dehydrated c. can be affected by food, medications and/or illnesses 2. clarity a. should be clear b. cloudy – sign of infection 3. odor a. smells of ammonia b. foods can affect smell – asparagus 4. amount a. adults produce 1200-1500 ml/24 hours b. minimum is 30ml/hour	a. blood b. pus c. mucus d. bacteria e. glucose f. sediment 6. report the following to the appropriate licensed nurse a. cloudy urine b. dark or rust-colored urine c. strong, offensive smelling urine d. fruity-smelling urine e. blood, pus, mucus in urine f. bacteria or glucose in urine g. sediment h. complaints of pain or burning on urination i. frequent urinary incontinence
OBJECTIVES	Identify normal characteristics of urine as evidenced by participating in classroom discussion.	Identify abnormal characteristics of urine that the nurse aide should report to the appropriate supervisor as evidenced by classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	j. resident wakes up frequently during the night to urinate G. Guidelines to promote normal urination 1. provide privacy 2. take to the bathroom as needed 3. assist male residents to stand to void, if possible 4. if resident must use bedpan, raise head of bed to sitting position 5. encourage adequate fluid intake 6. provide fresh water in easy reach of resident 7. frequently offer residents fluids to drink 8. encourage activity and exercise 9. teach Kegel exercises to female residents 10. answer call bells promptly 11. take resident to bathroom every 2	H. Common disorders of the urinary system 1. urinary tract infection (UTI) 2. usually a bacterial infection b. causes i. wiping incorrectly and contaminating urethra with bowel movement ii. not emptying the bladder completely iii. indwelling urinary catheter c. symptoms i.urgency ii. complaints of pain or burning with urination iii. urinating frequently in small
OBJECTIVES	Explain the guidelines the nurse aide should follow to promote normal urination patterns as evidenced by participation in classroom discussion.	Discuss common disorders of the urinary system, including their signs and symptoms, as evidenced by a minimum grade of 80% on the unit test.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	amounts iv. blood in urine v. lower abdominal pain vi. flank pain vii. change in mental status or behavior viii. nausea d. measures to avoid UTI i. wipe perineum front to back iii. drink plenty of fluids iii. Vitamin C helps to prevent UTI a) orange juice b) cranberry juice iv. take shower rather than tub bath e. report to nurse i. complaints of pain or burning on urination ii. foul-smelling urine iii. dark-colored urine iv. blood in urine v. resident voids frequently in small amounts vi. sediment in urine 2. urinary retention a. possible causes i. in men – commonly caused by enlarged prostate - benign prostatic hypertrophy (BPH) ii. in women – may be caused by cystocele (sagging of the bladder) and rectocele (sagging of the lower part of the colon)
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	b. symptoms i. unable to empty bladder completely iii. frequent urge to void iiii. difficulty starting urine stream iv. weak flow of urine stream v. dribbling after finished voiding vi. distended lower abdomen c. report any of the above 6 symptoms to the appropriate licensed nurse 3. urinary incontinence a. involuntary loss of urine from the bladder b. decreased muscle tone at internal or external sphincter allows urine to "leak" c. symptoms i. urine leaks when resident coughs, sneezes, laughs ii. resident cannot "make it to the bathroom in time" 4. chronic renal failure a. kichneys do not function correctly b. unable to filter waste products and toxins from blood c. unable to regulate water balance and blood pressure d. life-threatening e. most frequent causes ii. high blood pressure iii. diabetes mellitus iii. fatigue iiii. fatigue
OBJECTIVES	

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	5. end-stage renal disease (ESRD) a. kidneys stop functioning b. resident requires dialysis or kidney transplant i. dialysis - resident's blood flows through a machine that filters out waste products, toxins and extra water a) usually performed 3 times per week b) required to keep resident alive l. Equipment used with the urinary system system l. urinal a. mostly used by male residents but there are female urinals (ask if your facility uses them) b. placed between resident's log with penis in the urinal c. can be used standing, sitting or lying down d do not store on same table used to serve meal tray e. provide privacy for use 2. bedpan (can be used by both male and female) a. used when resident is unable to get out of bed b. two types i. regular - wide, rounded end placed under resident's buttocks ii. fracture pan - used when
OBJECTIVES	Identify equipment used with the urinary system as evidenced by satisfactory performance in skills lab when performing skills involving the urinary system.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	thin end is placed under resident's/resident's buttocks c. may be very uncomfortable and may damage the resident's/resident's skin 3. bedside commode a. chair frame with a toilet seat and collection bucket b. kept at bedside for residents unable to walk into bathroom 4. catheter c. 3 types i. straight – temporary – removed as soon as bladder is emptied ii. indwelling – remains in bladder to continuously drain urine into a collection bag iii. condom – fits over the penis and drainage bag a) Texas catheter is another name 5. urinary drainage bags J. Care for resident with urinary incontinence 1. can be emotionally traumatic for resident and family 2. treat with respect and dignity 2. treat with respect and dignity
OBJECTIVES	Discuss how to provide care to the resident/resident with urinary incontinence as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TOOLS/RESOURCES	
CONTENT OUTLINE	3. follow the procedure for "Provides Perineal Care (Peri-Care) for Female" in the most current edition of Virginia Nurse Aide Candidate Handbook 4. adaptations of peri-care for male resident a. if resident is not circumcised retract foreskin of penis b. hold penis by the shaft c. wash in circular motion from tip of penis down toward the body d. use clean area of washcloth for each stroke e. wash scrotum, then the groin f. rinse and dry g. turn resident on side h. wash, rinse, dry rectal area i. document procedure on Activities of Daily Living form, per facility policy j. report any observations of changes in resident's condition or behavior to appropriate licensed nurse 5. management of urinary incontinence a. answer call bell promptly b. encourage fluids c. encourage fluids c. encourage fluids c. encourage resident to walk or exercise d. toilet resident q2h e. resident wears incontinent pad or brief f. check pad or brief q2h for dryness and change if wet g. keep perineum clean and dry to
OBJECTIVES	Demonstrate how to provide perineal care as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical. Accurately document performance of perineal care on facility ADL form as evidenced by Satisfactory rating on Skills Record. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor as evidenced by classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	h. change wet clothing immediately i. treat resident with respect and dignity j. anticipate need to toilet k. resident may need a catheter k. Care of resident with a catheter l. Guidelines for the indwelling catheter a. always wear gloves when emptying catheter drainage bag b. do not touch tip of the clamp to any object when draining the bag c. do not touch the drainage spout to the graduate d. drainage bag should always be lower than the level of the hips or bladder to prevent urine flowing back into the bladder e. never hang the drainage bag from the side rail of the bed f. hang drainage bag from bed frame g. do not have the drainage bag on the floor h. catheter tubing should not touch the floor h. catheter tubing should drape over the thigh, not be under the leg l. use catheter strap to position catheter over the thigh m. do not place tubing over the side rail
OBJECTIVES	

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	n. always clean perineum front to back to prevent infection o. keep perineum clean and dry to prevent infection p. do not disconnect drainage tubing from the catheter q. notify appropriate licensed nurse immediately if drainage tubing becomes disconnected 2. Care of the resident with an indwelling catheter Care for Female" in the most current edition of Virginia Nurse Aide Candidate Handbook b. document procedure on Activities of Daily Living form, per facility policy c. report any observation of changes in resident's condition or behavior to appropriate licensed nurse licensed nurse 3. measuring urinary output a. always wear gloves b. always measure with a graduate i. do not use lines on urinal or drainage bag to measure urine output c. place graduate on counter top and bend knees to have urine level at your eye level to measure d. measure in milliliters (ml) i. 1ml=1cc (cc=centimeter) ii. 30 ml = 1 ounce (oz)
OBJECTIVES	Demonstrate how to provide catheter care as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical. Accurately document performance of catheter care on facility ADL form as evidenced by Satisfactory rating on Skills Record classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	4. how to empty a drainage bag a. identify yourself and explain what you will be doing b. wash hands and put on gloves c. provide for privacy d. obtain graduate e. place paper towel on floor under graduate f. open clamp on drainage bag and allow urine to empty into graduate g. empty entire content of drainage bag h. close clamp and return to housing on drainage bag i. measure urine in bathroom by placing graduate on counter top and reading at eye level j. empty urine into toilet and flush k. rinse and dry graduate and store per facility policy n. report any observations of changes in resident's urine and/or condition or behavior to appropriate licensed nurse L. Urinary specimens 1. routine urine specimen a. not a sterile specimen b. can be obtained from bedpan, urinal or speci-hat (collector that fits over the porcelain bowl of the toilet and under the seat) c. equipment needed i. specimen container and lid i. specimen container and lid
OBJECTIVES	Demonstrate how to empty a urinary drainage bag as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical. Accurately document urinary output as evidenced by Satisfactory rating on Skills Record. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor as evidenced by classroom discussion.

INSTRUCTION TIME (classroom,		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	iii. gloves iii. gloves iv. means to collect urine v. supplies for perineal care d. procedure i. identify yourself and explain what you need the resident to do iii. provide for privacy iiii. wash hands and put on gloves iv. assist resident to toilet with speci-hat, bedside commode (BSC), or provide urinal or bedpan v. instruct resident to urinate but put toilet paper in trash for disposal vi. remove gloves and wash hands vii. assist resident to return to comfortable position in room viii. put on clean gloves ix. in bathroom, pour urine into specimen cup until cup is half full, keeping outside of cup clean x. place lid on cup and label immediately xii. rinse and dry any equipment used to collect urine	hands place call bell reach of resider document spec
OBJECTIVES	Discuss how to collect routine urine specimen as evidenced by participation in classroom discussion.	specimen collection as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	collection per facility policy xv. report any observations of changes in resident's urine and/or condition or behavior to appropriate licensed nurse 2. clean-catch urine specimen (mid- stream specimen) a. used to determine the presence of bacteria in the urine b. resident urinates a small amount to clear the urethra, stops, if possible, then collects sample c. procedure for collecting clean- catch specimen i. identify yourself and explain what you need the resident to do ii. provide for privacy iii. wash hands and put on gloves iv. assist resident to bathroom v. open specimen kit keeping inside of specimen cup from touching anything vi. instruct resident to clean perineum prior to obtaining specimen a) female – separate labia and clean front to back in 3 separate strokes with a clean from the right side - down the right side - down the middle b) male – clean head of penis with circular strokes using clean towelette for each
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor. Discuss how to collect clean-catch urine specimen as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	- if uncircumcised, pull back foreskin and clean as above c) return foreskin to unitater uninating wii. ask resident to uninate a small amount and then stop, if possible viii. place container and ask resident to continue urinating collecting until cup is about half full ix instruct resident to finish urinating and wipe with toilet paper as usual x. place lid on specimen cup and clean outside of cup with paper towel xi. apply label and place cup in plastic bag provided xii. remove gloves and wash hands xiii. assist resident to comfortable position in room xiv. place call bell within easy reach of resident xv. document specimen collection per facility policy xv. report any observations of changes in resident's urine and/or condition or behavior to appropriate licensed nurse
OBJECTIVES	Accurately document specimen collection as evidenced by Satisfactory participation in classroom discussion. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor. Explain the anatomy and physiology of the gastrointestinal system as evidenced by being able to correctly identify each component part and its function.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	M. Anatomy and physiology of the gastrointestinal system (Gi) – digestive system 1. begins at the mouth and ends at the rectum 2. tongue moves food around the mouth 3. salivary glands – secrete saliva which begins the breakdown of food 4. teeth – break up food 5. esophagus – carries food to stomach down food into chyme (semifluid mass of partly digested food) 7. chyme enters small intestines where it is propelled via peristalsis (wavelike motion that moves contents through small and large intestines) a. continues to be digested by bile from liver enzymes b. about 90% of absorption of nutrients from food occurs in small intestines 8. large intestines – help regulate water balance a. chyme takes 3-10 hours to become feces b. feces water, sold waste material, bacteria and mucus c. defecation – eliminating feces from the body functions of the GI system a. ingestion – taking food/fluid into the body b. digestion – breakdown of food b. digestion – breakdown of body
OBJECTIVES	

TON TIME (classroom,		
STUDENT		
TEACHING TOOLS/RESOURCES	·	
CONTENT OUTLINE	into nutrients to be absorbed c. elimination of waste products from the body N. Age-related changes to the GI system 1. decreased taste (sweet is last taste to remain) 2. loss of teeth affects ability to chew 3. decreased saliva and digestive fluids slow digestion of food 4. medical conditions may cause difficulty swallowing 5. decreased absorption of vitamins and minerals 6. decreased rate of digestion leads to constipation 7. age related changes and behaviors a. inactivity b. drinking less fluids	c. some chronic or acute illnesses d. medications O. Bowel elimination 1. called stool, feces, bowel movement (BM) 2. frequency a. varies by individual b. regularity prevents complications 3. color a. brown b. foods can cause color to change c. iron medication changes color to black d. illness 4. consistency a. soft, moist, formed b. foods can cause change to consistency
OBJECTIVES	Describe age-related changes seen in the gastrointestinal system as evidenced by accurately participating in classroom discussion.	Identify normal characteristics of stool as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	5. illness 6. not normally found in feces a. blood b. mucus c. pus d. worms 7. report the following to the appropriate licensed nurse a. abnormally colored feces (white, black, bloody) b. hard, dry feces c. liquid stool (diarrhea) d. inability to have bowel movement (constipation) e. pain with bowel movement f. stool that contains blood, mucus, pus g. stool incontinence P. Guidelines to promote normal bowel elimination 1. encourage adequate fluid intake 2. warm fluids stimulate peristalsis 3. diet with adequate fiber/roughage 4. promote regular exercise 5. provide good oral care to keep mouth and teeth healthy 6. provide privacy when using the bathroom 7. allow plenty of time for resident to use bathroom 8. follow resident's pattern for bowel elimination 9. laxatives may be ordered to stimulate bowel activity
OBJECTIVES	Discuss the importance of identifying abnormal characteristics of stool that the nurse aide should report to the appropriate supervisor as evidenced by participation in classroom discussion. Explain the guidelines the nurse aide should follow to promote normal bowel elimination patterns as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	 Q. Care of the resident needing to use a bedpan 1. used by residents unable to get to the bathroom 2. not comfortable and can cause damage to the skin 3. follow the procedure for "Assists with use of Bedpan" in the most current edition of Virginia Nurse Aide Candidate Handbook 4. document procedure on Activities of Daily Living form, per facility policy 5. report any observations of changes in resident's condition, skin changes, and/or behavior to appropriate licensed nurse R. Common disorders of the GI system 1. heartburn a. acid reflux b. sphincter muscle where esophagus enters stomach has poor muscle tone allowing gastric acid to enter the esophagus c. causes pain in chest d. burning in esophagus e. bitter taste in mouth f. usually after meals 2. flatulence a. gas or flatus b. too much air in GI tract c. caused by certain foods ii. beans iii. high fiber iii. high fiber iii. high fiber iii. high fiber
OBJECTIVES	Demonstrate how to help a resident use a bedpan as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical. Accurately document use of a bedpan and the outcome on facility ADL form as evidenced by Satisfactory rating on Skills Record. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor. Discuss common disorders of the GI system, including their signs and symptoms, as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	intolerance) d. exercise may provide relief e. lying on left side may be helpful 3. constipation a. difficult, painful elimination of stool b. stool is usually hard and dry c. symptoms i. abdominal swelling iii. gas iiii. irritability iv. straining during bowel movement d. treatment i. increase fiber iii. increase fiber iii. increase fiber iii. increase fiber iii. increase fiber iv. laxative, enema, suppository may be ordered 4. diarrhea a. frequent liquid or semi-liquid stool b. causes i. infections ii. irritating foods iii. medications iv. stress/anxiety v. illness or disease process c. treatment i. BRAT diet (bananas, rice, apples, tea) ii. diet may be changed iii. medications may be ordered iii. medications may be ordered iv. probiotics may be ordered stool
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	b. causes i. loss of muscle tone at anal sphincter ii. loss of nerve control at anal sphincter iii. fecal impaction c. treatment by changing diet and/or medication as ordered i. bowel training 6. fecal impaction a. hard, dry feces accumulate in rectum and resident cannot expel b. symptoms i. no stool for several days ii. complaints abdominal pain iii. abdominal distension iv. nausea and vomiting v. oozing liquid stool c. must be manually removed by nurse (RN or LPN) d. prevention i. encourage adequate fluid intake iii. diet high in fiber iii. adequate exercise iv. regular toileting schedule S. Enemas 1. nurse aides may only give enemas that contain no additives that contain no additives 2. know and follow your facility policy regarding nurse aides administering enemas a. tap water – 500-1000ml tap water b. soapsuds – 500-1000ml tap water b. soapsuds – 500-1000ml tap
OBJECTIVES	Explain the different types of enemas and when a nurse aide is permitted to give an enema as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. saline - 500-1000ml water with salt added d. pre-packaged (Fleets) – 120ml saline or oil T. Stool specimens 1. stool specimen 2. purpose a. identify parasites, microorganisms, or blood 3. procedure a. identify yourself and explain what you are going to do b. wash hands c. put on gloves d. place speci-hat in toilet or bedside commode e. have resident defecate in specital assist with perineal care g. using 2 tongue blades place stool in specimen cup and close lid h. attach label immediately i. dispose of tongue blades per facility policy j. remove gloves and wash hands k. position resident comfortably in room l. place call bell within reach of resident m. dispose of tongue blades per facility policy n. document procedure on Activities of Daily Living form, per facility policy
OBJECTIVES	Discuss how to collect routine stool specimen as evidenced by participation in classroom discussion. Accurately document specimen collection as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	o. report any observations of changes in resident's condition or behavior to appropriate license nurse U. Ostomies 1. ostomy - opening from an area inside the body to the outside of the body 2. colostomy – intestine is brought to outside of abdomen a. stoma - opening in abdomen b. colostomy bag – appliance that covers the stoma and into which the stool drains c. no stool will be eliminated via	3. some causes a. cancer of colon, rectum b. trauma – gunshot c. diverticulitis d. Crohn's disease 4. care for resident with ostomy i.treat resident with respect ii. be sensitive and supportive iii. provide privacy for resident or nurse to change bag 5. observations nurse aide should report to the appropriate licensed nurse a. color and consistency of stool b. unusual odor c. blood, pus, mucus in stool in bag d. leaking around the seal of the bag e. flatus accumulating in the ostomy bag f. complaints of pain in abdomen
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor.	Explain why a resident might have a colostomy as evidenced by participation in classroom discussion. Describe care issues for a resident with a colostomy including what observations the nurse aide should make as evidenced by satisfactory participation in classroom discussion. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor.

