- (1) June 9, 2015

AGENCY DIRECTOR'S REPORT – Dr. David Brown, D.C.

Dr. Brown welcomed the newest members to the board and told them what a great privilege they have to represent the Commonwealth in its mission to protect the public. Dr. Brown reminded everyone of the two upcoming board training events being held at DHP. September 28th titled Board Development Training was for more seasoned members to drill down and learn the essentials when dealing with disciplinary matters. He added that October 16th was for new board members to gain a broad overview of the agency and what it takes to become an effective board member.

PRESENTATION – Randy Lindner, President & CEO of NAB

Randy Lindner began by providing an overview of the National Association of Long Term Care Administrators (NAB); their mission and strategic goals; who the stakeholder's involved were; and the benefits they provide to State Regulatory Boards. He touched on NCERS; the Academic Accreditation Programs, and the National Examinations and publications.

Mr. Lindner then spoke more in depth about **Health Services Executive (HSE)**, exploring a new vision for the profession. He explained some of the benefits were:

- Provides career progression for executive leadership (across multiple service lines)
- Facilitates jurisdictional mobility
- Provides groundwork for international leadership development models
- Creates efficient credentialing model for jurisdictions
- Enhances image of the profession
- Responsive to employer needs
- Streamlines the licensees' acquisition of second and third credentials
- Breaks down the silos of competence and acknowledges foundational practice standards
- Provides standards against which curriculum content can be evaluated/validated
- Contributes to consumer confidence re: consistency and quality of care

Mr. Lindner provided results of the studies that were conducted and made a request to the Virginia Board to recognize in regulations the HSE as meeting licensure requirements for NHA, RCAL and/or HCBS.

EXECUTIVE DIRECTOR'S REPORT – Lisa R. Hahn

Ms. Hahn gave welcome to Mitchell P. Davis, NHA & Mary B. Brydon, Citizen Member as the newest members on the board and to Martha Hunt, ALFA as a returning board member. She also welcomed Randy Lindner, President & CEO of NAB and again thanked him for his presentation about the new Health Service Executive (HSE) Credential.

Board Business

SHEV

Ms. Hahn reported that she contacted Dr. Joseph DeFilippo at the State Council of Higher Education for Virginia to discuss the best method of disseminating information to the colleges and universities in order to educate students on the licensure process to become a NHA or ALFA. We have had occasions where students have contacted the board to become licensed only to find out that they must first complete an internship and take a national examination. Some have a false impressions that once they graduate with a degree in HC administration (with no internship) that they are qualified to enter the field. Ms. Hahn was please to conclude that Dr. DeFilippo is very much interested in helping to resolve this issue and stated she would keep the board updated as more information becomes available.

NAB Business

Ms. Hahn reported that she and Karen Hopkins Stanfield attended the Annual Meeting held in Philadelphia in June as she serves on the Board of Directors and NAB's treasurer. Karen served as our voting state delegate. Ms. Hahn shared that Key Topic Points at the meeting were:

- Implementation plan for the Professional Practice Analysis (PPA) and the new Health Services Executive (HSE) which Randy Lindner presented on.
- Drafting of the new AIT Manual which will serve as a guide for state boards and agencies as well as provide the tools and knowledge needed by students to become effective administrators.
- Approval of a new NCERS website from Learning Builder which will allow NAB to streamline the review and approval process for continuing education programs.
- NAB Attendees had the opportunity to screen the "Glen Campbell...I'll Be Me" documentary which left everyone with a sense of compassion for those that suffer from Alzheimer's and the people that help them try to live their lives with dignity.

Ms. Hahn concluded that she also attended a Leadership Retreat for the NAB Executive board during August 2015 and that she and Karen will be attending the Mid-Year meeting in November.

Staffing Notes

Ms. Hahn highlighted her staff's involvement serving in leadership positions on agency and association committees.

