Cost Benefit Analysis

Complete Tables 1a and 1b for all regulatory actions. You do not need to complete Table 1c if the regulatory action is required by state statute or federal statute or regulation and leaves no discretion in its implementation.

Table 1a should provide analysis for the regulatory approach you are taking. Table 1b should provide analysis for the approach of leaving the current regulations intact (i.e., no further change is implemented). Table 1c should provide analysis for at least one alternative approach. You should not limit yourself to one alternative, however, and can add additional charts as needed.

Report both direct and indirect costs and benefits that can be monetized in Boxes 1 and 2. Report direct and indirect costs and benefits that cannot be monetized in Box 4. See the ORM Regulatory Economic Analysis Manual for additional guidance.

Table 1a: Costs and Benefits of the Proposed Changes (Primary Option)

(1) Direct & Indirect Costs & Benefits (Monetized)	As part of the repeal of the Board of Health Professions pursuant to Chapter 341 of the 2025 General Assembly, the department is moving regulations previously housed under 18VAC75-20 and 18VAC75-40 into new chapters 18VAC76-50 and 18VAC76-60. This ensures statutory duties performed by the Board of Health Professions will continue to be performed by other boards within the department. This action has no direct or indirect costs or benefits.