STUDENT INSTRUCTION EVALUATION TIME (classroom, skills lab, clinical)	
TOOLS/RESOURCES	
CONTENT OUTLINE	g. distended abdomen A. Basic nutrition 1. purpose of Gi (gastrointestinal) system a. ingestion – take in food b. digestion – breakdown food into nutrients the body can absorb and use c. elimination – eliminate parts of food not absorbed 2. types of nutrients a. water i. most important nutrient ii. essential for life iii. ingested as liquid but also as part of foods iv. 50-60% of body weight v. transports waste products out of body vi. keeps us cool – perspiration vii. keeps us cool – perspiration viii. helps joints to move smoothly b. carbohydrates i. source of glucose – food for the cells of the body ii. if not used for energy (food) for the body they are stored as fat iii. 1 gram carbohydrate = 4 calories iv. grains, cereals, fruit, some vegetables c. protein i. contain the "building blocks" i. contain the "building blocks"
OBJECTIVES	Discuss the importance of nutrition, hydration, and elimination as it relates to the resident/resident as evidenced by participation in classroom discussion. Describe the six (6) main nutrients in a healthy diet as evidenced by participation in classroom discussion. discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	for the cells ii. found in fish, meat, nuts, bean, legumes, eggs and dairy products iii. helps body to build new tissue and to rebuild tissue that is damaged iv. 1 gram = 4 calories d. vitamins i. fat soluble – only dissolve in presence of fat – vitamins D, E, A, K ii. water soluble – dissolve in water – B vitamins, vitamin C iii. essential for the body to function correctly e. minerals i. help provide structure to the body ii. calcium – builds bones and teeth iii. iron – required to transport oxygen throughout the body f. fat (lipids) i. found in meat and oils, milk, cheese, nuts ii. make food taste good iii. take long time to breakdown giving the sensation of being "full" longer iv. most be present in the body to use Vitamin D, E, A, K v. 1 gram = 9 calories
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	3. USDA My Plate a. general guide for types and quantities of foods to eat each day b. fruits and vegetables i. half of plate ii. vegetables - fresh, frozen, dried, canned, juice, dark green vegetables, red and orange vegetables, dry beans and peas, starchy vegetables iiii. fruits – fresh, frozen, dried, canned, juice c. grains i. one quarter of plate ii. half should be whole grain d. protein i. one quarter of plate iii. half should be whole grain d. protein i. one quarter of plate iii. beans, peas, soy products, nuts, seeds e. dairy i. 3 cups each day iii. beans, peas, soy products, nuts, seeds b. soft diets a. regular diets a. regular diets vithout restrictions b. soft diet ii. restricts raw fruits and vegetables iii. restricts raw fruits and vegetables iii. restricts high fiber and spicy foods c. mechanical soft diet i. foods are chopped or blended ii. foods are chopped or blended
OBJECTIVES	Explain how to use My Plate as a guide for a healthy diet as evidenced by satisfactory completion of a one-week diet plan. Identify various special diets that residents may receive as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom,																									
STUDENT																									
TEACHING TOOLS/RESOURCES																									
CONTIENT OUTLINE	to make them easier to chew ii. does not restrict spices, fat or fiber	d. pureed dieti. consistency of baby foodii. for resident with difficulty	chewing and/or swallowing e. clear liquid diet	i: only includes liquids you can see through	ii. jello, apple juice, bouillon,	cream	iii. does not provide enough	nutrients to maintain health for	f. full liquid diet	i. clear liquids and any food that	can be poured at room or body	ii. puddings, cream sonos, voeurt.	breakfast drinks	g. bland diet	 restricts spicy and acidic foods 	h. fiber-specific diet	i. may be high or low fiber	depending on medical needs of	resident i low codium diet (low NA diet)	i. restrict amount of salt resident	may use	ii. ordered for resident with high	blood pressure	III. may be no added sait: diet (NAS)	j. diabetic diet
OBJECTIVES																									

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	i. ordered for residents with diabetes mellitus ii. may restrict caloric intake iii. restricts amount of sugar and carbohydrates k. fluid restricted diet i. ordered for resident with heart or kidney disease ii. identifies specific quantity of fluid resident may have in 24-hour period l. gluten-free diet i. may be resident choice or due to intolerance to gluten ii. gluten is a general term for proteins found in wheat iii. residents/residents with celiac disease cannot tolerate gluten m. NPO i. nothing by mouth n. liquid modifications i. may be required for residents with difficulty swallowing "thin" fluid like water ii. Thick-It — works like com starch to thicken the liquid iii. nectar thick (consistency of thick fruit juice) iv. honey) v. pudding thick (consistency of pudding) vi. know facility policy and procedures for who can thicken fluids
OBJECTIVES	Describe the three (3) consistencies of thickening that may be ordered for residents with swallowing difficulties as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	B. Age-related changes to eating and nutrition 1. physical changes a. dysphagia – difficulty swallowing b. loss of teeth – difficulty chewing c. decrease saliva – difficulty swallowing d. decrease saliva – difficulty swallowing e. decreased activity to see – makes it difficult to feed oneself and food appears less appealing 2. decreased activity level a. less appetite b. increases risk of constipation 3. special diets a. foods not prepared with spices have less flavor b. purchased diets not very appealing to the eye 4. psychosocial a. decreased income makes it difficult to buy foods that resident purchased earlier in life b. lack of social interaction may decrease appetite c. depression may decrease appetite 5. physical ailments a. medical conditions can make eating/cooking difficult b. Parkinson's Disease, stroke, certain cancers, Alzheimer's Disease (AD)
OBJECTIVES	Identify age-related changes that affect eating and nutrition as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	•
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	6. medications a. can alter the taste of food b. can leave bad taste in the mouth c. can decrease appetite d. may cause nausea, diarrhea, constipation l. religious considerations for eating and nutrition l. religious considerations a. Jewish religion i. may not eat pork ii. may not eat pork iii. food specially prepared to religious specifications b. Muslim (Islam) i. will not eat pork iii. food specially prepared to religious specifications c. Hindu (may not eat beef) d. Buddhist (many are vegetarian) e. Mormon i. may not drink caffeine— coffee, tea, cola ii. may not drink alcohol 2. social considerations a. vegan i. will may not eat any animal products iii. restricts eggs, dairy products, meat b. vegetarian (restrict meat, fish and poultry) c. fasting (voluntarily gives up eating for a period of time)
OBJECTIVES	Identify cultural considerations that affect eating and nutrition as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	3. ethnic considerations a. some ethnic groups like food that is cooked with specific spices (e.g. Asian residents may prefer rice to potatoes D. Observations nurse aide should report concerning eating and nutrition 1. eats less than 70% of meals 2. complains of mouth pain 3. dentures do not fit 4. teeth are loose 5. difficulty chewing or swallowing 6. frequent coughing/choking while eating 7. needs help eating or drinking 8. weight loss - clothes become tight 10. complaints of constipation 11. edema (fluid accumulation) in hands/feet E. Guidelines for nurse aide concerning eating and nutrition 11. edema (fluid accumulation) in hands/feet correct resident 12. season food following resident's tray to make sure it is the correct tray for the correct resident 2. season food following resident's choices 3. assist resident to fill out menu 4. if resident does not like food on tray try to replace with food of his choice 5. encourage resident to rinse mouth if resident receives medication immediately before mealtime
OBJECTIVES	Identify specific observations concerning eating and nutrition that the nurse aide should report to the appropriate supervisor as evidenced by participation in classroom discussion. Explain guidelines for the nurse aide concerning eating and nutrition as evidenced by satisfactory practice in the skills lab.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	7. assist resident with adaptive devices to help him maintain his independence and feed himself 8. accurately record food and fluid intake for each meal 9. follow nursing care plan to assist resident to maintain independence at mealtime F. Preparing for mealtime 1. encourage resident to toilet before going to the dining room 2. assist to wash hands and face, brush teeth 3. encourage resident to eat in dining room with other residents to promote social interaction 5. if eating in his room, clear a clean area for resident's tray a. remove urinal/bedpan from view b. position in an upright position c. if positioned in a wheelchair, lock the wheels G. Serving the tray 1. wash hands 2. offer/provide clothing protector or napkin 3. check diet card of tray a. correct diet b. correct diet 4. assist resident to prepare food a. season food per resident choice b. if resident requests, cut food into bite-sized pieces
OBJECTIVES	Describe actions the nurse aide should take to prepare the resident for mealtime as evidenced by satisfactory practice in skills lab and in clinical. Demonstrate how to serve resident trays as evidenced by satisfactory practice in skills lab and in clinical.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. open cartons, containers at resident's request 5. provide resident with appropriate assistive devices to promote resident independence a. plate guard b. silverware with built-up handles c. sippy cup 6. decrease distractions by lowering TV/radio volume 7. allow resident sufficient time to eat, do not rush 8. talk with resident respectfully 9. for a visually impaired resident identify the location of foods on the plate using the numbers on a clock-face H. Guidelines for feeding resident 1. assist resident to wash hands 2. place a clothing protector over the resident's chest is at the same level as resident, facing the resident 4. identify foods for the resident 5. ask resident 6. do not mix foods unless requested by resident 7. offer liquids between bites of food 8. do not touch food to test for hotness, place hand above food 9. do not force resident ample time to chew and swallow food before offering another bite 11. do not rush resident
OBJECTIVES

TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	1. Feed a resident who cannot feed himself 1. follow the procedure for "Feeds Resident who Cannot Feed Self" in the most current edition of Virginia Nurse Aide Candidate Handbook 2. document procedure on Activities of Daily Living form, per facility policy 3. report any observations of changes in resident's condition or behavior to appropriate licensed nurse 1. know facility procedure for calculating food intake 2. some facilities use a percentage eaten of the entire plate of food 3. some facilities calculate percentage based on type of food eaten, for example: a. all of protein eaten = 30% b. all of carbohydrates eaten = 50% c. all of vegetable eaten = 20% document and report food intake and fluid intake per facility policy the lungs 2. resident should be in up-right position (90°) to eat 3. feed resident slowly 4. reduce distractions 5. use thickener in liquids per nursing care plan 6. cut food into small bites
OBJECTIVES	Demonstrate how to feed a resident who cannot feed self as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical. Accurately document food and fluid intake as evidenced by Satisfactory rating on Skills Record. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor. Describe actions to help prevent aspiration as evidenced by satisfactory practice in skills lab and in clinical.

INSTRUCTION THME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	7. alternate liquids and solid food 8. if resident has paralysis, place food in non-paralyzed (non-affected) side of mouth 9. provide mouth care after resident has finished eating 10. have resident remain in up-right position about 30 minutes after finishing meal 11. report choking or gagging during meal to appropriate licensed nurse a. Ensure b. Sustacal c. Instant Breakfast 2. served between meals, or as ordered by health care provider 3. include in daily intake and output M. Hydration 1. man cannot live without water 2. served between by health care provider 3. include in daily intake and output M. Hydration 1. man cannot live without water 2. recommend 8-80z glasses (2000- 2500 ml) of fluid every day, unless restricted by health care provider 3. dehydration a. lack of sufficient fluid intake b. may cause i. constipation iii. UTI iiii. change in level of consciousness c. most common fluid and electrolyte problem in the elderly
OBJECTIVES	Define hydration, including actual amount of fluid required per day, as evidenced by a minimum grade of 80% on unit test.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	N. Signs of dehydration the nurse aide should report to the appropriate licensed nurse. 1. drinking less that 6-8oz glasses (1400ml) of fluid/day 2. complaints of thirst 3. dry, cracked lips 4. dry mucous membranes 5. sunken eyes 6. decrease urine output 7. urine is dark and strong smelling 8. complaints of constipation 9. loss of weight 10. weak, dizzy, light-headed 11. low blood pressure 12. complaints of headache 13. irritable 14. confusion 15. weak, rapid heartbeat O. Actions the nurse aide can take to prevent dehydration 1. provide resident with fresh water every shift and place pitcher where resident can easily reach it 2. frequently ask resident likes to drink 3. offer fluids that resident likes to drink 4. provide fluids at temperature resident prefers 5. provide resident with assistive devices if needed 6. keep accurate I/O records 7. follow nursing care plan and specific fluid
OBJECTIVES	Describe signs and symptoms of dehydration as evidenced by satisfactory participation in classroom discussion. Accurately describe actions of the nurse aide to prevent resident dehydration as evidenced by successful participation in classroom discussion.

INSTRUCTION TIME (classroom,		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	8. report to appropriate licensed nurse any signs of dehydration P. Signs of too much fluid (fluid overload) that the nurse aide should report to the appropriate licensed nurse 1. edema a. body retains fluid b. hands and feet swell c. rings and shoes become tight 2. weight gain 3. moist cough 4. shortness of breath on exertion 5. increased heart rate 6. skin on legs and feet becomes tight and shiny	A. Anatomy and physiology of the skin 1. layers of the skin 2. epidermis i. outer layer ii. made up of dead cells iii. has no blood vessels iv. contains melanin – pigment that gives color to the skin b. dermis i. inner layer ii. contains oil glands, sweat glands, hair follicles, blood vessels iii. protects internal organs from injury iv. produces Vitamin D when exposed to the sun 2. subcutaneous tissue a. layer of fat under the dermis b. blood vessels and nerve of the
OBJECTIVES	Identify signs and symptoms of fluid overload to report to the appropriate supervisor as evidenced by classroom discussion.	Explain the anatomy and physiology of the skin as evidenced by being able to correctly identify each component part and its function.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	skin originate here c. nerves provide sense of touch 3. glands in the dermis a. oil glands (sebaceous glands) i. secrete oily substance to prevent skin from drying and from harmful bacteria b. sweat glands i. produce sweat a) excrete waste products b) help to cool the body 4. hair - helps to keep body warm 5. nails - protects the ends of fingers and toes and toes and toes B. Age-related changes of the skin that may occur in geriatric residents/residents 1. decrease in fat in subcutaneous layer a. wrinkles b. sagging skin c. resident feels cooler c. resident feels cooler a. gray hair b. age spots 3. decrease in amount of melatonin a. gray hair b. age spots c. becomes thinner c. b. becomes thinner c. b. becomes fingile d. more prone to infections and tearing 4. nails thicken and may become yellow C. Factors promoting healthy skin 1. good nutrition 2. adequate hydration 2. adequate hydration 2. adequate
OBJECTIVES	Describe age-related changes seen in the skin as evidenced by accurately participating in classroom discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	3. adequate sleep 4. adequate exercise D. Common disorders of the skin 1. burns a. first degree i. involves epidermis ii. redness and pain b. second degree i. involves dermis ii. red, painful, swelling, blistering c. third degree ii. dermis and underlying tissue iii. scarring iiii. scarring iiii. muscle and bone may be involved d. pain, swelling, peeling e. causes i. hot liquid ii. electrical equipment iii. hair dryer iv. heating pad v. chemicals f. never put oil, lotion or butter on a burn g. cool and cover loosely h. notify appropriate licensed nurse immediately 2. shingles a related to chicken pox reactivation b. viral infection that follow path of a nerve c. blistery rash that appears as a single line on one side of the body d. very painful
OBJECTIVES	Discuss common disorders of the skin, including signs and symptoms, as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	e. contagious for someone who has never had chicken pox f. keep rash covered g. wash hands frequently 3. wounds a. two types i. open wound a) abrasion b) puncture wound c) gunshot wound c) gunshot wound d) laceration ii. closed would a) bruise b) hematoma b. symptoms i. pain ii. damage to the skin iii. discoloration of the skin iii. discoloration of the skin iv. bleeding v. fever, chills v. fever, chills vi. difficulty breathing c. report any wounds to the appropriate licensed nurse immediately T. pressure Sores (decubitus ulcers) 1. pressure points a. bony prominences b. heels c. shoulder blades d. elbows e. sacrum f. areas with very little fat between bone and skin 2. pressure sores a. breakdown of skin over a bony prominence b. harder to cure than to prevent
OBJECTIVES	

INSTRUCTION TIME (classroom,		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	c. caused by i. immobility — lying, or sitting on same area for a prolonged period of time a) weight of body prevents blood flow to tissue and body tissue begins to die after 2 — 3 hours ii. lying on wrinkled linen iii. lying on wrinkled linen iii. lying on wrinkled linen iii. lying on an object in the bed iv. sitting on bedpan for prolonged time v. wearing splint or brace that does not fit properly 3. risk factors for developing pressure sores a aging — skin becomes more fragile b. poor nutrition and hydration c. skin that has prolonged contact with water or moisture — causes epidermis to breakdown d. cardiovascular and respiratory problems — decreases amount of oxygen reaching cells e. skin exposed to friction and shearing - during turning and positioning 4. signs of developing pressure sores a. skin becomes whitish or reddened b. skin is dry, cracked and/or torn c. blisters, bruises 5. staging of pressure sores - *performed by a licensed nurse, not a nurse aide a. Stage a	
OBJECTIVES	Identify risk factors for developing pressure sores as evidenced by participating in classroom discussion. Describe the staging of pressure sores as evidenced by participating in classroom discussion.	

