Re: Authority to Amend and Adopt Regulations pertaining to Reverse Signal  
Alarms 16 VAC 25-96 and 16 VAC 25-97; Proposed Rule

Dear Mr. Burkhart:

I have reviewed the above-referenced regulatory amendments and adoptions establishing a comprehensive approach to regulating requirements for vehicles having an obstructed view to the rear. It is my opinion that the Safety and Health Codes Board has authority to promulgate such amendments as proposed under applicable law, including Chapter 3 of Title 40.1 of the *Code of Virginia*.

If I may be of any further assistance to you relating to this matter, please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script, appearing to read "Alfred B. Albiston".