- Lynne Helmick serves as Chair of the DHP Safety Committee. Lynne is also working with the Compliance Work Group for the new MLO Licensing Software.
- Kathy Petersen serves as Chair of the DHP Social Planning Committee. She will be serving on the Discipline Work Group for the new MLO Software.
- Kathy has been instrumental in creating a “Naming Convention” Policy & Guidelines for storing Disciplinary cases electronically for archival and storage purposes.
- Missy Currier attended the Commonwealth Management Institute last spring. Missy was recently appointed as Secretary/Treasurer of the DHP Bonus Committee. She also is involved with the Licensing Work Group for MLO.
- Laura Mueller (Licensing Specialist) served on the DHP “On Boarding” Committee tasked to ensure that each new employee receives a consistent orientation to the Agency.
- All FunPaLS staff will be assisting with the October 16th New Board Member Orientation day.

Board Communications

- If you have a change of address, email address, cell phone number, please remember to contact us so that we have the most current information.
- Please try to respond to email requests within a timely manner especially when the email requests a reply for availability or a response to a licensure or disciplinary question.

Ms. Hahn thanked the board for all their hard work & dedication!

Patient Care Disciplinary Case Processing Times:

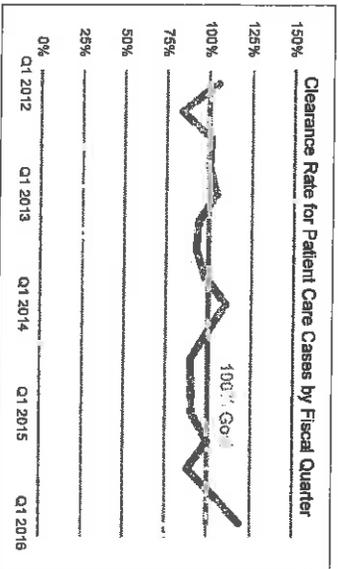

Quarterly Performance Measurement, Q1 2012 - Q1 2016

David E. Brown, D.C.
Director

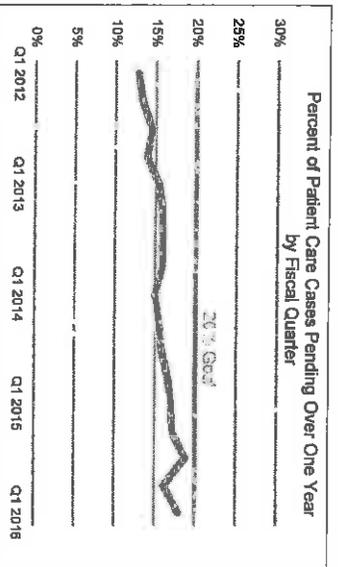

"To ensure safe and competent patient care by licensing health professionals, enforcing standards of practice, and providing information to health care practitioners and the public."
DHP Mission Statement

In order to uphold its mission relating to discipline, DHP continually assesses and reports on performance. Extensive trend information is provided on the DHP website, in biennial reports, and, most recently, on Virginia Performs through Key Performance Measures (KPMs). KPMs offer a concise, balanced, and data-based way to measure disciplinary case processing. These three measures, taken together, enable staff to identify and focus on areas of greatest importance in managing the disciplinary caseload: Clearance Rate, Age of Pending Caseload and Time to Disposition uphold the objectives of the DHP mission statement. The following pages show the KPMs by board, listed in order by caseload volume; volume is defined as the number of cases received during the previous 4 quarters. In addition, readers should be aware that vertical scales on the line charts change, both across boards and measures, in order to accommodate varying degrees of data fluctuation.

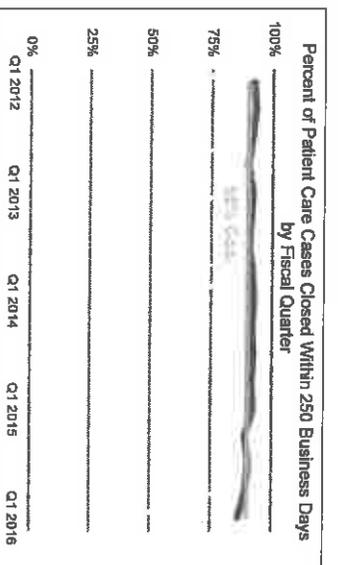

Clearance Rate - the number of closed cases as a percentage of the number of received cases. A 100% clearance rate means that the agency is closing the same number of cases as it receives each quarter. DHP's goal is to maintain a 100% clearance rate of allegations of misconduct through the end of FY 2016. The current quarter's clearance rate is 119%, with 859 patient care cases received and 1,021 closed.