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	i. skin intact, but red, blue or grey non-blanchable ii. relieving pressure for 15-30 minutes does not return skin to normal coloration iii. can be reversed if treated early b. stage 2 i. involves both epidermis and dermis ii. looks like clear fluid filled blister or shallow crater iii. epidermis cracks or peels away iv. open area is portal of microorganism to enter v. no dead tissue yet c. stage 3 i. both epidermis and dermis are gone ii. looks like a deep crater iii. drainage is present iv. necrotic (dead) tissue may be visible but doesn't obscure depth of tissue loss v. takes weeks or months to completely heal d. stage 4 i. crater of damaged tissue extends down to the muscle or bone iii. often becomes seriously infected iiii. takes months to heal iv. may require skin graft 6. deep tissue injury (DTI) a. purple or discolored area with intact skin
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	b. firm, mushy, boggy, or warmer or cooler than adjacent tissue c. unstageable i. unable to see wound bed ii. eschar or slough in wound iii. can be yellow, tan, brown, black iv. can be firm, soft, or draining 7. actions to prevent pressure sores a. prevention is easier than treating and healing b. perform skin care and skin checks on regular basis i. during routine personal care iii. throughout the day as needed iii. use moisturizer on unbroken skin iv. keep skin clean and dry v. where skin comes in contact with skin a) under pendulous breasts b) between scrotum and legs c) between abdominal folds v. clean and dry immediately after urinary or bowel incontinence a) replace soiled linen protectors and clothing with clean, dry linen and clothing b) assist resident to wipe well, drying perineum c) toilet q2hrs. to avoid incontinence d) keep linen clean, dry and free of wrinkles (if
OBJECTIVES	Describe actions the nurse aide can take to prevent pressure sores as evidenced by satisfactory participation in skills lab role-play and clinical practice.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	resident eats in bed remove any crumbs from linen) c. turn and reposition immobile residents at least q2h d. encourage mobile residents to change position frequently e. during transfer and repositioning resident i. avoid dragging resident across the linen by using draw sheet to turn and reposition resident ii. use mechanical lift to transfer from bed to stretcher iii. use transfer board to transfer bedridden resident from bed to stretcher iv. avoid bumping resident against side rails or wheelchair leg rests iv. avoid bumping devices to keep pressure off areas at risk i. foot boards ii. bed cradles iii. bed cradles iii. bed cradles iii. heel/elbow protectors iv. sheepskin pads to protect the back g. perform range of motion exercises on regular basis h. massage healthy skin to increase circulation (do not massage skin that is white, red, purplish) i. encourage healthy diet and adequate hydration
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	8. observations to report to the appropriate licensed nurse a. change in skin coloration over a bony prominence or in a skin fold (whitish, red, grey, purplish) b. dry, cracked, flaking skin, particularly on heels or elbows c. tom skin d. blisters, bruises, cuts e. resident itches or scratches skin frequently f. broken skin anywhere on the body, including between the toes g. any change in an existing pressure sore i. drainage ii. odor iii. peeling skin v. change in size of crater r. change in size of crater r. change in size of crater r. Back massage (back rub) l. relaxes tired, tense muscles 2. improves circulation 3. check nursing care plan for instructions on when to perform what you are going to do b. wash hands c. put on gloves if there is an area of broken skin d. provide for privacy e. adjust bed to waist-height and lock bed wheels f. lower side rail closest to you g. position resident on his side or back, if tolerated
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor as evidenced by participation in classroom discussion. Demonstrate how to perform a back massage as evidenced by satisfactory practice in skills lab and clinical.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	h. pour lotion on hands and rub hands together i. using full palm of your hand, start at base of spine and with firm, even stroke gently massage upward toward the shoulders j. at shoulders, circle hands outward and stroke along outside of back, down toward base of spine k. repeat circular motion for 3-5 minutes l. using circular motion, gently massage bony prominences m. if bony prominences are red, massage around them, not over them n. if there is extra lotion, remove it oredress and reposition resident p. raise side rail, if appropriate q. return bed to low position r. place call bell in easy reach of resident s. store lotion per facility policy and resident request t. wash hands u. report to appropriate licensed nurse any changes in resident or skin that you observed	IX. Transfer, Positioning and Turning A. Anatomy and physiology of musculoskeletal system 1. skeleton a. long bones (arms and legs) b. short bones (wrists and ankles) c. flat bones
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor.	Identify the structure and function of the skeletal system as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	i. thin and often curved 2. skull and ribs a. irregular bones i. oddly shaped ii. spine and face 3. joints (where 2 bones join together) 4. cartilage a. fibers that permit limited movement between bone acts as shock absorber between bones b. ligaments i. strong fibrous bands attaching one bone to another ii. stabilize joint 5. muscles a. skeletal muscles ii. attach to bones iii. allow for movement iii. resident controls these muscles b. smooth muscles ii. line walls of blood vessels, stomach, bladder and hollow organs iii. controlled involuntarily c. cardiac muscle ii. forms the heart ii. cause heart to contract and relax iii. controlled involuntarily d. purpose of muscles iii. cause heart to body to move, internally and externally 6. purpose of skeletal system a. support the body b. protect the body
OBJECTIVES	Identify the structure and function of the muscular system as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	B. Age-related changes to musculoskeletal system 1. bones lose calcium a. become weak b. break easily c. osteoporosis 2. muscles weaken a. lose tone b. cannot support the body or move bones 3. lose muscle mass a. causes weight loss b. slows body movements c. causes weight loss a. decreases range of motion b. slows body movements 5. lose height a. space between vertebrae decreases C. Common disorders of musculoskeletal system 1. Osteoporosis a. bones break easily due to loss of bone tissue b. caused by i. lack of calcium in diet ii. loss of estrogen iii. reduced mobility c. bones most commonly affected i. vertebrae iii. pelvic bones d. signs and symptoms iii. loss of height iiii. stooped posture e. treatment i. medication i. medication
OBJECTIVES	Describe age-related changes seen in the musculoskeletal system as evidenced by participating in classroom discussion. Discuss common disorders of the musculoskeletal system, including their signs and symptoms and guidelines for the nurse aide, as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom,	skills lab, clinical)	
STUDENT		
TEACHING		
CONTENT OUTLINE	ii. exercise f. considerations for the nurse aide providing care i. allow time for resident to move ii. turn and reposition very carefully iii. follow special dietary orders iv. encourage and assist with mobility v. report to appropriate licensed nurse any changes in resident's ability to be active or to move 2. Arthritis a. painful inflammation of joints i. stiff, swollen joints ii. decreases mobility of joints ii. osteoarthritis a) DJD – degenerative joint disease b) cartilage between joints decreases c) causes pain when bones rub together iii. rheumatoid i. considered an auto-immune disease iii. causes deformity which can be disabling c. signs and symptoms i. swollen and stiff joints ii. joints deformed d. treatment	1. rest
OBJECTIVES		

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	ii. range of motion exercises iii. anti-inflammatory medications iv. weight loss v. heat vi. total joint replacement surgery e. considerations for the nurse aide providing care i. encourage activity per nursing care plan ii. range of motion exercises as ordered iiii. assist with ADLs iv. encourage use of assistive devices to promote resident independence f. report the following to the appropriate licensed nurse i. unusual stiffness of joints iii. swelling of joints iii. swelling of joints iii. swelling of joints iv. decreased ability to perform range of motion exercises v. decreased ability of resident to perform daily activities D. Complications of immobility 1. physical discomfort 2. pressure sores 3. contractures 4. bones become brittle due to loss of calcium 5. pneumonia 6. blood clots, especially in the legs
OBJECTIVES	Identify complications of immobility as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	E. Proper body alignment 1. positioned so spine is straight and not twisted 2. promotes comfort and good health 3. supine a. flat on back b. support head and shoulders with a pillow c. support arms and hands with pillow or rolled washcloth d. place pillow under calves so heels are elevated off bed to prevent pressure sores e. use footboard to keep ankles flexed to promote anatomical position of feet and ankles a lying on side a. lying on side b. pillow to support the head and neck c. pillow to the back to maintain side-lying position d. flex top knee and place pillow under the knee and lower leg for support e. pillow under bottom foot to keep toes from touch the bed 5. prone a. lying on the abdomen b. many residents do not like this position c. head turned to the side and placed on small pillow d. placed on small pillow d. place pillow under abdomen to allow chest to expand during inhalation
OBJECTIVES	Demonstrate the various positions for the resident in bed as evidenced by satisfactory practice in skills lab.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	e. do not leave resident prone for a long period of time 6. Fowler's a. resident on back with head of bed (HOB) elevated 45 - 60° b. semi-Fowler's - HOB elevated 30 - 45° c. high Fowler's - HOB elevated 60 - 90° d. raise knee gatch or place pillow under knees to help prevent resident from sliding down the mattress 7. Sims' a. extreme side-lying position, almost prone b. head turned to side and supported with pillow c. lower arm positioned behind the back d. upper knee is flexed and supported with pillow e. pillow under each foot to prevent toes from touching bed 8. Trendelenburg a. head is lower than the rest of the brain if resident is in shock b. used to increase blood flow to the brain if resident is in shock 7. reverse Trendelenburg a. mattress placed at an angle with the head higher than the foot of the mattress b. used for residents b. used for residents c. do need for residents b. used for residents
OBJECTIVES	

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	10. logrolling a. turning resident onto side while keeping spine straight b. use a draw sheet and a helper l. raising resident's head and shoulders a. use good body mechanics b. raise bed to waist-height and lower side rail c. place closest hand and arm under resident's closest shoulder d. place other hand and arm under resident's closest shoulder c. gently raise head and shoulders on the count of three f. re-fluff, turn, and replace pillow g. make resident comfortable, provide with call bell h. lower bed and replace side rail, as appropriate licensed nurse i. document procedure and report any resident changes to appropriate licensed nurse 2. assisting resident to move up in bed a. practice good body mechanics b. raise bed to waist-height and lower side rail and head of bed c. place 1 arm under resident's shoulders d. place other arm under resident's knees and turn your feet toward the HOB e. have resident bend knees
OBJECTIVES	Demonstrate how to raise a resident's head and shoulders as evidenced by satisfactory practice in skills lab and clinical. Demonstrate how to move a resident up in bed as evidenced by satisfactory practice in skills lab and clinical.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	on count of 3, have with feet while you in bed make resident commake resident commany resident change appropriate license sisting resident to a with a draw shee practice good bod raise bed to waist lower side rail an have one nurse ais side of bed turned toward HOB with 1 hand at the 1 hand at the hips sheet toward resignasp roll of draw palms up	f. on count of 3 both nurse aides lift the draw sheet and resident toward the HOB g. unroll draw sheet and tuck edges under mattress h. make resident comfortable, raise HOB, return bed to low position i. place call bell in resident's reach j. wash hands k. document procedure and report any resident changes to appropriate licensed nurse
OBJECTIVES	Demonstrate how to move a resident up in bed using a draw sheet as evidenced by satisfactory practice in skills lab and clinical.	Accurately document moving resident up in bed on facility ADL form as evidenced by Satisfactory rating on Skills Record. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	4. position resident on side a. follow the procedure for "Position Resident on Side" in the most current edition of Virginia Nurse Aide Candidate Handbook b. document procedure on Activities of Daily Living form, per facility policy c. report any observations of changes in resident's condition or behavior to appropriate licensed nurse licensed nurse licensed nurse G. Transferring Resident 1. assisting resident to move from one location to another 2. weight-bearing a. resident's ability to stand on one or both legs 3. gait belt or transfer belt a. device nurse aide uses to assist unsteady or weak resident to transfer resident from bed to wheelchair using transfer belt a. follow the procedure for "Transfer Resident from Bed to wheelchair using Transfer Belt" in the most current edition of Virginia Nurse Aide Candidate Handbook b. document procedure on Activities of Daily Living form, per facility policy
OBJECTIVES	Demonstrate how to position resident on side as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical. Accurately document positioning resident on side on facility ADL form as evidenced by Satisfactory rating on Skills Record. Demonstrate how to transfer resident from bed to wheelchair using a transfer belt as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. report any observations of changes in resident's condition or behavior to appropriate licensed nurses 5. mechanical lifts a. equipment used to lift and move residents b. Fair Labor Standards Act, Hazardous Occupation Order Number 7 i. prohibits minors under 18 from operating or assisting in the operation of most powerdriven hoists, including those designed to lift and move patients c. should only be used by nurse aides 18 years of age and older d. nurse aide should receive training to use the specific lift in the facility e. at least 2 nurse aides should be present when a mechanical lift is used to move a resident f. practice good body mechanics g. raise bed to waist-height and lower side rail and head of bed h. position wheelchair next to bed with footrests removed and wheels locked i. lower side rail on side nearest nurse aide j. assist resident to turn on side and place lift pad under resident k. assist resident to turn to opposite side and position lift pad under resident resident vithout wrinkles
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor. Demonstrate how to transfer resident from bed to wheelchair using a mechanical lift as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
. CONTENT OUTLINE	I. roll mechanical lift to bedside with base at its widest point, the wheels locked and the overhead bar directly over the resident and with resident on his back attach the straps to each side of the lift pad and the overhead bar. In. fold resident arms over chest to protect arms and elbows O. raise resident about 2 inches off bed P. with assistance of 2 nd nurse aide, guide resident to the wheelchair q. slowly lower resident into chair, taking care with arms and legs and making sure the resident's hips are against the back of the wheelchair r. replace footrests and support resident's feet on wheelchair footrests s. remove straps from overhead bar and lift pad t. make sure resident is comfortable and is wearing nonskid footwear u. cover resident's lap and legs with blanket or robe v. place call bell in resident's reach w. wash hands x. document procedure and report any resident changes to appropriate licensed nurse
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor.

INSTRUCTION ON TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	•
CONTENT OUTLINE	H. Ambulating a resident 1. walking a resident 2. assistive devices a. transfer or gait belt b. walker c. can d. crutches 3. report to the appropriate licensed nurse a. complaints of dizziness b. shortness of breath c. chest pain d. rapid heart beat e. sudden complaints of head pain f. unusual pain on weight bearing g. changes in resident's strength or ability to walk h. change in resident attitude toward walking i. assistive equipment that is broken or not working correctly 4. assist resident to ambulate Using transfer belt a. follow the procedure for "Assists to Ambulate Using Transfer Belt" in the most current edition of Virginia Nurse Activities of Daily Living form, per facility policy c. report any observations of changes in resident's condition or behavior to appropriate licensed nurse
OBJECTIVES	Demonstrate how to ambulate resident using transfer/gait belt as evidenced by Satisfactory rating on Skills Record for skills lab and for clinical. Identify complaints and concerns the nurse aide should report to the appropriate supervisor related to ambulation as evidenced by participation in skills lab role play. Accurately document ambulating resident on facility ADL form as evidenced by Satisfactory rating on Skills Record. Discuss the importance of reporting abnormal observations or changes to the appropriate supervisor as evidenced by participation in classroom discussion.

