Effectiveness

Pursuant to § 2.2-4017 of the Code of Virginia, indicate whether the regulation meets the criteria set out in the ORM procedures, including why the regulation is (a) necessary for the protection of public health, safety, and welfare, and (b) is clearly written and easily understandable.

The regulation is necessary pursuant to Section [2.2-1105](#) of the Code of Virginia, which directs the Division of Consolidated Laboratory Services to establish a program to certify environmental laboratories that perform tests, analyses, measurements, or monitoring required pursuant to the Commonwealth's air, waste, and water laws and regulations. The regulation is written clearly and is easily understandable by outlining the required standards and the process by which owners of noncommercial environmental laboratories may obtain certification for their laboratories.

Decision

Explain the basis for the promulgating agency's decision (retain the regulation as is without making changes, amend the regulation, or repeal the regulation).

If the result of the periodic review is to retain the regulation as is, complete the ORM Economic Impact form.

After receiving no comments during the public comment period [5/4/2026 – 5/25/2026], DGS proposes to retain these regulations without change and has completed the ORM Economic Impact form.

Small Business Impact

As required by § 2.2-4007.1 E and F of the Code of Virginia, discuss the agency's consideration of: (1) the continued need for the regulation; (2) the nature of complaints or comments received concerning the regulation; (3) the complexity of the regulation; (4) the extent to which the regulation overlaps, duplicates, or conflicts with federal or state law or regulation; and (5) the length of time since the regulation has been evaluated or the degree to which technology, economic conditions, or other factors have changed in the area affected by the regulation. Also, discuss why the agency's decision, consistent with applicable law, will minimize the economic impact of regulations on small businesses.

Since there are no changes to the current regulations, DGS has determined that there is no effect on the economic impact of small businesses as currently written that have not previously been documented.