Age of Pending Caseload - the percent of open patient care cases over 250 business days old. This measure tracks the backlog of patient care cases older than 250 business days to aid management in providing specific closure targets. The goal is to maintain the percentage of open patient care cases older than 250 business days at no more than 20% through the end of FY 2016. The current quarter shows 18% patient care cases pending over 250 business days with 2,405 patient care cases pending and 438 pending over 250 business days.

Time to Disposition - the percent of patient care cases closed within 250 business days for cases received within the preceding eight quarters. This moving eight-quarter window approach captures the vast majority of cases closed in a given quarter and effectively removes any undue influence of the oldest cases on the measure. The goal is to resolve 90% of patient care cases within 250 business days through the end of FY 2016. The current quarter shows 87% percent of patient care cases being resolved within 250 business days with 897 cases closed and 862 closed within 250 business days.

*July 2014 Population Estimates
from the University of Virginia's
Weldon Cooper Center for Public Service*

468 Assisted Living Facility Administrators (ALFAs) voluntarily took part in the 2015 Assisted Living Facility Administrator Workforce Survey. The Virginia Department of Health Professions' Healthcare Workforce Data Center (HWDC) administers the survey during the license renewal process, which takes place every March for ALFAs. These survey respondents represent 70% of the 673 ALFAs who are licensed in the state and 85% of renewing practitioners.

The HWDC estimates that 628 ALFAs participated in Virginia's workforce during the survey period, which is defined as those who worked at least a portion of the year in the state or who live in the state and intend to return to work as an ALFA at some point in the future. Between April 2014 and March 2015, Virginia's ALFA workforce provided 740 "full-time equivalency units", which the HWDC defines simply as working 2,000 hours a year (or 40 hours per week for 50 weeks with 2 weeks off).

83% of ALFAs are female, including 79% of those ALFAs who are under the age of 40. In a random encounter between two ALFAs, there is a 39% chance that they would be of different races or ethnicities, a measure known as the diversity index. Although this percentage increases to 42% for those ALFAs who are under the age of 40, this still remains below the diversity index of 54% for Virginia's overall population.

47% of all ALFAs grew up in a rural area, but less than one-third of these professionals currently work in non-Metro areas of the state. Overall, 21% of Virginia's ALFAs work in rural areas of the state. In addition, 96% of Virginia's ALFA workforce has some educational background in the state, including 60% who received both their high school and initial professional degrees in the state.

One-quarter of ALFAs hold an Administrator-in-Training certificate as their highest professional degree, while another 19% do not have any professional degree that is specific to health administration. One half of all ALFAs in the state hold the title of Administrator at their primary work location, while another 20% hold the title of Executive Director.

92% of Virginia's ALFAs are currently employed in the profession, and only 1% are involuntarily unemployed at the moment. 82% of all ALFAs hold one full-time position, while another 12% work multiple jobs. More than half of all ALFAs work between 40 and 49 hours per week, while 15% work at least 60 hours per week.

The median annual income for ALFAs is between \$60,000 and \$70,000. In addition, 81% of ALFAs receive at least one employer-sponsored benefit, including 79% who receive paid vacation time. 95% of ALFAs indicate they are satisfied with their current employment situation, including 72% who indicate they are "very satisfied".

Over the past year, 5% of Virginia's ALFAs have switched jobs, and 20% have been employed at multiple work locations. Meanwhile, more than two-thirds of all ALFAs have remained at the same primary work location for at least two years. 81% of all ALFAs work at a for-profit establishment, while most of the remaining workforce is employed at non-profit institutions.

A typical ALFA spends approximately half of her time on administrative tasks, and more than one-third of all ALFAs serve an administrative role, meaning that at least 60% of their time is spent on administrative activities. In addition, the typical ALFA spends approximately one-quarter of her time performing supervisory tasks and 15% of her time treating patients. On average, the typical ALFA treats between 50 and 74 total patients at her primary work location.

31% of ALFAs expect to retire by the age of 65. Nearly 30% of the workforce expects to retire in the next ten years, while half the current workforce expects to retire by 2035. Over the next two years, only 2% of Virginia's ALFA workforce plans to leave the profession, while 3% expect to leave the state to practice elsewhere. Meanwhile, 15% hope to pursue additional educational opportunities, and 7% expect to increase their patient care activities.