UNIT IX - INDIVIDUAL CLIENT'S NEEDS, INCLUDING MENTAL HEALTH AND SOCIAL SERVICE NEEDS (18VAC90-26-40.A.4.a,c,d,e,f,g)

INSTRUCTION TIME (classroom,																											
STUDENT																											
TEACHING TOOLS/RESOURCES																											
CONTENT OUTLINE	Basic Psychosocial Needs A. Physical needs food and water	2. protection	3. activity 4. rest and sleep	5. safety	6. comfort B. Psvchosocial needs		 a. love and affection 	 b. supportive environment 	c. acceptance by others	d. independence	e. social interaction	f. security	g. success and self-esteem	h. spiritual expression	i. sexual expression	 C. Problems meeting these needs 	 physical loss of body functions 	and/or body parts	2. social losses	a. spouse	b. relatives	c. friends	3. economic losses	a. retirement	b. health costs	4. loss of personal control over	decision-making
OBJECTIVES	Identify basic physical needs of the client/resident as evidenced by	participation in classroom	discussion.		Identify basic psychosocial	needs of the client/resident	as evidenced by	participation in classroom	discussion.																		

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	a. loss of driver's license b. loss of personal dwelling when moving to a long-term care facility D. Guidelines for the nurse aide to assist client/resident in meeting psychosocial needs 1. demonstrate caring, personal feeling for each client/resident 2. communicate a caring, personal feeling for each client/resident independence and personal control as much as possible a. allow to follow habits and make personal choices b. adjust client/resident care to personal choices c. encourage use of personal belongings d. encourage self-care as appropriate e. encourage self-care as appropriate f. provide personal time for sexual expression 4. provide client/resident with explanations when providing care a. promote right to refuse care E. Common reactions when client/resident is unable to meet psychosocial needs 1. anxiety 2. depression 3. anger or aggression 3. anger or aggression 3. anger or aggression 3. anger or aggression 3. anger
OBJECTIVES	Demonstrate guidelines for the nurse aide to assist the client/resident to meet his psychosocial needs as evidenced by Satisfactory rating on Skills Checklist in skills lab and in clinical.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	11. Mental health A. Client/resident is able to make adjustments to maintain state of emotional balance 1. stress a. anxiety, burden, pressure, worry b. causes i. loss of independence ii. loss of significant other/s iii. loss of significant other/s iii. loss of significant other/s iii. loss of body part/function v. many other causes 2. defense mechanisms a. compensation i. substituting for the loss b. conversion i. may have physical symptoms that cannot be explained medically ii. may use physical problem to avoid participating in an activity iii. "changes" the real reason into something else c. denial i. refuses to believe d. displacement i. shifting an emotion from one person to another less threatening person e. projection i. blaming someone else for own actions or feelings f. rationalization i. creating acceptable reasons for in creating acceptable reasons for
OBJECTIVES	Identify defense mechanisms as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)					
STUDENT EVALUATION					
TEACHING TOOLS/RESOURCES					
CONTENT OUTLINE	behavior or action g. regression i. demonstrate behaviors from an earlier time in life h. repression i. refusing to remember frightening or unpleasant memory	III. Mental Illness A. Anxiety 1. feeling of uneasiness, dread, worry can be helpful response unless it persists and effects ability to cope with everyday life signs and symptoms a. rapid pulse	c. sweating d. nausea e. difficulty sleeping f. loss of appetite g. restless h. irritable B. Obsessive-Compulsive Disorder		b. hand-washing frequently c. repeatedly checking door to make certain it is locked, for example 3. prohibiting the ritual increases the level of anxiety
OBJECTIVES		Describe the signs and symptoms of anxiety as evidenced by participating in classroom discussion.	Identify the hebaviors	associated with obsessive-compulsive disorder as evidenced by participating in classroom discussion.	

EVALUATION TIME (classroom, skills lab. clinical)			
STU			
TEACHING TOOLS/RESOURCES			
CONTENT OUTLINE		g. frequent physical complaints h. feelings of worthlessness i. feelings of hopelessness E. Bipolar Disorder 1. severe mood swings a. manic phase i. everything is wonderful ii. hyperactive b. depression phase i. excessive sadness ii. not enough energy to participate in ADLs 2. caused by chemical imbalance in	brain F. Schizophrenia 1. loss of contact with reality 2. signs and symptoms a. delusions
OBJECTIVES	Identify the signs and symptoms of depression as evidenced by participating in classroom discussion.	Describe the behavior associated with bipolar disorder as evidenced by participating in classroom discussion.	Describe the signs and symptoms associated with schizophrenia as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	i. false ideas of who or what is around client/resident ii. delusions of grandeur iii. delusions of persecution iv. paranoia b. hallucinations i. false sensations that are real to client/resident ii. hearing voices iii. seeing things that are not really there iv. may involve any of the 5 senses c. disorganized speech i. flight of ideas d. catatonic behavior - may stop in mid-sentence and stare	IV. Guidelines to Modify the Nurse Aide's Behavior in Response to the Behavior of Clients/Residents A. Know the client/resident 1. greet client/resident when entering the room 2. encourage self-care as appropriate 3. encourage independence with ADLs and activities 4. allow client/resident to make choices 5. offer to come back at a later time 6. remember the aide is not the cause of the client's/resident's behavior 7. do not take client's/resident's actions and behavior personally 8. stop when client/resident resists what you are doing
OBJECTIVES		Demonstrate ways the nurse aide can modify his behavior in response to the behavior of the client/resident as evidenced by satisfactory participation in skills lab and classroom role-play.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	B. Be aware of your actions 1. monitor your body language 2. stay calm 3. do not yell at or argue with client/resident 4. use silence appropriately 5. treat client/resident like an adult, not a child 6. use appropriate eye contact 7. be respectful of resident 8. provide privacy, if appropriate for resident 9. review reality with resident 10. answer questions about time, place, people honestly C. Report unusual behavior to appropriate licensed nurse 1. change in ability to perform ADLs 2. change in mood 3. behavior that is extreme, dangerous or frightening to other clients/residents 6. clients/residents 7. any activity that causes a change in client's/resident's behavior 7. any activity that causes a change in client's/resident's behavior
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	A. Principles of behavior management 1. ABCs a. antecedent – what precedes the behavior b. behavior – an action, activity, or process which can be observed and measured c. consequence – how people in the environment react to the behavior d. to change the behavior, change either the antecedent or the consequence c. speak with the 3 s's a. slowly b. softly c. simply – avoid medical terminology 3. cueing – graduated guidance a. provide guidance to perform a skill and then gradually let client/resident perform task on his own 4. mirroring – modeling a. have client/resident mirror or copy what you are doing 5. directing a. instructing the client/resident to do a specific behavior 6. redirecting a. change client/resident focus from one behavior to another more appropriate behavior 7. schedule care when client/resident is least agitated
OBJECTIVES	Demonstrate principles of behavior management by reinforcing appropriate behavior to be reduced or eliminated as evidenced by satisfactory participation in classroom and skills lab role-play.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	B. Reward steps that lead to final desired behavior iplan what behavior is to be addressed 2. behavior is broken down into small steps 3. each step completed is rewarded C. Three (3) types of rewards a. food 2. social rewards a. smile b. words of praise 3. physical rewards a. touch b. would normally occur in the environment c. pat on the arm 4. rewards must be given in a way that would normally occur in the environment 5. rewards should suit the preferences of the client/resident receiving the reward D. Strategies to reinforce appropriate behavior 1. remain client's/resident's routine 3. maintain client's/resident's toileting schedule 4. encourage independence 5. provide privacy 6. encourage socialization 7. respond positively to appropriate behavior
OBJECTIVES	Demonstrate strategies to reinforce appropriate behavior as evidenced by satisfactory participation in class and skills lab role-play.

INSTRUCTION TIME (classroom, skills lab, clinical)			
STUDENT			
TEACHING TOOLS/RESOURCES			
CONTENT OUTLINE	E. Strategies to reduce client's/resident's inappropriate behavior 1. ignore behavior if it is safe to do so 2. remove behavior triggers 3. focus on the familiar 4. avoid caffeine 5. allow to pace in a safe place 6. do not argue with client/resident 7. try distraction – redirect behavior 8. do not take behavior personally 9. continue to reinforce appropriate behavior	VI. Supporting Age-appropriate Behavior A. Age-appropriate strategies 1. participate in planning own care 2. encourage to make independent choices 3. maintain privacy 4. maintain confidentiality 5. encourage client/resident to have own possessions 6. encourage participation in social activities 7. encourage participation in	8. respect client's/resident's decisions and choices B. Guidelines for nurse aide to reinforce client/resident dignity 1. address resident in a dignified manner 2. take time to listen to what client/resident has to say 3. converse with client/resident as with an adult
OBJECTIVES	Demonstrate strategies to reduce inappropriate behavior as evidenced by satisfactory participation in class and skills lab roleplay.	Identify age-appropriate strategies to reinforce client/resident dignity as evidenced by participating in classroom discussion.	Identify guidelines for nurse aide to reinforce client/resident dignity as evidenced by satisfactory role-play in class and skills lab.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	4. do not ignore or humor client/resident 5. respect client's/resident's privacy 6. explain what you are going to do 7. treat client/resident as you would want to be treated 8. encourage client/resident to make choices 9. client/resident has right to refuse treatment, medications, activities treatment, medications, activities responding Appropriately to Client's/Resident's Behavior 1. common causes a. pain b. lack of sleep c. fear d. medication side effects e. too hot or too cold f. hunger g. unable to communicate h. forgetting i. infection and/or illness j. being approached by unknown residents and/or staff 2. warning signs preceding aggressive behavior a. fear b. restlessness c. pacing d. clenching fists e. clenching jaw f. yelling g. trying to leave facility h. throwing things
OBJECTIVES	Identify warning signs that frequently precede aggressive behavior as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	3. strategies to respond to aggressive behavior a. stay calm b. avoid touching client/resident c. try to identify the trigger for the behavior d. take threats seriously e. get help f. do not argue with client/resident g. protect yourself and others from harm h. report observations to appropriate licensed nurse a. disease b. fear c. pain d grief e. loneliness f. loss of independence g. changes in daily routine 2. warning signs preceding angry behavior a. yelling b. throwing things c. threatening d. sarcasm e. pacing f. narrowed eyes g. clenched, raised fists h. withdrawal i. silent, sulking 3. strategies to respond to angry behavior a. be pleasant and supportive b. try to find cause of anger
OBJECTIVES	Demonstrate strategies to respond to aggressive behavior as evidenced by participating in classroom discussion. Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion. Identify warning signs that frequently precede angry behavior as evidenced by participating in classroom discussion. Demonstrate strategies to respond to angry behavior as evidenced by as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. listen to client/resident d. observe body language e. think before speaking f. do not argue with client/resident g. speak in a normal tone of voice h. treat client/resident with respect i. respond promptly to requests j. report behavior to licensed nurse stategies if anger escalates a. stay a safe distance away from client/resident b. provide for safety of other client/residents c. leave client/resident alone if it is safe to do so d. summon help C. Combative behavior 1. common causes a. disease affecting the brain b. escalating anger or frustration c. medication side effects 2. combative behavior a. hitting b. shoving c. kicking d. throwing things e. insulting others 3. strategies to respond to combative behavior a. immediately call for help b. keep yourself and others at a safe distance from the client/resident c. stay calm d. be reassuring, speak calmly e. try to find the trigger for the behavior f. do not respond to insults
OBJECTIVES	Identify signs of combative behavior as evidenced by participating in classroom discussion. Demonstrate strategies to respond to combative behavior as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	g. do not hit back h. follow the direction of the licensed nurse i. when behavior is under control sit with client/resident to provide comfort, if instructed by licensed nurse j. report behavior to licensed nurse licensed nurse a. cursing b. name calling c. yelling d. sexually suggestive language a. remain calm b. do not take the language a. remain calm b. do not take the language personally c. do not argue with the client/resident d. politely tell client/resident that language is inappropriate e. do not respond emotionally to the language f. if appropriate, permit client/resident to have private time g. tell client/resident to licensed nurse time g. tell client/resident to licensed nurse E. Confused/disoriented behavior l. inability to think clearly a. disoriented to time, place and/or person b. unable to focus on a task
OBJECTIVES	Demonstrate strategies to respond to inappropriate language as evidenced by satisfactory participation in role-play in class and in skills lab.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. temporary or permanent 2. common causes a. low blood sugar b. stroke c. head trauma/injury d. dehydration e. nutritional problems f. fever g. sudden drop in body temperature h. lack of oxygen i. medication side effects j. infection k. illness l. loss of sleep m. seizure n. constipation o. difficulty hearing 3. strategies to respond to confusion/disorientation a. do not leave client/resident alone b. stay calm c. provide quiet environment c. speak slowly, softly, simply d. introduce yourself every time you encounter client/resident to complete tasks i. repeat directions as needed g. break ADL tasks into simple steps h. do not rush client/resident to complete tasks ii. keep client's/resident's routine j. observe client's/resident's body language as well as listen to what client/resident is saying k. tell client/resident is saying k. tell client/resident when you are leaving room
OBJECTIVES	Identify common causes of confusion and/or disorientation as evidenced by participating in classroom discussion. Demonstrate strategies to respond to confused and/or disoriented behavior as evidenced by satisfactory participation in role-play in class and in skills lab.

INSTRUCTION THME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	l. encourage use of glasses and hearing aides choices n. encourage independence as appropriate e. o. report observations to the appropriate licensed nurse s. sexual advances or comments b. inappropriate touching of staff c. inappropriate touching of staff c. inappropriate touching of staff c. inappropriate touching of themselves d. removing clothing in public e. masturbation in public e. masturbation in public e. common causes a. illness b. dementia c. confusion d. medication side effects 3. strategies to respond to inappropriate sexual behavior a. do not over-react b. be matter-of-fact c. distract the client/resident wants to talk, listen f. client/resident has right to express sexuality, provide privacy g. report inappropriate behavior to licensed nurse
OBJECTIVES	Demonstrate strategies to respond to inappropriate sexual behavior as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	Emotional Support A. Role of family/concerned others on the health care team 1. provide love, support, self-esteem for client/resident 2. lessen loneliness of client/resident 3. participate in care planning, if desired by client/resident 4. participate in care decisions on behalf of client/resident 5. provide vital information to assist staff in planning appropriate behavior management plan as needed B. Strategies to meet emotional needs of client/resident and family/concerned others 1. be kind and respectful 2. ask appropriate questions 3. answer questions from client/resident and family/concerned others and appropriately 4. listen 5. provide competent care to gain confidence of family/concerned others and client/resident 6. create permanent assignments so client/resident and family/concerned others can develop relationship with caregiver 7. allow client/resident to contact family/concerned others as desired
OBJECTIVES	Identify the role of family/concerned others as a source of emotional support for the client/resident as evidenced by participating in classroom discussion. Demonstrate strategies to meet the emotional needs of the client/resident and the family/concerned others as evidenced by satisfactory participation in classroom discussion and role-play in class and skills lab.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	C. Strategies to encourage family/concerned others to provide emotional support to client/resident 1. invite family to care conferences as appropriate 2. send newsletters informing of upcoming events and special occasions 3. make space for family/concerned others to celebrate private events (birthday, anniversary, etc.) 4. be friendly and respectful to visiting family/concerned others 5. keep facility welcoming, clean and odor-free	Aged and Disabled A. Clinical care for the aged 1. respect client/resident rights at all times 2. provide for privacy 3. maintain confidentiality 4. know each client/resident as an individual 5. provide care within the nurse aide scope of practice, as assigned 6. promote client/resident independence 7. keep client/resident free from pain and discomfort 8. follow nursing care plan 9. observe and report physical and/or behavioral changes to appropriate licensed nurse
OBJECTIVES	Demonstrate strategies to encourage family/concerned others to provide emotional support to the client/resident as evidenced by participating in classroom discussion.	Demonstrate appropriate clinical care of the aged as evidenced by satisfactory ratings in the skills lab and in the clinical setting.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	B. Developmental disabilities 1. definition a. present from birth b. restricts physical and/or mental ability c. client/resident has difficulty with language, mobility and/or learning 2. examples a. cerebral palsy – caused by oxygen deficit at birth b. autism c. mental retardation 3. functions limited by developmental disabilities a. affect b. self-care c. learning d. mobility e. self-direction f. expressing language g. expressing understanding C. Physical disabilities 1. examples a. visual impairment b. hearing impairment c. amputec d. cerebral vascular accident (CVA/stroke) 2. functions limited by physical disability a. depends on part of the body affected
OBJECTIVES	Describe the effects developmental disabilities may have on the client/resident as evidenced by participating in classroom discussion. Identify various physical disabilities the nurse aide may find in a long-term care facility as evidenced by participating in classroom discussion.

