Statement of final agency action

Please provide a statement of the final action taken by the agency including: 1) the date the action was taken; 2) the name of the agency taking the action; and 3) the title of the regulation.

On June 16, 2016, the Department of Law submitted its initial Regulations for the Division of Human Rights to the Virginia Registrar for fast-track promulgation.

Legal basis

Please identify the state and/or federal legal authority to promulgate this proposed regulation, including: 1) the most relevant citations to the Code of Virginia or General Assembly chapter number(s), if applicable; and 2) promulgating entity, i.e., agency, board, or person. Your citation should include a specific provision authorizing the promulgating entity to regulate this specific subject or program, as well as a reference to the agency/board/person’s overall regulatory authority.

Section 2.2-520(B)(2) of the Code of Virginia states that it is the Department of Law’s Division of Human Rights duty to “[a]dopt, promulgate, amend, and rescind regulations consistent with this article pursuant to the Virginia Administrative Process Act (§ 2.2-4000 et seq.). However, the Division shall not have the authority to adopt regulations on a substantive matter when another state agency is authorized to adopt such acts.” Pursuant to section 2.2-3902 of the Code of Virginia, the Division is responsible for receiving, referring where appropriate, investigating, and attempting to conciliate complaints alleging an unlawful discriminatory practice under a Virginia or a federal statute regulation.

Purpose

Please explain the need for the new or amended regulation. Describe the rationale or justification of the proposed regulatory action. Describe the specific reasons the regulation is essential to protect the health, safety or welfare of citizens. Discuss the goals of the proposal and the problems the proposal is intended to solve.

It is the policy of the Commonwealth ensure that all Virginians are provided access to employment, places of public employment, including educational institutions, and in real estate transactions free from illegal discrimination. The Division adopts and promulgates these regulations to serve as the Division's regulations with regard to continuing the operations of the former Virginia Human Rights Council. After this fast-track process is completed, the Division intends to begin a general regulatory review process to consider and make any necessary substantive changes to the Division's regulations warranted by the General Assembly's elimination of the Virginia Human Rights Council and transfer of the HRC's administrative and operational duties to the Division.

Rationale for using fast-track process

Please explain the rationale for using the fast-track process in promulgating this regulation. Why do you expect this rulemaking to be noncontroversial?

The promulgation of this regulation should be noncontroversial because the Division is merely adopting the regulations of its predecessor, the Virginia Human Rights Council, with only the technical changes necessary to reflect the General Assembly's elimination of the HRC and transfer of its administrative and operational duties to the Division.

Substance

Please briefly identify and explain the new substantive provisions, the substantive changes to existing sections, or both. A more detailed discussion is provided in the "Detail of changes" section below.

There are no substantive provisions or changes to the former Virginia Human Rights Council's regulations, as the Division is merely making technical changes at this stage to reflect the General Assembly's elimination of the HRC and the subsequent transfer of the HRC's administrative and operational duties to the Division.

Issues

Please identify the issues associated with the proposed regulatory action, including: 1) the primary advantages and disadvantages to the public, such as individual private citizens or businesses, of implementing the new or amended provisions; 2) the primary advantages and disadvantages to the agency or the Commonwealth; and 3) other pertinent matters of interest to the regulated community, government officials, and the public. If there are no disadvantages to the public or the Commonwealth, please indicate.

The primary advantage of the Division's regulations is that the Virginia Administrative Code will be updated to accurately reflect that the operations of the former Virginia Human Rights Council have been transferred to the Division. There are no disadvantages to taking this action.

Requirements more restrictive than federal

Please identify and describe any requirement of the proposal which is more restrictive than applicable federal requirements. Include a rationale for the need for the more restrictive requirements. If there are

no applicable federal requirements or no requirements that exceed applicable federal requirements, include a statement to that effect.

The proposed regulations do not have any requirements that are more restrictive than applicable federal requirements.

Localities particularly affected

Please identify any locality particularly affected by the proposed regulation. Locality particularly affected means any locality which bears any identified disproportionate material impact which would not be experienced by other localities.

No localities should be particularly affected by the promulgation of the Division’s regulations.

Regulatory flexibility analysis

Pursuant to § 2.2-4007.1B of the Code of Virginia, please describe the agency’s analysis of alternative regulatory methods, consistent with health, safety, environmental, and economic welfare, that will accomplish the objectives of applicable law while minimizing the adverse impact on small business. Alternative regulatory methods include, at a minimum: 1) the establishment of less stringent compliance or reporting requirements; 2) the establishment of less stringent schedules or deadlines for compliance or reporting requirements; 3) the consolidation or simplification of compliance or reporting requirements; 4) the establishment of performance standards for small businesses to replace design or operational standards required in the proposed regulation; and 5) the exemption of small businesses from all or any part of the requirements contained in the proposed regulation.

The Division considers the proposed changes as the least burdensome, and no other alternatives were identified. The proposed regulations do not impact small businesses any differently than other businesses.

Economic impact

Please identify the anticipated economic impact of the proposed new regulations or amendments to the existing regulation. When describing a particular economic impact, please specify which new requirement or change in requirement creates the anticipated economic impact.

<p>Projected cost to the state to implement and enforce the proposed regulation, including: a) fund source / fund detail; and b) a delineation of one-time versus on-going expenditures</p>	<p>\$0. These Division is already using these regulations as guidance and is merely making technical changes as statutorily required to make the necessary changes to demonstrate the transfer of the regulations to the Division from the HRC.</p>

	of the regulations to the Division from the HRC.
Description of the individuals, businesses, or other entities likely to be affected by the new regulations or changes to existing regulations.	These regulations currently affect employers with 6 or more employees, places of public accommodation, and educational institutions. The technical changes offered by the Division do not alter the regulations' applicability to such entities.
Agency's best estimate of the number of such entities that will be affected. Please include an estimate of the number of small businesses affected. Small business means a business entity, including its affiliates, that: a) is independently owned and operated and; b) employs fewer than 500 full-time employees or has gross annual sales of less than \$6 million.	The Division received approximately 120-150 complaints per year alleging discrimination against the entities identified above.
All projected costs of the new regulations or changes to existing regulations for affected individuals, businesses, or other entities. Please be specific and include all costs including: a) the projected reporting, recordkeeping, and other administrative costs required for compliance by small businesses; and b) specify any costs related to the development of real estate for commercial or residential purposes that are a consequence of the proposed regulatory changes or new regulations.	\$0. The Division is already using the existing HRC regulations as guidance where applicable. Because the proposed changes are technical in nature, the Division does not foresee any additional projected costs to its current budget.
Beneficial impact the regulation is designed to produce.	This regulation will notify the public of the Division's succession of the former Human Rights Council and of our regulatory scheme for handling complaints of discrimination.

Alternatives

Please describe any viable alternatives to the proposal considered and the rationale used by the agency to select the least burdensome or intrusive alternative that meets the essential purpose of the action. Also, include discussion of less intrusive or less costly alternatives for small businesses, as defined in § 2.2-4007.1 of the Code of Virginia, of achieving the purpose of the regulation.

None.
