MEDICAID MEMO

TO: Virginia Medicaid Participating Healthcare Providers and Managed Care Organizations, Except Dental

FROM: Karen Kimsey, Director
Department of Medical Assistance Services (DMAS)

DATE: TBD

SUBJECT: Dental Coverage for Medicaid Enrolled Adults (21 years of age and older)
Effective July 1, 2021

The purpose of this memorandum is to inform you of the Department of Medical Assistance Services (DMAS) implementation of dental coverage for adults, age 21 years and over, enrolled in Medicaid. The coverage includes comprehensive dental services and will begin July 1, 2021.

BACKGROUND

In Governor Ralph Northam's 2021 budget, funds were allocated to provide oral health care for up to 750,000 adults through Virginia's Medicaid dental program, *Smiles For Children (SFC)*. Beginning July 1, 2021, Virginia's nationally recognized *SFC* program will continue to provide dental benefits to children age 20 and below, and pregnant women but will now add coverage to adults in Medicaid. Dental coverage for adults enrolled in Medicaid will focus on overall oral health, prevention and restoration and will be similar to the coverage currently available to pregnant women.

DENTAL BENEFITS ADMINISTRATOR – DENTAQUEST

DentaQuest is the Medicaid dental benefits administrator (DBA) for the *SFC* program. They administer the dental coverage and benefits for all Medicaid and FAMIS covered members including those enrolled in both managed care, FFS and members with special needs. Information regarding dental benefits for all members, including how dentists can enroll in the program is posted on DentaQuest's website located at www.dentaquest.com or can be found on the DMAS website at <https://www.dmas.virginia.gov/#/dentalservices>. Information may also be obtained by calling the *SFC* program at 1-888-912-3456.

CONTACT INFORMATION:

How can I help adults enrolled in Medicaid find a dentist?

Option 1: Call the *SFC* program at 1-888-912-3456. A representative can even help the member make an appointment. The call center is available 8 a.m. – 6 p.m., Monday through Friday.

Option 2: Visit the website at www.DentaQuest.com

SMILES FOR CHILDREN (SFC) SERVICES FOR ADULTS

DMAS is working with its Dental Advisory Committee (DAC) and with its dental benefits administrator, DentaQuest, to design an oral health program for adults enrolled in Medicaid. These new services will include the following:

- Diagnostic (x-rays, exams);
- Preventive (cleanings);
- Restorative (fillings and crowns);
- Endodontics (root canals, Pulpal Debridement);
- Periodontics (gum related treatment);
- Prosthodontics (dentures and partials);
- Oral surgery (extractions, alveoplasty and other oral surgeries), and;
- Adjunctive general services (anesthesia).

Dental providers' who wish to treat adults must be credentialed by DentaQuest, and participate in Virginia's *SFC* dental provider network.

Adults will be able to access non-emergency transportation services to participate in dental care.

Transportation for adults in fee-for-service (FFS) will be provided by ModivCare, formerly LogistiCare the DMAS FFS transportation broker. Transportation for adults enrolled in managed care will be handled by the Managed Care Organization's (MCO) Non-Emergency Transportation (NEMT) vendor. FFS and MCO NEMT contact telephone numbers for reservations and ride assist can be found at: https://www.dmas.virginia.gov/#/nemt_services by clicking on Transportation Contacts for Reservation and Ride Assist/Customer Service. Any enhanced dental benefits offered by the Managed Care Plans with end effective June 30, 2021.

Covered Services for Adults Enrolled In Medicaid as of July 1, 2021

Specialty Area	Description	Services Covered	Limitations
Diagnostic and Preventive Care	Services that are used to detect and recognize caries and periodontal disease. Up to three routine cleanings may be permissible	Exams, routine cleanings, X-rays	Non routine x-rays such as imaging and cone beam technology would require prior authorization
Restorative Care	Specialty allows dentists to restore teeth to proper function	Fillings and crowns	Crowns are covered when a root canal is done while member is under the adult dental program. Bridges are covered.
Endodontics	Specialty allows dentists to perform root canals on teeth that have sound below the gum structure (root) yet the above gum structure is compromised (decay or trauma)	Root canals Pulpal Debridement	Endodontic retreatment and surgical procedures that have a questionable success rate
Periodontics	Specialty focuses on keeping gums and the bone below the gums healthy.	Scaling and Root Planing Gingivectomies Periodontal maintenance procedures	Periodontal flap procedures, crown lengthening procedures, bone replacement grafts
Dentures and Partial	Specialty focuses on replacing teeth with removal appliances	Dentures, Partial, and Repair procedures	Partial are covered as a part of a definitive treatment plan
Oral Surgery	Specialty routinely extracts teeth and performs extractions requiring surgical methods such as removing bone	Extractions Alveoplasty	Non-tooth extraction procedures; Surgery necessitated by trauma; and

Implants			
Adjunctive General Services	This area while not a specialty is important in that it allows coding for anesthesia services and many other dental procedures not listed elsewhere.	Anesthesia Services	Non anesthesia services may require prior authorization

*DMAS will publish specific CDT codes and benefit limitations prior to 7/1/2021.