D. Guidelines for clinical care for the disabled as evidenced by clinical care of the lisabled as evidenced by behavior satisfactory ratings in the skills lab and discomfort to maintain privacy so the presonal choices so the personal choices so the personal choices so that you have said said so the process what you have said so the process what	TOOLS/RESOURCES EVALUATION	TIME (classroom, skills lab, clinical)

CONTENT OUTLINE	iv. change in level of consciousness v. signs of depression 5. head and spinal cord injuries a. causes i. concussion – banging injury to the brain ii. accidents b. sign and symptoms i. headache iii. unequal pupils iiii. drowsy iv. seizure v. change in level of consciousness c. guidelines for care of the client/resident with a head or spinal cord injury i. turn, reposition and give skin care q2h to maintain skin and prevent pressure sores and contractures iii. perform range of motion exercises on a regular basis iii. encourage hydration v. provide assistive devices as necessary to promote independence and self-esteem vi. follow bowel and bladder schedule vii. encourage client/resident to socialize and participate in activities to prevent depression
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab, clinical)			
STUDENT EVALUATION			
TEACHING TOOLS/RESOURCES			
CONTENT OUTLINE	d. report to the appropriate licensed nurse the following i. skin that looks as though a pressure sore is forming ii. joints that do not move as easily as they did iii. complaints of burning on urination, frequency of urination, urine that is concentrated or foul smelling iv. change in level of consciousness v. signs of depression		2. effects of aging on the eye a. decreased number of receptors in the retina b. lens becomes cloudy and opaque c. lens becomes less flexible, unable to properly focus the light on the retina
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse.	Explain the anatomy and physiology of the eye as evidenced by being able to correctly identify each component part and its function.	Describe age-related changes seen in the eye as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	d. decrease in tear production 3. common disorders of the eye a. conjunctivitis (pink eye) i. infection and inflammation of the eyelid ii. signs and symptoms a) eye is red, itchy b) eye tears a lot c) white or yellow discharge from the eye iii. guidelines for caring for the client/resident with pink eye a) wash hands before and after caring for the client/resident to aveid touching or rubbing his eyes and to use a tissue if he must iv. report the following to the appropriate licensed nurse a) discharge from eyes b) complaint of burning or itching in the eyes b) cataracts i. lens becomes cloudy preventing light from entering into the eye and decreasing vision ii. treated by surgery to remove the lens and replace it with an artificial lens iii. guidelines for caring for the client/resident with a cataract
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	a) provide extra light in room or when performing tasks such as reading b) do not sit facing a bright window, turn and sit with back toward window c) encourage independence d) assist with ADLs as appropriate c. glaucoma i. increased pressure inside the eye a) can lead to blindness if not treated ii. signs and symptoms a) decreased vision b) nausea/vomiting c) seeing "halo" around lights d) blurred vision b) nausea/vomiting c) seeing "halo" around lights d) blurred vision b. nesident can only see the periphery of the field of sight are destroyed a) resident can only see the periphery of the field of sight client/resident with vision impairment a. encourage use of their glasses b. check glasses daily to assure they are clean i. wash glasses with warm water and dry with a paper towel c. knock before entering client's/resident's room
OBJECTIVES	Demonstrate an understanding of the visually impaired client/resident as evidenced by satisfactory role-play in the skills lab and satisfactory performance in the clinical setting.

INSTRUCTION TIME (classroom,		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	d. identify yourself whenever enter client's/resident's room e. announce to client/resident when you are leaving client's/resident's room f. leave furniture where client/resident knows where it is use numbers of a clock to tell client/resident where an item or food is located on the plate h. when assisting client/resident to ambulate, walk slightly ahead of client/resident and allow client/resident to hold your arm or elbow i. report to appropriate licensed nurse glasses that need to be repaired	E. The ear 1. anatomy and physiology of the ear a. outer ear i. tympanic membrane – ear drum ii. cerumen – ear wax b. middle ear i. equalizes air pressure iii. 3 small bones – malleus, incus and stapes c. inner ear i. cochlea – contains receptors for hearing iii. vestibule iiii. semicircular canals – help keep our balance 2. function of the ear a. hearing b. balance
OBJECTIVES	Respond appropriately to the behavior of the visually impaired client/resident as evidenced by satisfactory role-play in skills lab and satisfactory performance in the clinical setting.	Explain the anatomy and physiology of the ear as evidenced by being able to correctly identify each component part and its function.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	a. tympanic membrane becomes stiff b. 3 small bones don't vibrate as easily c. sensory receptors in cochlea decrease d. decreased hearing 4. common disorders of the ear a. otitis media i. infection of the middle ear ii. signs and symptoms a) ear pain b) fever c) discharge from the ear d) difficulty hearing iii. report to appropriate licensed nurse the following a) discharge from the ear b) complaints of ear pain c) complaints of ear pain c) complaints of ear pain d) fever b. Meniere's Disease i. disease of the inner ear ii. signs and symptoms a) dizzy b) tinnitus – ringing in the ears c) temporary hearing loss d) nausea/vomiting iii. guidelines for care of client/resident with Meniere's Disease a) lie down b) keep eyes from moving c) allow resident ample time
OBJECTIVES	Describe age-related changes seen in the ear as evidenced by accurately participating in classroom discussion. Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. deafness i. conductive hearing loss – sound waves prevented from reaching receptors in cochlea ii. sensorineural hearing loss – receptors unable to transmit nerve impulses or to receive stimuli 5. hearing aids a. battery operated device to amplify sound b. very expensive, handle with care c. guidelines for caring for hearing aids i. treat with care iii. turn off when not in use iii. store in labeled container in a cool, dry place iv. check batteries frequently to ensure they are in working order v. do not get batteries wet vi. remove hearing aid before batting, showering or shampooing hair vii. report to licensed nurse dead batteries, hearing aid that need repair 6. guidelines for caring for the client/resident with hearing impairment a. reduce or eliminate background noise b. encourage client/resident to wear hearing aid and verify that hearing aid is turned on
OBJECTIVES	Demonstrate an understanding of the hearing impaired client/resident as evidenced by satisfactory role-play in the skills lab and satisfactory performance in the clinical setting. Respond appropriately to the behavior of the hearing impaired resident as evidenced by satisfactory role-play in skills lab and satisfactory performance in the clinical setting.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT EVALUATION		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	c. check that batteries for hearing aid are functional d. face client/resident when speaking e. use note pad to write important directions f. consider learning sign language f. consider learning sign language f. consider learning sign language l. inability to think, to remember or to reason c. dementia delirium temporary confusion b. depression c. dementia dementia in long-term care a. brain atrophies, nerve fibers become tangled and covered with a sticky protein b. progressive c. not reversible d. there is no cure e. many causes i. brain injury ii. AIDS iii. prolonged substance abuse iii. prolonged substance abuse	v. Parkinson's Disease vi. Alzheimer's Disease (AD) 4. types of dementia a. over 100 different types b. vascular dementia – may occur after a stroke due to interruption of blood supply i. symptoms of impaired judgment and problems
OBJECTIVES	Define the terms used with cognitive impairment as evidenced by participation in classroom discussion.	Define the various types of dementia as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. dementia with Lewy bodies – less common i. symptoms of memory loss, thinking problems, visual hallucinations, muscle rigidity d. Alzheimer's Disease - most common type common type s. stage 1- early/mild i. short-term memory loss ii. disorientated to time iii. loses interest in work and hobbies iv. unable to concentrate v. decreased attention span vi. mood swings vii. rude behavior viii. tends to blame others ix. poor judgment x. poor personal hygiene and safety awareness b. stage 2 - middle/moderate i. increased disorientation ii. increased memory loss - may forget family and friends iii. slurred speech iv. difficulty finding the right words v. difficulty finding the right words v. do math vii. unable to perform own ADLs without assistance viii. unable to recognize common
OBJECTIVES	Discuss the three stages of Alzheimer's Disease as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT THE EVALUATION THE EVALUATIO	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	items like a comb or eating utensils ix. becomes incontinent x. restless, wanders, paces, sundown syndrome xi. difficulty sleeping xii. poor impulse control—inappropriate language, sexually aggressive xiii. hallucinations (experiences sensations that are not real) and/or delusions (false ideas about who one is or what is going on around them) c. stage 3 – late/severe i. total disorientation to time, place and person ii. total dependence on others for care iii. completely incontinent iv. verbally unresponsive v. confined to bed, unable to walk vi. unable to recognize family or self vii. seizures ix. death cating viii. seizures ix. coma x. death causes i. over-stimulating environment ii. feeling scared or lost iii. looking for someone or something
OBJECTIVES	Demonstrate an understanding of the behavior of the cognitively impaired client/resident as evidenced by satisfactory role-play in the skills lab and satisfactory performance in the clinical setting.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	v. hunger v. hunger v. hunger v. forgetting how or where to sit b. appropriate responses to wandering or pacing i. provide safe place for wandering/pacing ii. maintain toileting schedule iii. offer snacks iii. offer snacks v. redirect to other activities v. redirect to other exercise vi. for nighttime wandering, minimize daytime napping vii. provide reassurance 2. agitation a. causes i. frustration ii. insecurity iii. new people or new places iv. changes in routine v. over-stimulating environment b. appropriate responses to agitation ii. keep calm iii. speak slowly and simply iv. reduce noise and stimulation iii. speak slowly and simply iv. reduce noise and stimulation iii. speak slowly and simply viv. reduce noise and delusions a. hallucinations – hearing/seeing things that are not there b. delusions – false ideas about who one is or what is going on around one
OBJECTIVES	Respond appropriately to the cognitively impaired client/resident as evidenced by satisfactory role-play in skills lab and satisfactory performance in the clinical setting.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. appropriate responses to hallucinations/delusions i. if they are harmless, ignore them ii. do not argue because they are real to the client/resident to other activities iii. redirect client/resident to other activities iiv. report violent behavior to appropriate nurse, such as hitting, attacking, threatening to self and/or others a) causes 1) frustration 2) over-stimulation 3) change in routine b) appropriate responses to violent behavior 1) notify licensed nurse immediately 2) decrease environmental stimulation 3) step out of reach and remain calm 4) protect yourself and others 5) never hit back 6) speak slowly and simply 4. catastrophic reactions a. unreasonable, exaggerated reaction i. may be inappropriate language b. causes i. fatigue ii. change of routine
OBJECTIVES	Demonstrate appropriate responses to a client/resident experiencing hallucinations/delusions as evidenced by satisfactory role-play in the skills lab and satisfactory performance in the clinical setting. Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	iii. over-stimulation in environment iv. pain or discomfort v. hunger or need to toilet c. appropriate responses to catastrophic reactions i. remove triggers ii. use calming techniques iii. do not leave the client/resident alone iiv. block blows v. never hit back vi. stay out of reach vii. call for help ix. notify licensed nurse immediately viii. call for help ix. notify licensed nurse immediately 5. pillaging – taking items that belong to someone else b. rummaging – going through drawers, closets, personal items that belong to oneself or to others c. hoarding – collecting more items than one needs and never throwing anything away d. appropriate responses to pillaging, rummaging and/or hoarding i. do not judge clients/residents – these behaviors are out of their control ii. label all of client/resident belongings
OBJECTIVES	Demonstrate appropriate responses to a client/resident experiencing catastrophic reactions as evidenced by satisfactory role-play in the skills lab and satisfactory performance in the clinical setting. Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse. Define pillaging, rummaging, and hoarding as evidenced by minimum grade of 80% on unit test. Demonstrate appropriate responses to a client/ resident experiencing pillaging, rummaging as evidenced by satisfactory role-play in the skills lab and satisfactory performance in the clinical setting.

OBJECTIVES	CONTENT OUTLINE	TEACHING TOOLS/RESOURCES	STUDENT	INSTRUCTION TIME (classroom, skills lab, clinical)
Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse.	iii. check hiding places periodically iv. notify family so they are aware of behavior v. set aside special drawer for rummaging or hoarding vi. notify licensed nurse immediately 6. sundown syndrome a. client/resident becomes restless and agitated in late afternoon, evening or night b. causes i. hunger ii. fatigue iii. change in routine iv. new situation			
Demonstrate appropriate responses to a client/resident experiencing sundowning as evidenced by satisfactory role-play in the skills lab and satisfactory performance in the clinical setting.				
Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse.	activity ix. maintain daily exercise routine x. notify licensed nurse of behavior			

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	A. repeat words, phrases or questions over and over again b. may repeat same activity over and over again c. appropriate responses to perseveration i. remember that client/resident is unaware of behavior ii. respond each time to a question iii. remain calm iv. do not attempt to silence or stop client/resident to another activity v. redirect client/resident to another activity vi. notify licensed nurse of behavior a. cursing, yelling b. banging on furniture, slamming doors, etc. c. causes i. pain ii. constipation iii. frustration iii. frustration iii. speak slowly, simply, softly iii. try to determine cause of the behavior iii. speak slowly, simply, softly iii. try to determine cause of the behavior iv. report behavior
OBJECTIVES	Demonstrate appropriate responses to a client/resident experiencing perseveration as evidenced by satisfactory role-play in the skills lab and satisfactory performance in the clinical setting. Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion. Demonstrate appropriate responses to a client/resident experiencing inappropriate responses to a client/resident experiencing inappropriate social behavior as evidenced by satisfactory role-play in the skills lab and satisfactory performance in the clinical setting. Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	9. inappropriate sexual behavior a. removing clothing, inappropriate touching of self or others b. causes i. client/resident is hot ii. need to toilet iii. attempting to remove soiled clothing iv. pleasant sensation c. appropriate responses to inappropriate sexual behavior i. stay calm and professional ii. try to find reason for behavior iii. direct client/resident to private area iv. distract client/resident v. report behavior to licensed nurse	D. Strategies for communicating with the cognitively impaired client/resident 1. always introduce yourself to Client/resident 2. be careful with touching client/resident, as this may frighten or upset client/resident 3. maintain eye contact when speaking with client/resident 4. allow client/resident ample time to respond 5. speak slowly, simply, softly 6. reduce environmental noise 7. give directions one at a time, not a list of directions 8. repeat directions and answers as often as needed
OBJECTIVES	Demonstrate appropriate responses to a client/resident displaying inappropriate sexual behavior as evidenced by satisfactory role-play in the skills lab and satisfactory performance in the clinical setting. Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.	Demonstrate strategies for communicating with the cognitively impaired client/resident as evidenced satisfactory role-play in skills lab and satisfactory performance in the clinical setting.

a. schedule bathing when client/resident is least agitated b. adhere to the schedule c. gather all supplies before
there to the schedule

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	d. use sponge bath if client/resident becomes upset with tub bath or shower e. have bathroom warm and well-lit f. make sure water is warm g. provide for privacy and safety h. encourage independence by giving client/resident washcloth i. explain everything you are doing j. be calm and reassuring throughout procedure 2. grooming and dressing a. assist with grooming to maintain self-esteen and dignity b. use clothing that opens in the front, has elastic waistbands, Velcro instead of buttons c. choices may agitate client/resident; therefore, do not give client/resident; therefore, do not give client/resident; therefore, do not give client/resident; therefore ofthes; may be best to offer only one outfit to wear 3. toileting a. establish toileting schedule and adhere to if b. toilet q2h or more often if necessary c. toilet before meals and before bedtime d. place sign on bathroom door so client/resident will recognize it e. keep bathroom lit f. assist client/resident to clean self after toileting
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TOOLS/RESOURCES	
CONTENT OUTLINE	g. change client's/resident's clothing if they become soiled h. keep skin clean and dry i. document bowel movements j. reassure family and friends if they are upset by client's/resident's incontinence k. encourage fluid intake to avoid dehydration 4. eating a. establish a meal schedule and adhere to it mealtime with the use of assistive devices c. dining area should be well-lit, pleasant, with a minimum of background noise (turn off TV) d. seat client/resident with others to promote socialization e. food should look pleasant and appealing f. food and drink should not be too hot or too cold g. keep table setting simple i. no patterns on the tablecloth or plates ii. do not put unnecessary plates, glasses or silverware on the table h. finger foods are acceptable i. offer plenty of fluids j. give simple directions k. use cueing to give client/resident idea of how to feed self l. allow ample time for client/resident to feed self l. allow ample time for client/resident client/resident to feed self
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	m. give resident smaller meals at more frequent intervals if wandering interferes with meals n. report to appropriate licensed nurse i. choking or difficulty swallowing ii. changes in intake and/or output 5. general health issues a. assist to wash hands at frequent intervals b. be alert to risk for falls and reduce risks for client/resident c. be diligent with skin care d. observe for non-verbal cues regarding pain or discomfort and report to appropriate licensed nurse e. promote self-esteem by encouraging independence in activities where possible f. provide daily/weekly calendar g. encourage participation in activities and socialization h. reward behavior with smiles, hugs and praise 6. therapies used with cognitively impaired clients/residents a. reality orientation i. calendars iii. ciocks iii. signs iv. lists b. validation therapy i acknowledge client's/resident's reality
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion. Demonstrate methods to reduce the effects of cognitive impairment as evidenced by satisfactory role-play in skills lab and satisfactory performance in the clinical setting.

