Office of Regulatory Management

Economic Review Form

Agency name	Board of Wildlife Resources
Virginia Administrative Code (VAC) Chapter citation(s)	4 VAC 15-390
VAC Chapter title(s)	Watercraft: Safe and Reasonable Operation of Vessels
Action title	No wake zone near emergency vessels with lights on
Date this document prepared	October 11, 2022

Cost Benefit Analysis

Table 1a must be completed for all actions. Tables 1b and 1c must be completed for actions (or portions thereof) where the agency is exercising discretion, including those where some of the changes are mandated by state or federal law or regulation. Tables 1b and 1c are not needed if <u>all</u> changes are mandated, and the agency is not exercising any discretion. In that case, enter a statement to that effect.

- (1) Direct Costs & Benefits: Identify all specific, direct economic impacts (costs and/or benefits), anticipated to result from the regulatory change. (A direct impact is one that affects entities regulated by the agency and which directly results from the regulatory change itself, without any intervening steps or effects. For example, the direct impact of a regulatory fee change is the change in costs for these regulated entities.) When describing a particular economic impact, specify which new requirement or change in requirement creates the anticipated economic impact. Keep in mind that this is the proposed change versus the status quo. One bullet has been provided, add additional bullets as needed.
- (2) Ouantitative Factors:
 - (a) Enter estimated dollar value of total (overall) direct costs described above.
 - (b) Enter estimated dollar value of total (overall) direct benefits described above.
 - (c) Enter the present value of the direct costs based on the worksheet.
 - (d) Enter the present value of the direct benefits based on the worksheet.
- (3) Benefits-Costs Ratio: Calculate d divided by c OR enter it from the worksheet.
- (4) Net Benefit: Calculate d minus c OR enter it from the worksheet.
- (5) Indirect Costs & Benefits: Identify all specific, indirect economic impacts (costs and/or benefits), anticipated to result from the regulatory change. (An indirect impact is one that results from responses to the regulatory change, but which are not directly required by the regulation. Indirect impacts of a regulatory fee change on regulated entities could include a change in the prices they charge, changes in their operating procedures or employment levels, or decisions to enter or exit the regulated profession or market. Indirect impacts also include responses by other entities that have close economic ties to the regulated entities, such as suppliers or partners.) If there are no indirect costs or benefits, include a specific statement to that effect.

- (6) Information Sources: Describe the sources of information used to determine the benefits and costs, including the source of the Quantitative Factors. If dollar amounts are not available, indicate why they are not.
- (7) Optional: Use this space to add any further information regarding the data provided in this table, including calculations, qualitative assessments, etc.

Table 1a: Costs and Benefits of the Proposed Changes (Primary Option)

	nd Benefits of the Proposed Ch	nanges (Prin	nary Option)	
(1) Direct Costs & Benefits	 Requiring that boaters encountering an emergency vessel with its lights on reduce their speed to a "no wake" speed if they are going to pass within 200 feet of the emergency vessel Direct Costs: No direct economic cost is believed to be experienced from this change. Direct Benefits: No direct economic benefit is believed to be experienced from this change. 			
(2) 0		1		
(2) Quantitative	F .: . 15 !!	7.1		
Factors	Estimated Dollar Amount	Present Value		
Direct Costs	(a) None	(c) None		
Direct Benefits	(b) None	(d) None		
(3) Benefits-	Indeterminate	(4) Net	Indeterminate	
Costs Ratio		Benefit		
(5) Indirect Costs & Benefits	An indirect benefit of this change is the protection of life and safety of law enforcement, emergency responders, and the boating public. There are no indirect costs anticipated.			
(6) Information Sources	Department of Wildlife Resources Law Enforcement Division			
(7) Optional				

Table 1b: Costs and Benefits under the Status Quo (No change to the regulation)

This table addresses current requirements and the implications of not making any changes. In other words, describe the costs and benefits of maintaining the current regulatory requirements as is.

(1) Direct Costs & Benefits	 Requiring that boaters encountering an emergency vessel with its lights on reduce their speed to a "no wake" speed if they are going to pass within 200 feet of the emergency vessel Direct Costs: No direct economic cost is believed to be experienced from leaving the status quo in place. Direct Benefits: No direct economic benefit is believed to be experienced from leaving the status quo in place. 			
(2) Quantitative				
Factors	Estimated Dollar Amount	Present Value		
Direct Costs	(a) None	(c) None		
Direct Benefits	(b) None	(d) None		
(3) Benefits- Costs Ratio	Indeterminate	(4) Net Benefit	Indeterminate	
(5) Indirect Costs & Benefits (6) Information Sources (7) Optional	An indirect cost of leaving the status quo in place is the current risk to law enforcement, emergency responders, and the boating public of having boats pass emergency vessels with their lights on at a high rate of speed, thus increasing the chances of an accident. Department of Wildlife Resources Law Enforcement Division			

Table 1c: Costs and Benefits under an Alternative Approach

This table addresses an alternative approach to accomplishing the objectives with different requirements. These alternative approaches may include the use of reasonably available alternatives in lieu of regulation, or information disclosure requirements or performance standards instead of regulatory mandates.

