Exempt Action: Proposed Regulation Agency Background Document

Agency name	DWR
Virginia Administrative Code (VAC) Chapter citation(s)	4VAC15-170
VAC Chapter title(s)	Game: Otter
Action title	2025 Amendments to Wildlife Regulations
Date this document prepared	3/26/2025

This information is required for executive branch review pursuant to Executive Order 19 (2022) (EO 19), any instructions or procedures issued by the Office of Regulatory Management (ORM) or the Department of Planning and Budget (DPB) pursuant to EO 19. In addition, this information is required by the Virginia Registrar of Regulations pursuant to the Virginia Register Act (§ 2.2-4100 et seq. of the Code of Virginia). Regulations must conform to the Regulations for Filing and Publishing Agency Regulations (1 VAC 7-10), and the *Form and Style Requirements for the Virginia Register of Regulations and Virginia Administrative Code*.

Brief Summary

Provide a brief summary (preferably no more than 2 or 3 paragraphs) of this regulatory change (i.e., new regulation, amendments to an existing regulation, or repeal of an existing regulation). Alert the reader to all substantive matters. If applicable, generally describe the existing regulation.

Section 30:

The proposal is to enable the Department to authorize individuals other than Department staffs to affix a CITES (Convention on International Trade in Endangered Species of Wild Fauna and Flora) tag to an otter pelt to enhance efficiency of administering the CITES program in Virginia.

Mandate and Impetus

Identify the mandate for this regulatory change, and any other impetus that specifically prompted its initiation (e.g., new or modified mandate, internal staff review, petition for rulemaking, periodic review, or board decision). For purposes of executive branch review, "mandate" has the same meaning as defined in the ORM procedures, "a directive from the General Assembly, the federal government, or a court that requires that a regulation be promulgated, amended, or repealed in whole or part."

Section 30:

The proposed change will allow for trappers to receive and affix a CITES tag to an otter pelt themselves after providing harvest information to the department. Currently only agents of the Department can affix CITES tags to otters. The proposed change will make it easier and more cost effective for trappers to receive the tags, improve the data collection process for otter harvest, and decrease the administrative burden on Department staff who currently administer most of the tags for otters.

This proposed change provide consistency with the current Department regulation for affixing CITES tags to bobcat pelts (4VAC15-170-30).
