d) Committee Report

Committee Report

Eric Olson, Executive Director informed the Board, that at its Committee on March 9, 2021 that the Board for Contractors staff has received several inquiries from individuals and businesses regarding the licensing requirements for companies that provide temporary workers in the construction and trade industries. While many of these companies only supply unskilled laborers that limit their activity to work that would not be considered contracting, such as clean-up and unloading of supplies, some provide skilled labor such as carpenters, drywall installers, and painters, with some actually providing licensed tradesmen. Given the current focus on employee misclassification, the Committee wants to obtain a better understanding of the responsibilities of employers in hiring "contract" help and differentiating between when an employee can be a contract temp or must be a bonafide employee.

After much discussion, the Committee directed staff to consult with the Virginia Department of Taxation to arrange a meeting or training to help the Committee and the Board to have a better understanding of the misclassification issue and how to identify instances where misclassification may have occurred.

e) Remedial Education Report

**Remedial Education
Report**

Eric Olson, Executive Director provided the Board an update on remedial education information, including the continued positive responses received from the evaluations submitted by participants. Mr. Olson also provided an update on the remaining schedule for Michael & Son. Mr. Olson informed the Board, staff is still exploring alternative options for Remedial Education.

f) Appoint Damage Prevention Advisory Committee member

Appoint Damage

**Prevention Advisory
Committee member**

Eric Olson, Executive Director, updated the Board that the Damage Prevention Advisory Committee Member is up for reappointment. Mr. Olson recommended that a Board for Contractors Board Administrator be appointed to the Damage Prevention Advisory Committee due to low Board Member attendance at its meetings.

g) PMPV Letter

PMPV Letter

Eric Olson Executive Director informed the Board, at its Committee Meeting on March 9, 2021, a letter was received from Virginia Plumbing-Heating-Cooling Contractors Association (PHCC). The letter expressed concerns over the Board's interpretation of regulations regarding contracts, and when routine maintenance would be considered contracting, and require a contract. Mr. Olson reviewed with the Committee the definition of a Contractor and Routine Maintenance. The question of when a contract is required has been brought up on disciplinary cases that have been brought to the Board previously. The Committee noted that there is one such case on the docket for the next board meeting.

The Committee reviewed the following definitions from the Board for Contractors Regulations and the Board for Contractors Policy Guidance Document:

"Prime contractor" means a licensed contractor that performs, supervises, or manages the construction, removal, repair, or improvement of real property pursuant to the terms of a primary contract with the property owner/lessee. The prime contractor may use its own employees to perform the work or use the services of other properly licensed contractors.

"Routine Maintenance" The definition of "routine maintenance" as used in the Board for Contractors Regulations means: "Recurring, preventative, and on-going activity necessary to delay or prevent the failure of a building, equipment, machinery, plant, or system, against normal wear and tear and is generally set by the manufacturer, the USBC, or by generally accepted practices within the industry."
