Notice of Intended Regulatory Action (NOIRA) Agency Background Document

Agency name	Virginia Board for Asbestos, Lead, and Home Inspectors
Virginia Administrative Code (VAC) Chapter citation(s)	18 VAC15-30
VAC Chapter title(s)	Virginia Lead-Based Paint Activities Regulations
Action title	General Review of Virginia Lead-Based Paint Activities Regulations
Date this document prepared	October 20, 2023

This information is required for executive branch review and the Virginia Registrar of Regulations, pursuant to the Virginia Administrative Process Act (APA), Executive Order 19 (2022) (EO 19), any instructions or procedures issued by the Office of Regulatory Management (ORM) or the Department of Planning and Budget (DPB) pursuant to EO 19, the Regulations for Filing and Publishing Agency Regulations (1 VAC 7-10), and the *Form and Style Requirements for the Virginia Register of Regulations and Virginia Administrative Code*.

Brief Summary

Provide a brief summary (preferably no more than 2 or 3 paragraphs) of the subject matter, intent, and goals of this regulatory change (i.e., new regulation, amendments to an existing regulation, or repeal of an existing regulation).

The Virginia Board for Asbestos, Lead, and Home Inspectors (“the Board”) intends to undertake a general regulatory review of the Virginia Lead-Based Paint Activities Regulations. The regulation provides for the licensure of lead abatement workers, lead project designers, lead abatement supervisors, lead inspectors, lead risk assessors, lead contractors, and the accreditation of lead training programs.

The goals of the action include:

1. Review of discretionary requirements imposed on regulated parties to determine whether such requirements impose burdens that are not necessary to protect the public health, safety, and welfare; or are not necessary to effectively administer the licensure program, in accordance with the regulatory reduction goal of Executive Directive Number One (2022);
2. Review to ensure the regulation complements current Virginia law and meets applicable federal requirements, if any;

3. Review to ensure the regulation is organized, clear, and understandable; and
4. Review to ensure the regulation provides minimal burdens on regulants while still protecting the public.

In addition, the review will ensure the regulation reflects current DPOR procedures and policies, along with any other changes determined to be necessary and appropriate.

Acronyms and Definitions

Define all acronyms or technical definitions used in this form.

"DPOR" means Department of Professional and Occupational Regulation.

"Child-occupied facility" means a building, or portion of a building, constructed prior to 1978, visited regularly by the same child, six years of age or under, on at least two different days, within any week (Sunday through Saturday period), provided that each day's visit lasts at least three hours and the combined weekly visit lasts six hours, and the combined annual visits last at least 60 hours. Child-occupied facilities may include, but are not limited to, day-care centers, preschools and kindergarten classrooms.

"Target housing" means any housing constructed prior to 1978, except for housing for the elderly, or persons with disabilities (unless any one or more children age six years or under resides or is expected to reside in such housing for the elderly or persons with disabilities) or any zero-bedroom dwelling.

Mandate and Impetus

Identify the mandate for this regulatory change and any other impetus that specifically prompted its initiation, (e.g., new or modified mandate, petition for rulemaking, periodic review, or board decision). For purposes of executive branch review, "mandate" has the same meaning as defined in the ORM procedures, "a directive from the General Assembly, the federal government, or a court that requires that a regulation be promulgated, amended, or repealed in whole or part."

The impetus for this regulatory action is Executive Directive Number One (2022), which directs Executive Branch entities under the authority of the Governor "...to initiate regulatory processes to reduce by at least 25 percent the number of regulations not mandated by federal or state statute, in consultation with the Office of the Attorney General, and in a manner consistent with the laws of the Commonwealth."

This action is not the result of a mandate.

Legal Basis

Identify (1) the promulgating agency, and (2) the state and/or federal legal authority for the regulatory change, including the most relevant citations to the Code of Virginia and Acts of Assembly chapter number(s), if applicable. Your citation must include a specific provision, if any, authorizing the promulgating agency to regulate this specific subject or program, as well as a reference to the agency's overall regulatory authority.

The agency is Virginia Board for Asbestos, Lead, and Home Inspectors.

Section 54.1-201 of the Code of Virginia provides, in part:

A. The powers and duties of regulatory boards shall be as follows:

1. To establish the qualifications of applicants for certification or licensure by any such board, provided that all qualifications shall be necessary to ensure either competence or integrity to engage in such profession or occupation.

5. To promulgate regulations in accordance with the Administrative Process Act (§ 2.2-4000 et seq.) necessary to assure continued competency, to prevent deceptive or misleading practices by practitioners and to effectively administer the regulatory system administered by the regulatory board. The regulations shall not be in conflict with the purposes and intent of this chapter or of Chapters 1 (§ 54.1-100 et seq.) and 3 (§ 54.1-300 et seq.) of this title.

Purpose

Describe the specific reasons why the agency has determined that this regulation is essential to protect the health, safety, or welfare of citizens. In addition, explain any potential issues that may need to be addressed as the regulation is developed.

