New Business:

Dr. David Rose, ACHDHE Chair, provided insights about the upcoming ACHDHE leadership elections 2024 for a two-year term, Chair and Vice Chair. He encouraged members to seek leadership within the ACHDHE. Dr. Rose briefly introduced the two new ACHDHE that were in attendance and asked them to share about themselves. The new members shared brief information about themselves.

UPDATES:

Office of Health Equity (OHE) Updates

Ms. Sandra Serna, Director Office of Health Equity, shared the following updates:

- During the 2024 session of the Virginia General Assembly, the Virginia Department of Health and the Office of Health Equity (VDH) diligently tracked several bills pertinent to health equity. Among these, four bills were assigned to the Office of Health Equity. The Henrietta Lacks Commission bill was the only one to receive the Governor's signature to sunset the commission on July 1, 2024. Nevertheless, efforts to advance the commission's objectives will persist in the local communities.
- Another noteworthy bill, HB 37, aimed at establishing a repayment program for behavioral health clinicians not covered by the existing behavioral health payment program, unfortunately stalled in committee. However, ongoing efforts involve collaboration with appropriations committees from both the Senate and the Virginia House of Delegates to incorporate a third tier into the conference budget. This tier would enable the creation of a program tailored for qualified mental health professionals, a recognized designation in Virginia.
- Lastly, the Office of Health Equity closely monitored two companion bills related to the Prescription Affordability Drug Board, both of which were vetoed by the Governor. Given the recurring introduction of such legislation in recent General Assemblies, ongoing vigilance is warranted. During discussions on these bills, a rural representative highlighted the financial strain faced by individuals in affording prescription drugs while also covering essential expenses. This testimony underscored the pressing need for legislative action. Ms. Serna emphasized the adoption of similar bills in other states including Maryland, signaling the need to address prescription affordability in Virginia.