INSTRUCTION TIME (classroom, skille lab. clinical)		
STUDENT		
TOOLS/RESOURCES		
CONTENT OUTLINE	ii. do not argue iii. redirect activity to more appropriate behavior c. reminiscence therapy i. reminds resident of past experiences and people d. re-motivation therapy i. promote self-esteen, socialization ii. groups to focus on specific topic F. Care for the caregiver 1. do not take behavior personally 2. consider what client/resident is feeling 3. work with client/resident as they are today 4. work as a team making sure everyone follows the person- centered care plan 5. work with and support family members 6. take care of yourself	III. Diabetes Mellitus A. The endocrine system 1. regulates many body functions 2. made up of glands that secrete hormones directly into the bloodstream 3. glands a. pituitary gland - 7 hormones including growth-stimulating hormone b. thyroid -controls metabolism c. parathryoids regulates body's use of calcium
OBJECTIVES	Identify strategies the nurse aide can use to keep a positive, empathetic attitude when caring for clients/residents with cognitive impairment as evidenced by participation in classroom discussion.	Define the anatomy of the endocrine system as evidenced by minimum grade of 80% on unit test.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	d. thymus – regulates immune system e. adrenals – regulate BP and fight vs. flight f. pancras – produces insulin to regulate blood sugar g. ovaries – female sex hormones h. testes – male sex hormones endocrine system a. levels of hormones decrease i. menopause in women b. levels of hormones decrease e. body handles stress less efficiently 5. common disorders of the endocrine system a. diabetes mellitus b. hypothyroidism b. hypothyroidism a. the key that opens the door to allow glucose to enter the cell b. cells use glucose for energy/food c. without glucose, cells will die d. without insulin, glucose stays in the blood and cannot get into the cells 2. type 1 – insulin dependent diabetes mellitus (IDDM) a. pancreas produces little or no insulin b. must have outside source of insulin (injection) 3. type 2 – non-insulin dependent diabetes mellitus (NIDDM)
OBJECTIVES	Describe age-related changes seen in the endocrine system as evidenced by accurately participating in classroom discussion. Discuss common disorders of the endocrine system, including their signs and symptoms, as evidenced by participating in classroom discussion. Describe the difference between Type 1 and Type 2 diabetes mellitus as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	a. pancreas produces insulin but the body has become resistant to its own insulin b. may take oral hypoglycemic tablet c. may be treated with diet and exercise d. may require injection of insulin 4. signs and symptoms of DM a. increased thirst b. increased thirst b. increased hunger d. fatigue e. elevated blood sugar f. blurred vision g. slow-healing cuts or sores h. numbness/fingling in hands/feet i. increased number of infections 5. complications of DM a. hypoglycemia i. signs a) change in level of consciousness b) skin cool and clammy c) complaint of headache d) shaky e) nauseated ii. causes ii. causes a) skipped a meal b) too much exercise c) received too much insulin iii. notify licensed nurse immediately iv. if conscious, give orange juice or peanut butter crackers or follow facility policy
OBJECTIVES	Identify signs and symptoms of diabetes mellitus as evidenced by participating in classroom discussion. Discuss hypoglycemia, including the signs and symptoms and the care of the client/resident experiencing hypoglycemia evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	b. hyperglycemia i. signs a) skin warm and flushed b) breath has fruity smell c) blood sugar is elevated ii. causes a) over-eating b) not enough exercise c) did not receive enough insulin iii. notify licensed nurse immediately c. damage to blood vessels i. damage to blood vessels ii. damage to blood vessels in the retina leads to blindness iii. damage to blood vessels in the feet and legs leads to amputation d. damage to nerves i. numbness and tingling in hands and feet ii. loss of sensation in fingers and toes 6. guidelines for the care of the client/resident with DM a. maintain meal schedule b. encourage client/resident to follow diet and not eat concentrated sweets c. monitor blood sugar per facility policy d. inspect client's/resident's feet and toes every day for blisters, reddened areas
OBJECTIVES	Discuss hyperglycemia, including the signs and symptoms and the care of the client/resident experiencing hyperglycemia evidenced by satisfactory participation in classroom discussion. Describe long-term complications of diabetes mellitus as evidenced by participating in classroom discussion. Discuss guidelines for the nurse aide caring for the client/resident with diabetes mellitus as evidenced by satisfactory role-play in class and satisfactory performance in the clinical setting.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	e. client/resident should always wear well-fitting shoes when ambulating f. if client/resident has loss of sensation in hands, assist with activities such as eating, writing or holding objects g. if client/resident has loss of sensation in feet, assist with ambulation h. never cut client's/resident's tond do this i. always dry between client's/resident's toes after washing feet 7. what to report to the appropriate licensed nurse a. a missed meal b. complaints of increased thirst c. complaints of increased thirst c. complaints of increased thirst c. complaints of increased thirst d. complaints of increased thirst c. change in level of consciousness f. skin that is warm and flushed h. observing client/resident eating concentrated sweets between meals i. cuts, bruises, sores that do not seem to be healing j. blisters, sores, redness, cracks on/between toes or on feet k. increased incidence of infections
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT EVALUATION		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	C. Hypothyroidism 1. description a. lack of thyroid hormone b. causes body metabolism to slow down 2. signs and symptoms a. fatigue b. weakness c. weight gain d. constipation e. intolerant of the cold f. dry skin g. hair thins and/or begins to fall out h. brittle hair and fingernails i. pulse slows j. blood pressure decreases k. temperature is lower	1. goiter (enlarged thyroid) m. voice becomes hoarse n. depression 3. guidelines for care of the client/resident with hypothyroidism a. offer sweater, blanket to keep client/resident comfortable when complains of being cold b. set room thermostat a little higher to provide warmth c. be extra careful when grooming hair and nails d. provide frequent rest periods, as necessary, during ADLs e. encourage fluid intake
OBJECTIVES	Identify signs and symptoms of hypothyroidism as evidenced by participating in classroom discussion.	Discuss guidelines for the nurse aide caring for the client/resident with hypothyroidism as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	4. report the following to the appropriate licensed nurse a unusual complaints of fatigue c. hair that breaks or appears to be falling out d. complaints of constipation e. changes in voice f. neck becoming larger g. decrease in vital signs from baseline h. increase in vital signs from baseline h. increase in weight D. Hyperthyroidism 1. thyroid gland produces too much thyroid hormone 2. body processes speed up 3. body metabolism increases 4. signs and symptoms a. nervousness b. restlessness c. fatigue d. bulging or protruding eyes e. tremors of the hands f. intolerance to heat g. excessive perspiration h. rapid pulse i. high BP j. increased appetite with weight loss k. enlarged neck (goiter) 5. guidelines for care of the client/resident with hyperthyroidism a. assist to dress in cooler clothing b. lower thermostat in room c. assist at mealtime if appropriate
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion. Identify signs and symptoms of hyperthyroidism as evidenced by participating in classroom discussion.

OBJECTIVES	CONTENT OUTLINE	TEACHING TOOLS/RESOURCES	STUDENT EVALUATION	INSTRUCTION TIME (classroom, skills lab, clinical)
Discuss the importance of reporting abnormal	6. what to report to appropriate licensed nurse			
observations or changes to	 a. unusual complaints of being warm/hot 			
nurse as evidenced by	b. nervousness

UNIT XI – BASIC RESTORATIVE SERVICES (18VAC90-26-40.A.6.a,b,c,d,e,f)

INSTRUCTION TIME (classroom,		
STUDENT		
TEACHING TOOLS/RESOURCES		
	sability impaired function a. physical b. emotional c. both at the same may be permanent of goal of care a. assist resident to manage disability b. gain as much ind possible habilitation occurs after acciden	2. assist resident with disability to achieve highest possible level of functioning a. physical b. emotional c. economic 3. holistic care a. treating the entire person b. physical and psychological C. Members of the rehabilitation team l. physiatrist – physician specializing in rehabilitation 2. other physicians 3. therapists a. speech therapy b. physical therapy c. occupational therapy 4. social workers
OBJECTIVES	Describe the purpose of rehabilitation as evidenced by participation	in classroom discussion. Identify members of the rehabilitation team as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	S. discharge planners 6. nurses 7. nurse aides 8. resident 9. resident's family D. Goals of rehabilitation team 1. assist resident to maintain and/or regain ability to perform ADLs 2. promote resident independence 3. assist resident adaptation to disability 4. prevent complications of disability 6. prevent complications of disability 7. goals 8. assist resident to maintain health, strength, function 9. includes 9. includes 9. includes 1. deducation 1. chudelines of Rehabilitation and 1. Restorative Care A. Understand diagnosis and disability 1. be aware of resident's limitations 2. know resident's abilities and strengths 3. follow person-centered care plan 8. Display patience with resident and significant others 1. small improvements may be significant 2. respond appropriately and offer praise
OBJECTIVES	Describe restorative care as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills leb. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	C. Display positive attitude 1. staff sets the tone for the day 2. show support, encouragement, and patience D. Listen to resident's thoughts and feelings - emotional needs are important E. Provide for resident privacy 1. avoids distractions 2. allows resident to practice new skills without an audience within the resident's level of functioning - accomplishing a task by himself improves resident selfesteem F. Promote personal choice - supports self-esteem G. Encourage physical activity 1. helps prevent complications of disability 2. encourages social interaction H. Be aware resident may have setbacks I. helps prevent complications of disability 2. encourages social interaction 3. encourages of motivation 2. signs of withdrawal or depression 3. change in ability, both increased or decreased 4. change in resident strength, both increased and decreased 5. change in pain level, or signs that resident is in pain 6. changes in pain
OBJECTIVES	Discuss the role of the nurse aide in rehabilitation and restorative care as evidenced by participating in classroom discussion, a resident to participate in self-care as evidenced by satisfactory participation in role-play in classroom and skills lab. Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	III. Methods to Teach Resident to Participate in Self-Care Program A. Nurse aide project positive attitude 1. be enthusiastic 2. nurse aide's attitude will encourage resident's participation 1. what does resident want to achieve? 2. how will resident work toward goal? 3. how will resident know when goal has been achieved? 4. begin at resident's current level of function 5. use cueing mirroring behavior reinforcement C. Reasons resident may refuse 1. fear of hurting themselves 2. fear of failure 3. feeling of hopelessness 4. not understanding why self-care is helpful 5. not understanding why self-care is necessary	Definition A. Definition 1. devices to make specific tasks easier 2. promote independence B. Transferring resident 1. transfer belt (gait belt) for ambulation and transfer bed to wheelchair 2. slide board to transfer resident
OBJECTIVES	Describe reasons why resident may not want to participate in self-care as evidenced by satisfactory participation in classroom discussion.	Identify assistive devices the nurse aide may use for transferring residents, including bed to chair and bed to stretcher, as evidenced by Satisfactory rating on Skills Record in skills lab and in the clinical setting.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	from bed to stretcher 3. mechanical lift (manual or electronic) to transfer resident from bed to chair 4. U.S. Department of Labor Fair Labor Standards Act (FLSA) Hazardous Occupation Order No. 7 a. prohibits minors under 18 from operating or assisting in the operating or assisting in the operation of most power-driven hoists, including those designed to lift and move residents b. US Department of Labor Wage and Hour division website, pages 3, 4 C. Ambulating resident – ambulatory assistive devices 1. transfer belt (gait belt) 2. cane a. C-cane: handle in shape of a "C" b. quad cane: has 4 rubber-tipped feet 3. walker- provides more support than cane 4. crutches – used when resident has limited weight bearing on one leg D. Guidelines for ambulatory assistive devices 1. check assistive device for any defect or damage prior to use 2. resident should always wear nonskid shoes that fit correctly when ambulating 3. clothing should fit properly, not be too long or too loose-fitting
OBJECTIVES	Identify assistive devices the nurse aide may use to assist the resident to ambulate as evidenced by Satisfactory rating on Skills Record in skills lab and in the clinical setting. Demonstrate how to assist the resident to ambulate with assistive devices as evidenced by Satisfactory rating on Skills Record in skills lab and in the clinical setting.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	4. promptly clean spills and clutter from floors where resident will be walking 5. encourage resident to stand as straight as possible when walking 6. do not rush resident 7. do not use walker to hang items 8. resident should use cane in strong hand 9. when assisting resident to walk, stay near resident on the weak side hand 10. have chair available for resident to use if he experiences pain or discomfort while ambulating 11. after walking, return resident to chair or bed, in the low position, with call bell within reach 8. Assistive devices for eating 1. plate guard 2. utensils with built-up handles 3. utensils with built-up handles 6. cutensils with curved handles 7. sippy cup 6. cut bolders 7. Assistive devices for dressing/grooming 1. zipper pulls 2. Velcro fasteners instead of buttons 3. long-handled shoe horn 4. long-handled graspers 5. button hole hooks 6. elastic shoelaces 7. denture brush 8. long handled bathing sponge
OBJECTIVES	Identify assistive devices the nurse aide may use to assist the resident to eat as evidenced by Satisfactory role-play in skills lab. Identify assistive devices the nurse aide may use to assist the resident to dress as evidenced by Satisfactory role-play in skills lab.