(1) Direct Costs	Requiring that boaters encountering an emergency vessel with
& Benefits	its lights on reduce their speed to a "no wake" speed if they are
	going to pass within 200 feet of the emergency vessel

	Direct Costs: No alternatives other than the change or the status quo are believed to have any alternative economic impacts. Direct Benefits: No alternatives other than the change or the status quo are believed to have any alternative economic impacts.			
(2) Quantitative Factors	Estimated Dollar Amount	Progent Va	dua	
Direct Costs	(a) Indeterminate	Present Value (c) Indeterminate		
Direct Benefits	(b) Indeterminate	(d) Indeterminate		
(3) Benefits- Costs Ratio	Indeterminate	(4) Net Benefit	Indeterminate	
(5) Indirect Costs & Benefits	Indeterminate			
(6) Information Sources	Department of Wildlife Resources Law Enforcement Division			
(7) Optional				

Impact on Local Partners

- (1) Describe the direct costs and benefits (as defined on page 1) for local partners in terms of real monetary costs and FTEs. Local partners include local or tribal governments, school divisions, or other local or regional authorities, boards, or commissions. If local partners are not affected, include a specific statement to that effect and a brief explanation of the rationale.
- (2) Quantitative Factors:
 - (a) Enter estimated dollar value of total (overall) direct costs described above.
 - (b) Enter estimated dollar value of total (overall) direct benefits described above.
- (3) Indirect Costs & Benefits: Describe any indirect benefits and costs (as defined on page 1) for local partners that are associated with all significant changes. If there are no indirect costs or benefits, include a specific statement to that effect.

- (4) Information Sources: describe the sources of information used to determine the benefits and costs, including the source of the Quantitative Factors. If dollar amounts are not available, indicate why they are not.
- (5) Assistance: Identify the amount and source of assistance provided for compliance in both funding and training or other technical implementation assistance.
- (6) Optional: Use this space to add any further information regarding the data provided in this table, including calculations, qualitative assessments, etc.

Note: If any of the above information was included in Table 1, use the same information here.

Economic Impacts on Families

- (1) Describe the direct costs and benefits (as defined on page 1) to a typical family of three (average family size in Virginia according to the U. S. Census) arising from any proposed regulatory changes that would affect the costs of food, energy, housing, transportation, healthcare, and education. If families are not affected, include a specific statement to that effect and a brief explanation of the rationale.
- (2) Quantitative Factors:
 - (a) Enter estimated dollar value of direct costs.
 - (b) Enter estimated dollar value of direct benefits.

- (3) Indirect Costs & Benefits: Describe any indirect costs and benefits (as defined on page 1) to a typical family of three that are most likely to result from the proposed changes.
- (4) Information Sources: describe the sources of information used to determine the benefits and costs, including the source of the Quantitative Factors. If dollar amounts are not available, indicate why not.
- (5) Optional: Use this space to add any further information regarding the data provided in this table, including calculations, qualitative assessments, etc.

Note: If any of the above information was included in Table 1, use the same information here.

Table 3: Impact on Families

(1) Direct Costs & Benefits	Families are not anticipated to be affected directly by these regulatory changes.
(2) Quantitative Factors Direct Costs	Estimated Dollar Amount (a) N/A
Direct Benefits	(b) N/A
(3) Indirect Costs & Benefits	No indirect costs and benefits are anticipated.
(4) Information Sources	Department of Wildlife Resources Law Enforcement Division
(5) Optional	

Impacts on Small Businesses

- (1) Describe the direct costs and benefits (as defined on page 1) for small businesses. For purposes of this analysis, "small business" means the same as that term is defined in § 2.2-4007.1. If small businesses are not affected, include a specific statement to that effect and a brief explanation of the rationale.
- (2) Quantitative Factors:
 - (a) Enter estimated dollar value of direct costs.
 - (b) Enter estimated dollar value of direct benefits.
- (3) Indirect Costs & Benefits: Describe the indirect benefits and costs (as defined on page 1) for small businesses that are most likely to result from the proposed changes.

- (4) Alternatives: Add a qualitative discussion of any equally effective alternatives that would make the regulatory burden on small business more equitable compared to other affected business sectors, and how those alternatives were identified.
- (5) Information Sources: describe the sources of information used to determine the benefits and costs, including the source of the Quantitative Factors. If dollar amounts are not available, indicate why not.
- (6) Optional: Use this space to add any further information regarding the data provided in this table, including calculations, qualitative assessments, etc.

Note: If any of the above information was included in Table 1, use the same information here.

Changes to Number of Regulatory Requirements

For each individual VAC Chapter amended, repealed, or promulgated by this regulatory action, list (a) the initial requirement count, (b) the count of requirements that this regulatory package is adding, (c) the count of requirements that this regulatory package is reducing, (d) the net change in the number of requirements. This count should be based upon the text as written when this stage was presented for executive branch review. Five rows have been provided, add or delete rows as needed.

Table 5: Total Number of Requirements

	Number of Requirements			
Chapter number	Initial Count	Additions	Subtractions	Net Change
4 VAC 15-390- 85	0 (new section)	1	0	1