The General Assembly has charged the Board with the responsibility for regulating those who engage in lead abatement work, prepare abatement project designs, supervise lead abatement projects, conduct lead inspections, and perform lead risk assessments in target housing and child-occupied facilities. The General Assembly has also charged the Board with the responsibility for regulating firms that perform lead abatements in target housing and child-occupied facilities as well as the accreditation of lead-based paint activities training programs.

As mandated by the General Assembly, the Board protects the public welfare, in part, by establishing through regulation (i) the minimum qualifications of applicants for certification or licensure, provided that all qualifications are necessary to ensure either competence or integrity to engage in the profession or occupation; (ii) minimum standards to assure continued competency and to prevent deceptive or misleading practices by practitioners; and (iii) requirements to effectively administer the regulatory system administered by the Board.

As the regulation is developed, the Board, in accordance with Executive Directive Number One (2022), will review discretionary requirements imposed on regulated parties to determine whether such requirements impose burdens that are not necessary to protect the public health, safety, and welfare; or are not necessary to effectively administer the licensure program. To the extent any such current requirement may not be necessary to protect the public health, safety, and welfare, or not necessary to effectively administer the licensure program, the Board will consider eliminating the requirement.

These issues are not inclusive of all potential issues that may be addressed during development of the regulation.

Substance

Briefly identify and explain the new substantive provisions that are being considered, the substantive changes to existing sections that are being considered, or both.

The Board has formed a regulatory review committee composed of members of the Board and other individuals involved in the lead-based paint abatement industry to conduct a review of this regulation. The

committee’s membership includes a representative of a lead contractor, lead risk assessors, and a representative of a lead training program provider. The committee’s membership also includes representatives from the Department of Housing and Community Development and the Department of Labor and Industry.

At this time, there are no new substantive provisions or substantive changes to existing provisions that are being considered.

As the regulation is developed, the Board, in accordance with Executive Directive Number One (2022), will review discretionary requirements imposed on regulated parties to determine whether such requirements impose burdens that are not necessary to protect the public health, safety, and welfare; or are not necessary to effectively administer the licensure program. To the extent any such current requirement may not be necessary to protect the public health, safety, and welfare, or not necessary to effectively administer the licensure program, the Board will consider eliminating the requirement.

Alternatives to Regulation

Describe any viable alternatives to the regulatory change that were considered, and the rationale used by the agency to select the least burdensome or intrusive alternative that meets the essential purpose of the regulatory change. Also, include discussion of less intrusive or less costly alternatives for small businesses, as defined in § 2.2-4007.1 of the Code of Virginia, of achieving the purpose of the regulatory change.

A goal of this regulatory action is to review of discretionary requirements imposed on regulated parties to determine whether such requirements impose burdens that are not necessary to protect the public health, safety, and welfare; or are not necessary to effectively administer the licensure program, in accordance with the regulatory reduction goal of Executive Directive Number One (2022). As the regulation is developed, the Board will consider potential alternatives to existing requirements that may be less burdensome or intrusive while still meeting the essential purpose of the regulation.

Periodic Review and Small Business Impact Review Announcement

If you wish to use this regulatory action to conduct, and this NOIRA to announce, a periodic review (pursuant to § 2.2-4017 of the Code of Virginia and the ORM procedures), and a small business impact review (§ 2.2-4007.1 of the Code of Virginia) of this regulation, keep the following text. Modify it as necessary for your agency. Otherwise, delete the paragraph below and insert “This NOIRA is not being used to announce a periodic review or a small business impact review.”

This NOIRA is not being used to announce a periodic review or a small business impact review.

Public Participation

Indicate how the public should contact the agency to submit comments on this regulation, and whether a public hearing will be held, by completing the text below. In addition, as required by § 2.2-4007.02 of the Code of Virginia, describe any other means that will be used to identify and notify interested parties and seek their input, such as regulatory advisory panels or general notices.

The Board has formed a regulatory review committee composed of members of the Board and other individuals involved in the lead-based paint abatement industry to conduct a review of this regulation. Meetings of the committee will include opportunities for public comment.

The Virginia Board for Asbestos, Lead, and Home Inspectors is providing an opportunity for comments on this regulatory proposal, including but not limited to (i) the costs and benefits of the regulatory proposal, (ii) any alternative approaches, and (iii) the potential impacts of the regulation.

Anyone wishing to submit written comments for the public comment file may do so through the Public Comment Forums feature of the Virginia Regulatory Town Hall web site at: <https://townhall.virginia.gov>.

Comments may also be submitted by mail, email or fax to:

Tanya M. Pettus
Board Administrator
9960 Mayland Drive
Perimeter Center, Suite 400
Richmond, VA 23233
[Board Email Address]
(866) 350-5354 (fax)

In order to be considered, comments must be received by 11:59 pm on the last day of the public comment period.

A public hearing will be held following the publication of the proposed stage, and notice of the hearing will be posted on the Virginia Regulatory Town Hall website (<https://townhall.virginia.gov>) and on the Commonwealth Calendar website (<https://commonwealthcalendar.virginia.gov/>). Both oral and written comments may be submitted at that time.
