In addition, this information is required by the Virginia Registrar of Regulations pursuant to the Virginia Register Act (§ 2.2-4100 et seq. of the Code of Virginia). Brief Summary

Provide a brief summary (preferably no more than 2 or 3 paragraphs) of this regulatory change (i.e., new regulation, amendments to an existing regulation, or repeal of an existing regulation). Alert the reader to all substantive matters. If applicable, generally describe the existing regulation.

This regulatory change conforms references to lifejacket types for commercial vessels to the current requirements found in the Code of Federal Regulations.

Mandate and Impetus

Identify the mandate for this regulatory change and any other impetus that specifically prompted its initiation (e.g., new or modified mandate, internal staff review, petition for rulemaking, periodic review, or board decision). For purposes of executive branch review, "mandate" has the same meaning as defined in the ORM procedures, "a directive from the General Assembly, the federal government, or a court that requires that a regulation be promulgated, amended, or repealed in whole or part."

Updates to the regulations of the United States Coast Guard changed terminology applicable to lifejackets. As Virginia's boating agency, the Department is required to remain consistent with USCG requirements and regulations, thus serving as the impetus for this change.

Statement of Final Agency Action

Provide a statement of the final action taken by the agency including: 1) the date the action was taken; 2) the name of the agency taking the action; and 3) the title of the regulation.

The Board of Wildlife Resources adopted these final amendments to regulations found in 4VAC15-440 (Watercraft: Commercial Vessel Safety Equipment Requirements) at its meeting held on August 18, 2022.