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	 V. Range of Motion Exercises A. Definitions abduction - move away from the body's midline adduction - move toward the body's midline extension - straighten the body part flexion - bend the body part dorsiflexion - bend body part dorsiflexion - bend body part dorwnward rotation - turn body part downward rotation - turn the joint supination - turn body part upward contraction 	a. joint remains in permanently bent position b. caused by lack of movement c. prevented by i. proper positioning ii. range of motion (ROM) exercises to joint B. Benefits of exercise 1. increase muscle strength 2. maintain joint mobility 3. prevent contractures 4. improve coordination to help prevent falls 5. improve self-image to prevent depression 6. maintain/reduce weight 7. improve circulation to prevent leg ulcers C. Range of motion exercises 1. active range of motion exercise (AROM) - resident exercises (AROM) - resident exercises
OBJECTIVES	Define terms associated with range of motion as evidenced by participating in classroom discussion.	Describe benefits of exercise as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, chnical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	2. passive range of motion exercise (PROM) – staff exercises resident's joints without assistance from the resident 3. promotes self-care and resident independence D. Perform passive range of motion (PROM) for lower extremity - follow the procedure for "Performs Modified Passive Range of Motion (PROM) for One Knee and One Ankle" in the most current edition of Virginia Nurse Aide Candidate Handbook E. Perform passive range of motion (PROM) for One Shoulder" in the most current edition of Virginia Nurse Aide Candidate Handbook F. Signs to stop or withhold range of motion exercises 1. pain in the joint 2. red, swollen joint 2. red, swollen joint 3. range of motion exercises on a 4. regular schedule H. Guidelines for range of motion exercises 1. follow person-centered care plan 2. use of positioning devices 3. range of motion exercises 1. follow person-centered care plan 2. use proper body mechanics when performing range of motion exercises 1. tollow person-centered care plan 2. use proper body mechanics when performing range of motion exercises
OBJECTIVES	Demonstrate passive range of motion (PROM) to lower extremity as evidenced by Satisfactory rating on Skills Record in skills lab and in the clinical setting. Demonstrate passive range of motion (PROM) to upper extremity as evidenced by Satisfactory rating on Skills Record in skills lab and in the clinical setting. Discuss the guidelines for range of motion exercises as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	3. provide range of motion exercises to both sides of resident's body beginning at the head and working down the body (head and neck are usually not exercised unless specifically ordered) 4. support the extremity above and below the joint during range of motion 5. do not exercise joint that is bandaged or has dressing, cast, IV tubing 6. never exercise a joint that is red, bruised, has open sore, draining fluid 7. provide for privacy when doing range of motion exercises s 8. do not exercise joint to point of discomfort -hyperextension can cause damage to joint 9. maintain resident in good body alignment 10. talk with resident while performing range of motion Report the following to the appropriate licensed nurse 1. joint that is red, swollen, painful, draining 2. complaints of pain during range of motion exercise 3. lack of motivation 4. signs of withdrawal or depression 5. change in ability, both increased or decreased 6. change in resident strength, both increased and decreased 7. change in ability to perform range
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed in urse as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	of motion VI. Turning and Positioning in Bed and Chair A. Positioning devices 1. backrests a. pillow b. special wedge-shaped foam pillows c. provide support, comfort d. maintain proper body alignment 2. bed cradles/foot cradles a. keep sheets/blankets from pushing down on the resident's toes and feet 3. footboards a. padded boards or device placed against resident's feet to keep ankles and foot in proper alignment b. prevent foot drop 4. heel/elbow protectors wrapped around foot and ankle (heel) or elbow and arm (elbow) b. prevents rubbing, irritation and pressure on the heel or elbow c. heel protector maintains proper body alignment for ankle d. heel protector maintains proper body alignment for ankle d. heel protector prevents foot drop 5. abduction wedges - keep hips in proper position after hip surgery 6. trochanter roll a. rolled blanket or towel placed on outside of leg b. prevent hip and leg from turning outward
OBJECTIVES	Identify positioning devices the nurse aide may use when turning and position residents in bed and in the chair as evidenced by Satisfactory rating on Skills Record in skills lab and in clinical.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	7. handroll a. rolled washcloths placed in palm of hand b. keep hand and/or fingers in proper alignment c. prevents contractures of finger, hand or wrist B. Turning resident in bed l. protects against problems of immobility a. blood clots in the legs b. pneumonia c. contractures d. depression e. urinary tract infection 2. prevents pressure sores - turn and reposition q2h around the clock 3. comfort 4. position resident on side - follow the procedure for "Positions on Side" in the most current edition of Virginia Nurse Aide Candidate Handbook 5. use positioning devices for proper body alignment and comfort C. Position resident in chair l. feet on floor 2. hips touching back of chair 3. use positioning devices to maintain body alignment and comfort 4. place call bell within resident's reach
OBJECTIVES	Demonstrate positioning resident on his side as evidenced by Satisfactory rating on Skills Record in skills lab and in the clinical setting. Demonstrate positioning resident in a chair as evidenced by Satisfactory rating on Skills Record in skills lab and in the clinical setting.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	A. Prosthetic devices A. Prosthetic devices 1. definition - artificial replacement for legs, feet, arms or other body parts 2. examples a. artificial arm or leg b. artificial eye 3. caring for and using prosthetic devices a. handle with extreme care – they are very expensive b. follow instructions when applying and removing prosthesis c. assist resident as needed to applying and remove prosthesis d. follow person-centered care plan and manufacturer's instructions e. make sure skin is always clean and artificial leg or arm g. if resident experiences phantom pain, be supportive h. do not react negatively to sight of anatomical stump or prosthesis 4. report the following to the appropriate licensed nurse a. redness, swelling of stump or extremity b. drainage, bleeding or sores of any kind on the stump or extremity
OBJECTIVES	Describe caring for and using prosthetic devices as evidenced by participating in classroom discussion. Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. phantom pain, phantom sensation, stump pain d. decreased ability to move extremity e. cyanosis of any part of the extremity f. any difficulty applying or using prosthesis g. need repair or need to be changed B. Orthotic devices 1. definition a. device applied over a body part for support and protection b. keep joint in correct alignment c. improve function of body part d. prevent contractures of body part d. prevent contractures of body part e. splints and braces 2. examples a. splints b. shoe inserts c. knee/leg braces d. surgical shoes e. elastic stockings 3. caring for and using orthotic devices a. do not use hot water to clean c. clean with warm, damp cloth d. check braces and splints for wear and tear e. after removal wash elastic stocking in warm, soapy water every day f. gradually increase wearing time of device
OBJECTIVES	Describe caring for and using orthotic devices as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	g. if device causes pain remove and notify licensed nurse h. observe area around, under device 4. report the following to the appropriate licensed nurse a redness, swelling of body part, or foul odor b. drainage, bleeding or sores of any kind on the body part c. complaints of pain d. decreased ability to move body part e. cyanosis of the body part f. any difficulty applying or using orthotic device g. orthotic device that needs repair or need to be changed C. Anti-embolic (elastic) stockings— requires a prescriber's order 1. purpose a. cause smooth, even compression of the leg b. allows blood to move through the arteries and veins c. improves blood circulation in lower extremities d. prevent swelling of legs and feet e. reduce fluid retention f. reduce blood clots in legs 2. sized to fit resident a. measure length of leg b. measure girth of leg b. measure girth of leg
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion. Describe the purpose of elastic stockings as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	3. apply elastic stocking a. follow the procedure for "Applies One Knee-High Elastic Stocking" in the most current edition of Virginia Nurse Aide Candidate Handbook 4. daily observations a. use open area at toes to observe resident's toes b. look for cyanosis, bluing of toes/nailbeds c. document application of stocking and observations per facility policy 5. risks of elastic stocking a. turning down the top of the stocking may impede circulation b. stockings should be applied first thing in the morning when legs are smallest c. apply stockings while legs are elevated, before resident gets out of bed d. make sure there are no wrinkles or twists in stocking after it is applied 6. report the following to the appropriate licensed nurse a. toes or feet that are bluish and/or cool to touch b. complaints of pain or discomfort in the feet or legs c. red areas on heels, toes, calf of the leg
OBJECTIVES	Demonstrate correct application of elastic stockings as evidenced by Satisfactory rating on Skills Record in skills lab and in the clinical setting. Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	A. Goal 1. relearn control of urinary elimination pattern 2. control involuntary urination (incontinence) B. Guidelines for bladder training 1. identify pattern of elimination 2. establish schedule for use of bathroom, at least q2h 3. explain training schedule to resident 4. follow schedule consistently 5. keep accurate record of elimination to help establish a routine 6. toilet resident before beginning long procedures are complete 7. toilet resident before meals and before bedtime 8. answer call bell promptly 9. provide privacy when resident emptying bladder 10. do not rush resident to maintain good perineal hygiene 12. encourage or increase fluid intake, if permitted 13. toilet about 30 minutes after fluid intake 14. if resident has difficulty urinating try running water in the sink, leaning resident forward slightly to place additional pressure on the bladder 15. assist with change of clothing if accident occurs
OBJECTIVES	Describe the process for bladder training as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	16. be positive with success and understanding of accidents C. Guidelines for bowel training 1. identify pattern of elimination 2. establish schedule for use of bathroom 3. explain training schedule to resident 4. follow schedule consistently 5. provide diet that stimulates the bowels a. high in fiber b. fresh fruits and vegetables c. adequate hydration 6. provide exercise as tolerated 7. provide privacy when in the bathroom 8. provide encouragement 9. answer call bell promptly 10. do not rush resident 11. assist with change of clothing if accident occurs 12. be positive with success and understanding of accidents D. Report anything that interferes with bladder and/or bowel training and any unusual occurrences to the appropriate licensed nurse
OBJECTIVES	Describe the process for bowel training as evidenced by satisfactory participation in classroom discussion. Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

UNIT XII – RESPIRATORY SYSTEM, CARDIOVASCULAR SYSTEM, HIV/AIDS, CANCER, AND CARE OF THE RESIDENT WHEN DEATH IS IMMINENT (18VAC90-26-40.A.2.g)

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	1. airway 1. airway 2. mouth b. nasal cavities c. throat – pharynx d. voice box – larynx e. epiglottis – flap that closes off opening to trachea when resident swallows f. trachea – windpipe g. bronchi – 2 branches of the trachea i. one to right lung, one to left lung h. lungs ii. exchanges carbon dioxide from the body for oxygen from the environment i. bronchioles j. alveoli – where gas exchange actually occurs k. inhalation – breathe air and oxygen into the lungs l. exhale – breathe out carbon dioxide dioxide B. Ventilation 1. diaphragm a. muscle separating chest from abdomen
OBJECTIVES	Explain the anatomy and physiology of the respiratory system as evidenced by being able to correctly identify each component part and its function.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	b. during inhalation diaphragm contracts making room for lungs to expand and negative pressure to pull air from environment into the lungs c. during exhalation diaphragm relaxes and causes positive pressure in the lungs to push the air out of the lungs 2. respiratory rate a. controlled by central nervous system b. medulla oblongata of the brain has control c. Function of respiratory system 1. cleanse inhaled air 2. supply oxygen to body cells 3. remove carbon dioxide from cells 4. produce sound associated with speech D. Effects of aging on the respiratory system 1. less efficient ventilation a. lung strength decreases (do not expand and contract as easily) b. alveoli become less elastic (do not empty on exhalation) c. alveoli decrease in number d. diaphragm becomes weaker e. airways become less elastic 2. lung capacity decreases 3. muscles of the rib cage become weaker making it harder to expand the chest during inhalation 4. cough reflex becomes less effective making the cough weaker 5. decrease in effectiveness of
OBJECTIVES	Describe age-related changes seen in the respiratory system as evidenced by accurately participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	wentilation causes less oxygen in the blood 6. decreased lung capacity may cause voice to weaken 8. Common disorders of the respiratory system 1. chronic obstructed pulmonary disease (COPD) a. resident becomes progressively worse with time b. no cure c. acute bronchitis – inflammation of lining of bronchi ii. symptoms a) production of yellow or green sputum and mucus b) difficulty breathing and wheezing may occur c) lasts a short time d. chronic bronchitis i. cause – inflammation of bronchial lining iii. cigarette smoking iii. cause inflammation of bronic cough producing thick, whitish sputum b) restricts air flow c) scars lungs e. emphysema i. alveoli become over-stretched iii. causes a) cigarette smoking b) chronic bronchitis
OBJECTIVES	Discuss common disorders of the respiratory system, including their signs and symptoms, as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	iv. symptoms a) short of breath b) coughing c) difficulty breathing f. signs and symptoms of COPD i. coughing/wheezing ii. difficulty breathing (dyspnea) iii. short of breath especially during exercise iv. cyanosis v. complaints of chest tightness or pain vi. complaints of chest tightness or pain vi. complaints of chest tightness or pain vi. comfusion vii. weakness viii. loss of appetite and weight ix. fear and anxiety g. guidelines for COPD i. use pillows to assist resident to sit up and lean slightly forward to facilitate breathing ii. plan periods of rest during ADLs to prevent resident from getting overly tired iii. practice good hand washing to protect resident from infections iv. encourage a healthy diet v. provide plenty of fluids to help keep resident well- hydrated vi. be supportive and calm if resident is anxious and fearful vii. provide trash can close to resident to help with appropriate disposal of used tissues
OBJECTIVES	

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	viii. if resident is receiving oxygen, follow instructions on use of oxygen h. report the following to the appropriate licensed nurse i. signs and symptoms of colds or the flu a) fever b) chills c) complaints of feeling achy ii. confusion iii. change in breathing patterns iv. shortness of breath on exertion v. change in color or consistency of sputum vi. complaints of chest pain or tightness vii. insomnia due to anxiety or fear 2. asthma a. chronic b. causes i. allergens ii. infection iii. cold air iv. environmental irritants or pollution v. obesity c. signs and symptoms i. wheezing ii. coughing iii. complaints of tightness in the chest iv. difficulty breathing
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	d. report the following to the appropriate licensed nurse i. changes in respirations and/or pulse ii. wheezing iii. shortness of breath iv. cyanosis v. complaints of chest pain or chest tightness 3. pneumonia a. acute inflammation of lungs b. cause i. infection – viral, bacterial or fungal ii. chemical irritant c. signs and symptoms i. high fever ii. chest pain during inhalation iii. coughing v. shortness of breath vi. chills vii. inick, colored sputum d. report the following to the appropriate licensed nurse i. changes in viral signs ii. complaints of difficulty breathing iii. complaints of difficulty breathing iii. complaints of difficulty v. sputum that has a distinct color v. sputum that has a distinct color F. Oxygen therapy 1. administration of oxygen to improve oxygen levels in the body
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion. Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	a. normal blood oxygen level is 95-100% b. residents with certain disease processes have different optimal blood oxygen levels 2. methods of delivery a. compressed air – green oxygen tank or in wall unit b. air condenser – connects to electrical outlet and pulls oxygen out of room air c. appliance i. nasal cannula – 2 nasal prongs and tubing that goes around the ears and cinches under the chin; tubing is attached to oxygen source ii. mask – mask fits over nose and mouth and attaches to tubing attached to oxygen source 3. oxygen is a medication a. requires physician's order b. ordered in liters/minute c. nurse aide may only observe and report administration of oxygen 4. guidelines for oxygen delivery a. ensure oxygen tubing is not on the floor b. no smoking can take place in same room as oxygen administration c. post "No Smoking" signs outside of room and in resident's room
OBJECTIVES	Describe the use of various types of oxygen therapy equipment as evidenced by satisfactory participation in classroom discussion. Discuss the guidelines for caring for the resident receiving oxygen therapy as evidenced by satisfactory role-play in skills lab and classroom.

INSTRUCTION TIME (classroom,	
STUDENT EVALUATION	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	d. any spark can cause a fire in presence of oxygen, including static electricity from wool, and from dry air in winter e. perform frequent skin care to areas in contact with oxygen equipment (under the nose, behind the ears) f. observe these areas for redness and drainage g. use water-based lubricant to keep nostrils and lips moist and to prevent skin cracking h. monitor oxygen delivery device frequently to assure resident is receiving correct amount of oxygen i. encourage activity as tolerated by resident j. provide emotional support to resident k. know where fire alarms and extinguishers are located l. report the following to the appropriate licensed nurse i. sores or crusty areas on or under resident's nose or ears ii. dry, red areas on skin in contact with oxygen tubing iii. shortness of breath iv. changes in respiratory patterns vi. changes in respiratory patterns vi. changes in character or color of sputum vii. cyanosis
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

II. Cardiovascular System A. Anatomy 1. blood
 a. red blood cells i. carry oxygen to the individual cells and carbon dioxide to the lungs b. white blood cells
i. part of immune system ii. attack invading micro- organisms (infection) c. platelets - assist the blood to
clot d. plasma- fluid portion of blood 2. heart a. pump that circulates blood throughout the body b. has 4 chambers
i. right atrium – blood from the body enters heart through right atrium and flows into the right ventricle ii. right ventricle – blood goes from right ventricle to the
lungs where carbon dioxide leaves the blood and is replaced with oxygen iii. left atrium – blood returns to the heart from the lungs and enters the left atrium
iv. left ventricle – blood flows from the left atrium into left ventricle which pumps oxygen-rich blood to the

STUDENT INSTRUCTION EVALUATION TIME (classroom,		
TEACHING ST TOOLS/RESOURCES EVA		
CONTENT OUTLINE	body 3. arteries a. arteries carry oxygen-rich blood to the cells b. exception is pulmonary arteries which carry deoxygenated blood from right ventricle to lungs 4. veins - carry deoxygenated blood from the cells back to the heart (right atrium) 5. capillaries a. connect arteries to veins at the cellular level b. where actual exchange of oxygen from the arteries to the cellular level b. where actual exchange of dioxide to return to the heart B. Functions of the circulatory system 1. blood a. carries oxygen, nutrients and chemicals to cells b. removes carbon dioxide and waste products from cells c. controls acidity of body d. controls body temperature e. fights infection and foreign bodies within the body 2. heart a. pumps blood to every cell in the body	C. Effects of aging on the circulatory system 1. heart muscle weakens and pumps less effectively 2. blood vessels become clogged with cholesterol and clots and become
OBJECTIVES		Describe age-related changes seen in the circulatory system as evidenced by accurately participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	less efficient at circulating blood 3. blood vessels become less elastic 4. blood flow decreases D. Common disorders of the circulatory system 1. hypertension – high blood pressure a. follow current guidelines b. causes i. arteries become less elastic (hardening of the arteries) ii. arteries become more narrow iii. kidney disease iv. stress and/or pain v. side effect of medication c. signs and symptoms i. headache ii. blurred vision iii. blurred vision iii. in may cause kidney damage ii. may cause kidney damage ii. may cause rupture of blood vessel in the brain (cerebrovascular accident – CVA– stroke) e. treatment i. medication ii. diet with controlled sodium (salt) and/or far intake 2. coronary artery disease (CAD) a. arteries that provide blood to heart muscle become blocked with fatty deposits or blood clots and the heart muscle does not receive enough oxygen b. heart muscle deprived of oxygen causes chest pain – angina
OBJECTIVES	Discuss common disorders of the circulatory system, including their signs and symptoms, as evidenced by participating in classroom discussion.

TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	i. described a) pressure/tightness in chest b) pain radiating down left arm c) pain in back, neck, jaw, shoulder iii. symptoms a) sweaty b) trouble breathing c) complexion pales d) cyanosis of lips, nail beds e) complexion pales d) cyanosis of lips, nail beds e) complexion pales d) cyanosis of lips, nail beds e) complaints of dizziness iv. guidelines for resident experiencing angina a) have resident lie down and rest b) notify licensed nurse immediately c) reduce stressors d) encourage rest periods during ADLs e) avoid large meals close to bedtime f) avoid exposure to weather extremes g) report to licensed nurse complaints of chest pain, shortness of breath that occurs with activity or at rest c. when muscle cells begin to die - myocardial infarction (MI or heart affack) i. area of the heart is permanently damaged
OBJECTIVES	Discuss the guidelines for caring for the resident experiencing angina as evidenced by satisfactory participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TOOLS/RESOURCES	
CONTENT OUTLINE	ii. signs and symptoms are same as angina same as angina iii. guidelines for resident experiencing a possible cardiac event a) a medical emergency b) notify licensed nurse immediately c) have resident lie down d) remain calm and stay with resident e) remove constrictive clothing f) if resident becomes unresponsive, begin CPR g) report to licensed nurse complaints of chest pain, shortness of breath that occurs with activity or at rest 3. peripheral vascular disease (PVD) a. decreased blood supply to extremities (arms, hands, legs, feet) b. causes i. narrowed blood vessels ii. blood vessels less elastic iiii. blockages in blood vessels iv. decreased amount of blood being pumped by heart v. inflammation of veins in legs c. signs and symptoms i. pain in legs when walking or during activity ii. pain in legs that remains after activity is stopped iii. cyanosis in hands and/or feet
OBJECTIVES	Discuss the guidelines for caring for the resident experiencing possible cardiac event as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab. clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	iv. cyanotic nail beds v. extremities that are cool to touch vi. swelling of the hands and/or feet vii. sores on arms, hands, legs, feet that do not heal in expected time-frame d. report the following to the appropriate licensed nurse i. complaints of pain or discomfort in extremities with activity or at rest ii. change in skin color of extremities iii. change in temperature of extremities iv. change in pulse or blood pressure v. edema in feet and/or hands vi. increase in weight vii. urine output that is significantly less than intake viii. complaints of headache ix. complaints of chest pain x. complaints of chest pain x. complaints of chest pain xi. change in level of consciousness 4. congestive heart failure (CHF) a. when one or both sides of heart pumps ineffectively and blood begins to back up in the heart and in the arteries and veins b. signs and symptoms i. fatigue ii. swelling (edema) in hands and feet
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	iii. difficulty breathing iv. shortness of breath not relieved by rest v. persistent cough vi. decreased activity tolerance viii. irregular pulse ix. chest pain x. dizziness xi. change in level of consciousness xii. weight gain xiii. increased urination xiv. swelling of the abdomen c. guidelines for caring for the resident with CHF i. include rest periods during ADLs ii. daily weights iii. daily weights iii. daily weights iii. record intake and output daily iv. follow care plan for diet and fluid intake v. use elastic stockings as ordered vi. position resident so breathing is comfortable d. report the following to the appropriate licensed nurse i. change in level of consciousness ii. change in activity tolerance iii. change in vital signs iv. shortness of breath with activity or at rest v. coughing and/or wheezing vi. weight gain vii. increase in urination
OBJECTIVES	Discuss the guidelines for caring for the resident experiencing CHF as evidenced by participating in classroom discussion. Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom,																									
STUDENT																									
TEACHING TOOLS/RESOURCES																									
CONTENT OUTLINE	viii. unusual swelling in hands, feet, legs	III. Resident with AIDS (Acquired Immune Deficiency Syndrome)	1. human immunodeficiency virus	(HIV) attacks immune system 2. damages or destroys cells of	immune system 3. weakens and disables immune	B. Causes - exposure to HIV infected	blood and/or body fluids Doseible signs and armstone	1. flu-like symptoms	2. swollen glands	3. headache	4. fever	5. Weignt loss 6. night sweats	7. difficulty breathing	8. cold sores	9. frequent infections of skin,	respiratory system and mouth	D. Guidelines for care of resident with	HIV/AIDS	1. practice Standard Precautions and	encourage resident and significant others to practice Standard	Precautions	2. disinfect surfaces in resident's	room and bathroom on a regular	3. discourage visitors who have	infections or colds from visiting
OBJECTIVES							Discuss HTV/ATDS	including signs and	symptoms and guidelines	for care, as evidenced	by participating in	Classicola discussion.					Discuss the guidelines for	caring for the resident with	HIV/AIDS as evidenced	by participating in classroom discussion.					

INSTRUCTION TIME (classroom, skills lab, clinical)		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	 4. observe resident's skin on regular basis 5. keep skin clean and dry 6. turn and reposition q2h 7. provide rest periods during ADLs 8. provide mouth care at frequent intervals 9. monitor vital signs 10. measure and record weight, intake and output 11. follow person-centered care plan 12. encourage independence as much as possible 13. provide emotional support 14. Report the following to the appropriate licensed nurse 1. change in appetite 2. weight loss 3. mouth sores 4. difficulty swallowing 5. changes in the skin 6. changes in vital signs 7. bleeding from any opening on the body 8. unusual behavior – anxiety, depression, mood swings, suicidal thoughts 	N. The Resident with Cancer A. Definitions 1. tumor - abnormal growth of tissue 2. benign - slowly growing tumor that is easily treated; not malignant 3. malignant a. abnormal cells that do not function properly b. divide rapidly
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion.	Discuss cancer, including signs and symptoms and guidelines for care, as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	c. invade nearby tissue 4. cancer - abnormal cells growing in an uncontrolled manner 5. metastasis - cancer cells spread from their original location to a new location 6. biopsy - removal of a sample of tissue to test for cancer cells 7. Risk factors for cancer 8. Risk factors for cancer 9. gender 1. inheritance a. history of smoking b. alcohol use c. exposure to chemical and food additives 3. lifestyle factors a. diet/obesity b. lack of exercise c. exposure to sun C. American Cancer Society signs of cancer 1. fever 2. farigue 3. unexplained weight loss 4. pain 5. skin changes 6. new mole or change in existing mole/wart 7. change in bowel/bladder function 8. sore that does not heal/unusual bleeding/discharge 9. thickening in breast, scrotum 10. indigestion, difficulty swallowing 11. nagging cough or hoarseness
OBJECTIVES	Identify the American Cancer Society signs of cancer as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	D. Guidelines for care of resident with cancer 1. manage pain a. reposition at frequent intervals b. offer back rubs c. provide rest periods during ADLS d. report pain to licensed nurse for medication 2. skin care a. observe skin on regular basis b. keep skin clean and dry c. turn and reposition q2h 3. oral care a. provide mouth care at regular intervals b. use soft toothbrush or swabs, as needed 4. schedule rest periods 5. provide small, frequent meals 6. encourage fluid intake 7. weigh resident on regular basis 8. provide emotional supplements as ordered 9. monitor vital signs 10. provide emotional support for changes in self-image changes in self-image 11. encourage participation in activities to promote socialization 12. encourage participation in support groups 13. monitor side effects of the treatments such as chemo and radiation
OBJECTIVES	Discuss the guidelines for caring for the resident with cancer as evidenced by participating in classroom discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	E. Report the following to the appropriate licensed nurse 1. pain or increase in pain 2. changes in vital signs 3. any changes to the skin a. new lesions b. rashes c. red areas 4. odors 5. changes in ability to ambulate 6. chest pain 7. difficulty breathing 8. change in appetite or weight loss 9. sores or pain in mouth 10. bleeding from any opening in the body 11. nausea or vomiting 12. change in bowel or bowel patterns 13. change in level of consciousness 14. change in level of consciousness 15. change in level of consciousness 16. change in level of what has been promised a. fear of unknown b. anticipation of what has been promised 2. religious beliefs a. anticipate after-life b. no after-life c. reincarnation d. punishment 3. personal experience
OBJECTIVES	Discuss the importance of reporting abnormal observations or changes to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion. Identify an understanding of the student's own feelings about death and dying as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	B. Stages of grief 1. denial - refuse to accept diagnosis 2. anger a. occurs when realize they are going to die b. may be expressed at self, family, staff 3. bargaining - bargain with God or a higher power 4. depression 5. acceptance - may appear detached from situation 6. not everyone passes through all the stages of grief before they die 7. nurse aide must remember not to take resident's behavior personally C. Rights of the dying resident 1. to have visitors 2. to privacy 3. to be free of pain 4. to honest, accurate information 5. to refuse treatment D. Physical changes of the dying resident 1. changes in vital signs a. increased pulse b. shallow, irregular respirations c. gurgling, rattling sound to respirations d. decreased BP 2. changes in skin a. bluish b. mottled c. sweaty d. becomes cool to touch 3. urine production decreases 4. incontinent of urine and/or stool 5. resident may not want to eat or
OBJECTIVES	Describe the stages of grief as evidenced by participating in classroom discussion. List physical changes that occur when death is imminent as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom,		
STUDENT		
TEACHING TOOLS/RESOURCES		
CONTENT OUTLINE	drink 6. difficulty swallowing 7. decreased muscle tone 8. decreased vision 9. change in level of consciousness 10. hallucinations 11. hearing is the last sense to decline eds of the dying resident 1. care of the skin a. turn and reposition q2hrs. b. keep skin clean and dry c. change soiled clothing and linen immediately 2. care of mucous membranes a. oral care q2h if needed b. moisten lips and mucous membranes as needed c. using warm, wet washcloth gently clean eyes of any accumulated crust d. apply water-based lubricant to nostrils if resident is receiving oxygen therapy 3. positioning a. use positioning devices to assure proper body alignment b. turn and reposition q2h c. notify licensed nurse of pain d. elevate head of bed if resident having difficulty breathing 4. comfort measures a. back rub b. soft music c. keep room well ventilated d. use soft lighting, adequate to see but not glaring	
OBJECTIVES	Discuss care measures for the resident when death is imminent as evidenced by participation in role-play in skills lab and classroom discussion.	

INSTRUCTION TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	e. remove soiled linens and bedpans immediately f. encourage and assist family/significant others to visit g. do not leave resident alone h. remember that dying resident may still have intact sense of hearing F. Guidelines for meeting the psychosocial and spiritual needs of the dying resident 1. do not isolate or avoid the dying resident 2. provide opportunity for dying resident to talk 3. be non-judgmental about resident and anything he tells you 4. allow resident to express his views on death and dying 5. respect resident? s wishes for visits from spiritual leaders 6. provide privacy for resident and family/friends 7. maintain confidentially regarding anything resident and/or family shares 8. provide care with compassion, understanding patience, empathy G. Care for the family of the dying resident 1. communicate what is happening to the resident 2. provide space for family members to be by themselves 3. provide time for family members 6. permit family members to care for
OBJECTIVES	Discuss psychosocial and spiritual care measures for the resident when death is imminent as evidenced by participation in classroom discussion. Discuss care measures for the family when death of the resident is imminent as evidenced by participation in classroom discussion.

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	dying resident, if they so desire 1. allow family members to verbalize feelings in a non-judgmental environment 2. permit family to follow religious rituals of their choice 7. do not be afraid to show your own emotions 8. explain procedure to family and request they leave the room 9. gently close the eyes 1. provide for privacy 2. explain procedure to family and request they leave the room 9. gently close the eyes 10. place in clean gown or pajamas 11. place in clean gown or pajamas 12. follow family 13. turn lights down for family 14. prepare body for funeral home to transport 15. follow facility policy for handling and removal of personal items 16. have a witness for any personal items that is given to a family member 16. document procedure following facility policy
OBJECTIVES	Demonstrate proper procedure for postmortem care as evidenced by Satisfactory rating on Skills Record in skills lab and in clinical setting.

UNIT XIII – ADMISSION, TRANSFER AND DISCHARGE (18VAC90-26-40.A.7.e.) (18VAC90-26-40.A.2.d.)

OBJECTIVES	CONTENT OUTLINE	TEACHING TOOLS/RESOURCES	STUDENT	INSTRUCTION TIME (classroom, skills lab, clinical)
Describe preparation of resident room prior to	I. Admission to the Long-Term Care FacilityA. Prepare the room1. admission pack			
admission as evidenced by satisfactory participation	a. wash basin b. bedpan/urinal			
in classroom discussion.	c. toiletry items d. water nitcher/cup			
	2. assemble vital sign equipment			
	b. BP cuff			
	c. thermometer			
	5. Open curtams/blinds 4. adjust room temperature			
	5. bed in low position with wheels			
3	D Omizatetican to finalists			
orientation that must be	D. Orientation to taching 1. introduce vourself, including vour			
provided to the resident	title			
during admission as	2. identify how you will work with			
evidenced by satisfactory				
participation in classroom				
discussion.	4. De Infinally, politic			
	6. review resident rights			
	 review facility rules 			
	a. meal times			
	 b. smoking policy 			
	c. visitation policy			
	d. how to complete menu

INSTRUCTION TIME (classroom,	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	b. bathing area c. activity room and schedule d. chapel d. chapel e. D. call bell c. bathroom/emergency light d. lights e. TV f. how to use telephone D. Care of personal belongings 1. complete resident inventory sheet— describe all belongings completely and accurately 2. assist to label all personal items, including clothing 3. assist to unpack personal items, including clothing 2. assist to unpack personal items including clothing 3. assist to unpack personal items including clothing consistent of seident what you will be doing 3. provide for privacy 4. if appropriate, ask family to wait outside the room 5. obtain baseline vital signs, height, weight 6. observe a. condition of skin b. mobility c. behavior d. ability to communicate 7. fill water pitcher with fresh water 8. have family return to room 9. make resident comfortable 10. place call bell within reach and demonstrate how to use it 11. wash hands
OBJECTIVES	Describe how to care for resident's personal belongings as evidenced by satisfactory participation in classroom discussion. Discuss the observations that the nurse aide should make during the admission process as evidenced by satisfactory role-play in class and skills lab. Document the admissions process, including care of resident's personal belongings, observations and vital signs as evidenced by satisfactory participation in role-play in class and skills lab.

T INSTRUCTION ON TIME (classroom, skills lab, clinical)	
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	12. document vital signs, height, weight 13. report any abnormal findings to appropriate licensed nurse 1. inform resident 1. inform resident of transfer as soon as you know 2. assist resident to prepare for moving belongings 3. accompany resident to new unit 4. provide report to new unit 6. mobility d. ability to communicate 7. make resident to new unit staff 8. have call bell in easy reach 9. wash hands 10. document procedure 11. report any changes in the resident to the appropriate licensed nurse B. Care of room after transfer in accordance with facility policy 1. strip bed 2. place all linen, used and unused in laundry hamper 3. inform housekeeping service that room is empty and ready for terminal cleaning
OBJECTIVES	Discuss the importance of reporting abnormal observations or findings to the appropriate licensed nurse as evidenced by satisfactory participation in classroom discussion. Discuss important factors in preparing resident for transfer from his room and/or facility as evidenced by satisfactory participation in classroom discussion. Demonstrate preparing resident for transfer as evidenced by satisfactory participation in skills lab role-play. Discuss care of the resident room after transfer has occurred as evidenced by satisfactory participation in classroom discussion.

INSTRUCTION TIME (classroom,	skills lab, clinical)
STUDENT	
TEACHING TOOLS/RESOURCES	
CONTENT OUTLINE	 III. Discharge A. Responsibilities of nurse aide 1. explain what you will be doing to resident 2. provide for privacy 3. compare admission resident inventory sheet to items being packed for discharge 4. carefully assist resident/family to pack belongings 5. assist resident to dress in personal clothing 6. assist resident to say "Good-byes" to staff 7. using wheelchair, take resident to area where family vehicle is waiting 8. lock wheels on wheelchair 9. assist resident into vehicle, engage seatbelt and close door 10. return to unit with wheelchair 11. wash hands 12. document procedure B. Care of room after discharge 1. strip bed 2. place all linen, used and unused in laundry hamper 3. inform housekeeping service that room is empty and ready for terminal clausing
OBJECTIVES	Identify responsibilities of nurse aide during the discharge of the resident as evidenced by satisfactory participation in classroom discussion. Demonstrate discharge of the resident, including care of personal belongings and assisting to transport to the pick-up area as evidenced by satisfactory participation in skills lab role-play.

UNIT XIV - LEGAL AND REGULATORY ASPECTS OF PRACTICE FOR THE CERTIFIED NURSE AIDE

Agenda Item: Regulatory Action – Adoption of Final Regulations for Nurse Practitioners

Direction and supervision of laser hair removal by nurse practitioners

Included in agenda package:

Amendments to Chapter 30 on Direction and supervision of laser hair removal

Staff Note:

There was a public comment period on proposed regulations for 10/29/18 to 12/28/18; no comment was received.

Board action:

Adoption of final regulation as an exempt action

BOARD OF NURSING

Supervision and direction of laser hair removal

18VAC90-30-124. Direction and supervision of laser hair removal.

A. A nurse practitioner, as authorized pursuant to § 54.1-2957 of the Code of Virginia, may perform or supervise the performance of laser hair removal upon completion of training in the following:

- 1. Skin physiology and histology:
- 2. Skin type and appropriate patient selection:
- Laser safety:
- 4. Operation of laser device to be used:
- 5. Recognition of potential complications and response to any actual complication resulting from a laser hair removal treatment; and
- 6. A minimum number of 10 proctored patient cases with demonstrated competency in treating various skin types.
- B. Nurse practitioners who have been performing laser hair removal prior to (the effective date of this regulation) are not required to complete the training specified in subsection A of this section.
- C. A nurse practitioner who delegates the practice of laser hair removal and provides supervision for such practice shall ensure the supervised person has completed the training required in subsection A of this section.
- D. A nurse practitioner who performs laser hair removal or who supervises others in the practice shall receive ongoing training as necessary to maintain competency in new techniques

and laser devices. The nurse practitioner shall ensure that persons the nurse practitioner supervises also receive ongoing training to maintain competency.

E. A nurse practitioner may delegate laser hair removal to a properly trained person under the nurse practitioner's direction and supervision. Direction and supervision shall mean that the nurse practitioner is readily available at the time laser hair removal is being performed. The supervising nurse practitioner is not required to be physically present but is required to see and evaluate a patient for whom the treatment has resulted in complications prior to the continuance of laser hair removal treatment.

F. Prescribing of medication shall be in accordance with § 54.1-3303 of the Code of Virginia.

CORE COMMITTEE AGENDA January 29, 2019 VIRGINIA BOARD OF NURSING

Department of Health Professions, 9960 Mayland Drive, Suite 300, Henrico, Virginia 23233
