

INFORMATION ON TEXT OF 24 VAC 30-240-10

VDOT consulted with the Registrar's Office as to how this regulation should be filed, because it is essentially a series of forms. Since previous filings have been made by description, the Registrar directed that VDOT follow this practice for the proposed amendments. An application to file the regulation by description was filed with the Registrar on April 30, 2001. Under the rules established in the Registrar's Form, Style, and Procedure Manual, regulations exempt from the APA under the provisions of § 9-6.14:4.1 B become effective upon filing, so the amended regulation became effective upon receipt by the Registrar. VDOT expects the regulation will be published in *The Virginia Register* in the spring of 2001.

Forms (C-32, C-46, a Personal Financial Statement Form, and a Program Registration Form), and information concerning the Prequalification process & DBE Program administered by the Equal Opportunity Division and the Construction Division are available from the following website:
