## COMMONWEALTH of VIRGINIA

Board of Juvenile Justice

## **MEETING MINUTES**

June 11, 2014

Department of Juvenile Justice 600 East Main Street 12<sup>th</sup> Floor Conference Room SOUTH Richmond, Virginia 23219

**Board Members Present:** Heidi Abbott, Anthony Bailey, William "Bill" Bosher, David Hines, Helivi Holland, Robyn Diehl McDougle, Tamara Neo

Board Members Absent: Karen Cooper-Collins, Kenneth Stolle

DJJ Staff Present: Kenneth "Ken" Bailey, Andrew "Andy" K. Block, Jr., Marc Booker, Richard Conley, George Drewry, Katherine Farmer, Daryl Francis, Wendy Hoffman, Jack Ledden, Joy Lugar, Andrea McMahon, Mark Murphy, Margaret O'Shea (Attorney General's Office), Deron Phipps, Ralph Thomas, Angela Valentine, Janet Van Cuyk, Barbara Peterson-Wilson

Guests Present: Monica Brown, Kandise Lucas, Georgia Maclean, Leah Nelson, Susan Oliver, William Tignor, Jeree Thomas, Carla White

## **CALL TO ORDER**

Chairperson Heidi Abbott called the meeting to order at 9:45 a.m.

## INTRODUCTIONS

Chairperson Abbott welcomed all that were present and asked for introductions.

## **APPROVAL of April 9, 2014, MINUTES**

The minutes of the April 9, 2014, Board meeting were presented for approval. On MOTION duly made by Bill Bosher and seconded by Robyn Diehl McDougle to approve the minutes as presented. Motion carried.

## **PUBLIC COMMENT PERIOD**

Kandise Lucas, Teachers Behind Bars

Ms. Lucas welcomed Director Block to the Department of Juvenile Justice (the Department). Ms. Lucas outlined her concerns for the Board.

- The Department's special education program She questioned whether teachers are being properly trained and students are receiving required services? She questioned the overall compliance of the Department's program.
- Individualized Educational Plan (IEP) for residents She stated that IEPs are not being updated
  in a timely manner, IEPs are either invalid or outdated, and no efforts are being made to
  correct the problems.
- Include parents in the education process She strongly recommended the Department consider a parental advocate or establish a parental program.
- Lack of vocational programming for students who have either graduated or completed their GED – She stated that these residents are not being challenged and strongly recommends improvements.
- Ms Lucas ended her comments by noting an article Director Block wrote in January 2009 titled, "Who Will Stand Up For Virginia's Children?" Ms. Lucas posed that question to the Board and hoped that the Department's education piece can become a premier program that can be mirrored and copied around the world.

Board Member Bill Bosher asked the Department's staff to send out the article Ms. Lucas mentioned to the Board for their information.

Susan Oliver, former guidance counselor with the Department

Ms. Oliver welcomed Director Block and encouraged the Board to focus on the following areas:

- The attitude of the Department's Human Resource Department; resources are needed, and teaching is an art form that needs proper assessment, evaluation, and planning.
- Retention policy should be reviewed due to a high turnover rate in the Department.
- The grievance process should be reviewed and taken more seriously.
- Improvements in the Department's information technology system focusing on the ability to run school transcripts.
- An accountability of the standards of learning scores and suggested that the Board review these scores.

## **DIRECTOR'S CERTIFICATION ACTIONS**

Ken Bailey, the Department's Certification Unit Manager

Included in the Board's packet are the individual reports and the summary of the Director's certification actions completed on May 14, 2014. There were a number of 100% compliance results, three of which were juvenile secure detention centers.

Board Member Helivi Holland asked why the 9<sup>th</sup> Court Service Unit (Williamsburg) was certified for one year while the Northwestern Regional Juvenile Secure Detention Center (Northwestern) was certified for three years when Northwestern's deficiency related to a mandatory standard for medication which has been an issue in the past.

Mr. Bailey responded that the audit performed on the 9<sup>th</sup> Court Service Unit assessed 16 deficient areas. The Certification Team was concerned with the number of deficiencies and felt the need to continue to watch the program more closely. After the completion of the status visit to the Northwestern, it was noted that all of their deficiencies were in compliance. The facility hired a new program administrator who responded immediately to the deficiencies and the Certification Team felt comfortable recommending certification and as did the Director in certifying them for three years.

Board Member Helivi Holland asked if those facilities receiving 100% compliance are provided with a congratulatory letter or acknowledgement of this accomplishment. Mr. Bailey replied that it was not standard practice. The Board agreed that programs receiving 100% compliance should be provided with congratulatory letter from the Director.

## **OTHER BUSINESS**

## **VJCCCA Plan Approvals**

Angela Valentine, the Department's Community Program Manager

Ms. Valentine presented an overview of the Virginia Juvenile Community Crime Control Act (VJCCCA) to the Board. The presentation is attached.

Ms. Valentine provided the Board with five documents relating to the fiscal year (FY)2015-2016 VJCCCA Programs and Plan Details. These documents are attached.

Board Member Bill Bosher asked how education relates to the VJCCCA.

Director Block noted that our education funding is separate from the VJCCCA. The funding for VJCCCA is specifically allocated for front end and preventive services.

Ms. Valentine did state that educational support services are offered as a program type within the VJCCCA and localities have the opportunity to select services within the community to help with regards to the youth's education.

Ms. Valentine discussed the document titled, FY2015-2016 VJCCCA Plan Detail. This is a summary document listing the following: The first column includes the locality name (plan), noting that a number of localities have opted to combined plans. The second column shows the type of program incorporated in the locality's plan. The next columns show the projected number of youth served and the budgeted amounts for FY2015 and FY2016.

Localities such as Frederick and Clark have no information listed under FY2016. The Department is only recommending the Board approve their FY2015 VJCCCA plans. In the meantime, the Community Program staff will continue to assist those localities on their FY2016 to improve their plans for the Board's review next June.

The localities highlighted in red were not able to complete their plans for various reasons. The Department is recommending that the FY2014 VJCCCA plans for these localities, which have already been approved by the Board, continue for one quarter. The Board will vote on their FY2015 VJCCCA plans at the September Board meeting.

Board Member David Hines asked about partnerships outside of the Department and the juvenile justice system.

Ms. Valentine replied that localities do obtain services from other agencies and organizations. For instance, a number of localities purchase their mental health assessments from their community services board and contract with local providers for substance abuse services.

Chairperson Heidi Abbott asked if the Department evaluates the locality plan to ensure funding is being spent on the approved programs and are serving the number of youth stated in their plan.

Ms. Valentine replied that during close out of each year, all localities are required to submit a program evaluation showing if targeted outcomes were met. The Department's Community Program Specialists monitor programs, monitor utilization, review program evaluations, and make recommendations to the locality regarding their performance.

Board Member Tamara Neo asked about the Washington, Bristol, Smyth, Russell, Buchanan, Dickenson, Lee, Norton, Scott, Tazewell, and Wise program. Ms. Neo is familiar with the Highlands Center and wanted to know if this is the only center servicing these areas or is there another facility.

Ms. Valentine noted that the Office on Youth performs the community service portion of the VJCCCA plan. When the court orders a juvenile to complete community service hours, the Office on Youth assists in connecting the juvenile with the community and monitors/supervises the juvenile. The Highlands Center is the only outreach detention center in that area.

On a MOTION made by Helivi Holland and seconded by Robyn Diehl McDougle to approve the VJCCCA Plans listed on the Summary Sheet for FY 2015 and 2016. Motion carried.

On a MOTION made by Helivi Holland and seconded by Robyn Diehl McDougle to approve the VJCCCA Plans for localities who have FY2015 budgets only. Motion carried.

On a MOTION made by Helivi Holland and seconded by Robyn Diehl McDougle to extend the FY2014 budget for one quarter into FY2015 in order for the localities noted in red on the Summary Sheet to complete their plan.

Board Member Helivi Holland asked how one quarter is calculated as it relates to their budget.

Ms. Valentine noted that there is no difference in the amount of funding from last year to this year.

Motion Carried.

Board Member Tamara Neo would prefer to amend the motion to include a listing of the localities that are in red on the Summary Sheet.

On an amended MOTION made by Helivi Holland and seconded by Robyn Diehl McDougle to extend the FY2014 budget for one quarter into FY2015 in order for Manassas/Manassas Park, City of Norfolk, City of Richmond, and Tidewater Youth Services Commission to complete their plan. Motion Carried.

## **Population Trends**

Janet Van Cuyk, the Department's Legislative and Research Manager

Ms. Van Cuyk presented an overview of basic information on the population served by the Department. The presentation is attached.

The data in Slide 4 shows types of court service unit's intake complaints. Protective Orders have continually increased through the trending period. This increase is due in most part to a statutory change expanding the kinds of protective orders available in juvenile court.

The data in Slide 6 shows juvenile intake cases broken down by type of complaint. The most common offense continues to be status offense. A majority of the status offenses include child in need of supervision, such as a runaway or truancy. Out of the 7,000 status offenses shown on the chart, 5,000 were child in need of supervision.

Board Member Bill Bosher asked about the acronyms CHINSup and CHINS.

Ms. Van Cuyk noted that a Child in Need of Supervision (CHINSup) is a runaway or a truant. A Child in Need of Services (CHINS) requires additional oversight from the court due to a variety of reasons.

The data in Slide 8 shows intakes by petitioned cases and complaints. The intake process determines if the juvenile should proceed before the court. The intake process has the ability to resolve an intake, take no action, find there is no probable cause, divert, or petition. There was a 41% decrease over the trending period regarding intakes petitioned to go before the court.

The data in Slide 10 shows the detention of the average daily population by disposition. The post-dispositional placements are stable, but the pre-dispositional (Pre-D) placements have decreased dramatically. There has been a steady decline for Pre-D placements due largely to the Department's use of an objective screening instrument during the intake process that began in 2003.

The data in Slide 13 shows parole trends of juveniles who had been in direct care that were released on parole supervision by the juvenile court services unit. The data has indicated a decrease of 66% during the trending period.

The data in Slide 14 shows parole length of stay. The average length of stay for juveniles on parole supervision is approximately 10 months.

The next slides provide an in-depth look into juvenile correctional center (JCC) trends. Please note that data for halfway houses in 2012 was included due to their designation as direct care placements.

The data for Slide 16 shows the JCC admissions and releases. JCC admissions have decreased by 63% during the trending period. There is an increasing decline in overall numbers. Today there are 555 juveniles in direct care, down from 1,400 in the 1990s. Of those 555 juveniles, 46 are female, 525 are in JCCs, 21 are in detention sponsored community placement programs, and 9 are in detention reentry/community placement programs.

The data in Slide 17 depicts a 42% decrease in the average daily population in the JCCs during the trending period. As shown previously, there is a 63% decline in admissions and a 42% decline of the population.

The next section of slides relates to the demographics of juveniles served in the JCCs. The average age of admission has not changed dramatically. The average age of the juvenile the Department serves is getting older which is reflective, in part, of longer lengths of stay.

The data in Slide 22 shows the most serious offense by category, which is calculated by an algorithm. In the early 2000s, the most serious offense a juvenile committed was larceny, a non-person offense. Today the most serious offense is robbery, which involves a person.

Board Member Bill Bosher asked if you superimpose the seriousness of the crime on the chart, would it reflect an incline.

Ms. Van Cuyk answered yes; the Department has a 63% decline in the population, which means a lot less juveniles, but the juveniles are committing more severe offenses.

Board Member Tamara Neo asked if programs can be tracked as well as juvenile data.

Ms. Van Cuyk indicated that only Department programs can be tracked; if the program is coordinated through a locality, that data is not being tracked.

The data in Slide 24 shows JCC admissions by the last grade completed. Most admissions tend to have 8<sup>th</sup> or 9<sup>th</sup> grade as the last grade completed prior to admission.

The data in Slide 27 shows the JCC admissions by psychotropic medication history. After commitment, the juvenile is assessed at the Reception and Diagnostic Center and part of the review includes their history of taking psychotropic medication prior to commitment. The percentage of juveniles who do take this medication is around 67%.

Chairperson Heidi Abbott asked why the females shown on Slide 27 were so up and down.

Ms. Van Cuyk noted that the female population is very small so any percentage change may go up and down more dramatically due to small increases and decreases.

The data in Slide 29 shows the JCC admissions by mental health disorder. The ADHD/ADD disorder is steadily increasing over the trending period.

## JCC Transformation

Jack Ledden, the Department's Assistant Deputy Director for Operations

Jack Ledden reported that he has been asked to develop a plan that will properly engage residents in productive and meaningful activities year round. A plan was presented to the Department's Executive Team on April 29, 2014, detailing the development and implementation of a community treatment model in the JCCs. This would be a complete transformation of the normal operations of the JCCs. This plan will not only reduce recidivism, but also reduce the number of serious incidents in the facilities, improve moral, and reduce staff turnover.

The community concept is a highly structured program that emphasizes rehabilitation, treatment, and education. A consistent team of professionals will interact with the same group of residents on a daily basis. Residents will be involved in their own treatment by using peer groups. The types of activities that will be offered include high school/college classes, vocational classes, art, music, drama, business clubs, journalism, campus newsletter/newspaper, and Intramural Recreation and Extra Curricula Activities.

Volunteers and community involvement are two key stakeholders in this effort. The Department is very appreciative to Dr. McDougle for coordinating the men and women's VCU basketball team visit to Beaumont and Bon Air JCCs. Such a simple event had a tremendous impact on the youth and staff.

The Institutional Transformation Team (the Team) has been created within the Department to implement this model. This is an agency-wide effort and journey. External input, including the Board's thoughts and ideas, is welcome.

The Team is using a three goal approach for implementation: Short, intermediate, and long term. Short term (immediate/using existing resources) goals include meaningful and purposeful activities, relating to the treatment of the resident, from after school to lights out and on weekends. The Department has re-implemented the IREAP program, has begun officer engagement with residents, and medical personnel are developing more effective treatment relationships.

The Department has met with the Missouri Youth Services Institute personnel regarding their highly acclaimed program. The Department is using their concepts to develop the Virginia Model.

The Team is seeking to remove barriers and obstacles preventing the implementation of the community concept. For instance, the Department is instituting an initiative to reduce the amount of paperwork, reduce the number of meetings, and increase the use of automation.

The intermediate goals include establishing treatment driven programming, designing activities with a purpose, retraining staff, and revising regulations and standard operating procedures.

The long term goals are to fully implement the community model and to ensure that it is sustainable and able to transcend administrations.

Board Member Tamara Neo asked how the number of meetings creates a barrier.

Mr. Ledden indicated that the number of meetings staff are required to attend prevents them from focusing on their duties and engaging with residents.

Board Member Anthony Bailey commended the idea and noted that it sounds like a very good initiative. Mr. Bailey asked about the dynamics of the pod, if the Department is trying to keep all the same staff and residents together in one unit, what would happen if the residents do not get along and people are failing because of the environment.

Mr. Ledden replied that the fences and locked doors were not going away. The Intensive Behavioral Redirection Unit (IBRU) would still be available if residents' exhibit negative behavior and treatment is needed to improve their behavior in order to return to general population.

Director Block went on to say that the Department wants to be consistent by keeping the same staff and the same residents together to form a cohesive team. However, if something is not working, those issues will be addressed.

Board Member Anthony Bailey wanted his concern noted that, in the rare situations where relationships fail and it does not work for a child in a particular unit, the necessary steps will be taken to correct it.

Mr. Ledden replied that safety and security is still number one. The model will not work if you do not have a safe and secure environment.

Chairperson Heidi Abbott encouraged the Board to bring their ideas to Director Block and noted that during the Director's short tenure things have already changed for the better in the facilities.

Variance Request – Definition of Direct Care Staff and Request to Initiate a Notice of Intended Regulatory Action

Janet Van Cuyk, the Department's Legislative and Research Manager

Ms. Van Cuyk reviewed each section of the variance request which is outlined on page 94 in the Board's packet.

Board Member Anthony Bailey asked if there is a barrier because the non-security staff felt less authorized, less powerful, less respected, less trusted or is there a barrier because the residents felt like a police state with 15 minute checks by an officer in uniform. What are we trying to improve, how the current system impacts the residents or how the current system reacts with the staff.

Mr. Ledden replied that it was mainly a barrier to the resident's treatment and to implementation of the community model. If the mental health personnel decided to have a group session or a one-on-one session with residents and there was no officer available to be present, then no treatment activity was completed. Treatment was literally stopped because officers were elsewhere in the facility or there were staff shortages.

Director Andy Block promised the Board that this community model will be done deliberately and safely. This will give the Department the ability to provide residents with more effective programming

and remove them from being behind closed doors on a regular basis. The safety of our staff and residents is the biggest priority.

Board Member Tamara Neo asked about the duration of the variance, "until such time as regulations are amended."

Ms. Van Cuyk noted that the regulatory process through the Administrative Process Act usually takes up to 18 months for completion; the Department's last request took five years. The Department will work with the Board on their preference regarding the time duration.

Board Member David Hines asked about the Department of Criminal Justice Services involvement in the hours of training requirement for security staff.

Ms. Van Cuyk replied that there are no regulations currently governing the Department's training program for security series staff. Three years ago, the General Assembly authorized the Department of Criminal Justice Services to establish training guidelines for the Department. This will soon become effective. The Department of Criminal Justice Services' guidelines will not indicate the number of training hours required; however, the guidelines will specify the subjects to be covered in the training curriculum. For instance, the regulations will not state that staff will need to perform 200 hours of training; it will instead state that the training will cover this amount of material. The Department will have two sets of regulations concerning training, one from the Board (120 hours of training) and one from the Department of Criminal Justice Services. The Department will abide by both.

Board Member David Hines replied that assuming the new regulations are greater; the Board will probably revisit its regulations in order to comply with the Department of Criminal Justice Services.

Ms. Van Cuyk acknowledged that this was correct.

Board Member David Hines asked about training for counselors who have responsibility for supervision but not security.

Ms. Van Cuyk noted that the Department currently has training called Basic Skills for Non Security that is administered to counselors; it is different from the Basic Skills for Security series staff. The Department is currently exploring whether counselors should complete the Basic Skills for Security series staff training or whether the Department should modify specific components of the training for counselors.

Board Member David Hines commented that this variance is not focusing on the physical security of the facility. This variance will allow a counselor or program manager to enter a group setting and conduct treatment without having an officer present. Mr. Hines followed up by asking if staff will be provided additional training on de-escalating situations if they occur.

Ms. Van Cuyk replied yes, and staff would be provided radios if additional assistance was needed.

Board Member David Hines followed up by asking if the Department of Criminal Justice Services will take the Department under their umbrella.

Ms. Van Cuyk indicated that the Department of Criminal Justice Services is statutorily required to develop the training standards for juvenile correctional officers. The Department will continue to work very closely with them as has been done for many years.

Board Member Bill Bosher asked how this new model will affect teachers and what the current vacancy rate is for the Department.

Daryl Francis indicated there are 37 vacancies within the Department.

Mr. Ledden replied that education is the cornerstone of the model and the teachers will be included in the treatment teams.

Board Member Helivi Holland stated that she philosophically supports the idea, but has concerns about the security and negligent training aspect from a litigation stand point. Ms. Holland asked if the Department has discussed with staff their new roles and new training requirements. Ms. Holland stated that the Handle with Care training is not for everyone and can be physically overwhelming.

Mr. Ledden has not spoken to all staff, but the staff he has spoken with has indicated their desire to engage and interact with the residents. There are many options available for the restraint training in Handle with Care that does not involve going to the ground.

Director Andy Block noted that he has spent a great deal of time with staff in the facilities and there is a desire to do things differently. There is always a price for change and in this instance it is the additional training requirements.

Board Member Tamara Neo asked, if the concern at present is that those individuals trained in the security element are not available to move or transport residents, how is that person going to be more available if this variance is approved by the Board?

Director Andy Block indicated that if this variance is approved, the Department will have the flexibility to make more individualized determinations about the deployment of staff. For instance, keeping two juvenile correctional officers outside the hallway of six classrooms and providing teachers with radios and buzzers.

Board Member Tamara Neo asked if it was fair to say that because of the lenience in discretion, it is no longer required that the staff with the security training be present at all levels. Should a counselor decide they do want security present, perhaps that security staff member will be more freely available.

Ms. Van Cuyk indicated that the variance was originally drafted to be a change in the definition of direct care staff. Ms. Neo's fact scenario is correct. The barrier is that the Department defines direct care staff as having those three requirements indicated in the variance request on page 96. These are care of the residents, implementation of the behavior management program, and maintaining the security of facility. It is not related to training. The Department's counselors that have completed the security training are not able to be alone with the resident because it does not fit the definition of

direct care staff. The counselor's primary job function is not security. It is not a training issue or even a safety issue, it is a category of people based on the definition in the regulations.

Deputy Director Ralph Thomas pointed out that officers will be in the proximity. It will be the service provider's responsibility to provide the ongoing supervision. There will still be 15 minute checks on residents.

Board members questioned the 15 minute check and whether or not this variance will dismiss this requirement.

Ms. Van Cuyk indicated that the variance will remove the requirement for security series staff to perform "actively supervise" residents at all time, which the Department has defined as 15 minute checks. However, the Department can operationalize it and through procedures make it any duration, such as a 30 minute check or 40 minute check.

Board Member David Hines replied that if the Department chooses to operationalize it, if this variance were to pass, the Board has given you a variance not to do the 15 minute checks.

Ms. Van Cuyk agreed with Mr. Hines' statement.

Director Block noted that he is sensing that the Board has legitimate concerns with the variance and asks the Board if they would feel more comfortable with approving the variance with stipulations. The Board could allow the Department to move forward with the planning and bring the variance back to the Board for approval before implementation.

Board Member Helivi Holland indicated that she is leaning towards what Director Block suggested because she is having problems with the timeline. Ms. Holland is still concerned with the training aspect and if staff is willing to do these new roles. There is still concern over the 15 minute checks and when to do them and when not to do them. Ms. Holland believes it will be confusing when security is needed and when they are not needed. Ms. Holland supports the idea, but the sequence of how to get there is a problem as the motion is written.

Ms. Van Cuyk noted that, in the community model, staff will be aware of which personnel would have met the training requirements under the variance and adapt supervision accordingly.

Board Member Tamara Neo indicated she felt the same and is concern with how broad the variance is written. Ms. Neo would feel more comfortable with a narrowly tailored motion that is clear, such as the decision to have 15 minute checks or not, and to state the training requirements. The variance feels loose.

Ms. Van Cuyk followed up by saying that the Board may grant a variance under whatever duration the Board chooses, under whatever specific conditions the Board chooses, including reporting back requirements or delayed implementation, and stating when it becomes effective.

On MOTION by Bill Bosher and seconded by David Hines, the Board accepts the recommendations as proposed in the variance request and asks the Director to keep the Board informed of the implications of the decision.

Chairperson Heidi Abbott asked the Board if the motion is for the variance to move forward as proposed and for the Director to keep the Board updated on the progress.

Board Member Bill Bosher noted that the Director should not wait for a meeting to inform the Board but produce periodic statements on the impact both positive and negative of the program.

The Board voted on the variance with four YEAS (Anthony Bailey, Heidi Abbott, Bill Bosher, and David Hines and two no's (Helivi Holland and Tamara Neo). Motion carried.

## **Community Placement Programs**

Marc Booker, the Department's Detention Specialist

The Detention Specialist's primary responsibility is as liaison between local juvenile detention facilities and the state focusing on the residents' transition back to their community. Mr. Booker provided his presentation to the Board. The presentation is attached.

Chairperson Heidi Abbott asked if the target populations for the detention centers are juveniles ending their sentence or juveniles being diverted from an juvenile correctional center.

Mr. Booker responded that the idea is to divert the juvenile to serve their time in a detention center as well as also tail end of commitment transition.

Board Member Anthony Bailey asked if bringing major offenders back to their home community will have a negative effect because the juvenile might be in the facility with other juveniles known to them.

Mr. Booker indicated considerations are made before the determination as to whether or not the juvenile is appropriate for the program. The Department reviews the individual and comprehensive case reviews. When residents are selected for the program, factors are considered to make sure the juvenile would benefit from being near their community.

Ms. Valentine wanted to make sure the Board knew the process for the Community Placement Program. When a youth is committed, they first go to the Reception and Diagnostic Center (RDC) for an assessment. RDC will decide whether the juvenile will be committed to a JCC based on their mandatory and recommended treatment and length of stay or if the juvenile would be committed to the Community Placement Program. Most major offenders, a Department administrative designation due to being committed on certain enumerated offenses, will enter the JCC first because their length of stay is typically 18 to 36 months. The Department is limiting the length of stay in the Community Placement Program to 12 months.

Chairperson Heidi Abbott asked if the court has any authority over where the juvenile is committed.

Ms. Valentine indicated that the court has no authority; it is strictly a Department decision.

Board Member David Hines asked if the education provided to the resident in the Community Placement Program is on site or provided through the locality's school system.

Mr. Booker indicated that education services are provided within the facility using the locality's education program.

Mr. Booker finished his presentation and introduced the staff of the Rappahannock Juvenile Detention Center, which is the first of the Community Placement Programs up and running. The key points are below:

- The facility feels very fortunate to be chosen by the Department to be the first pilot program, and the Department has been extremely supportive.
- The facility has 80 beds located in Stafford County and serves 7 different regions.
- It is a highly secured facility that is extremely structured. Staff has high expectations for juveniles in their care.
- The facility has a full educational staff provided by Stafford County. There is a principal and seven teachers.
- Primary focus is to reintegrate the resident back into the community. While in detention, education is the focus.
- The facility has a licensed therapist that works full-time provided by the community service board.
- The residents are engaged all day; there is no down time. The residents cannot opt out of school. Staff finds jobs within the facilities for residents to help build their resume.
- There have been no escapes.
- The facility currently has 42 residents with no residents completing the program as of yet.
- The staff has identified their first resident who will complete the program very soon. He is very enthusiastic and participates in school.
- Staff is exposing the residents to different things, community leaders play a key role, therapy
  dogs are used, local counselors talk to resident on various subjects, and parenting classes are
  provided to residents as needed.

## **Director's Comments**

Andy Block, the Department's Director

Director Block thanked the Board members for their support, especially Dr. McDougle for her help in coordinating the VCU men's and women's basketball team visits. The visits were a morale booster and the Director would like to continue these kinds of special events for the residents.

Chairperson Heidi Abbott departs the meeting and turns the chair over to Tamara Neo. A quorum of the Board is still present and the meeting continues.

The Katie Couric show filmed and aired a short segment on the Beaumont Russian Literature class in April. It was a great success and the Board will be emailed a copy of the show's link to view. The

Russian Literature class is a great opportunity to change the lives of the youth that enter our facilities and have them think of themselves in different ways. It was a very inspiring piece of television.

## **NEXT MEETING:**

The next meeting of the Board of Juvenile Justice is September 10 at a location to be determined.

## **EXECUTIVE SESSION**

On a MOTION by Helivi Holland and seconded by Anthony Bailey, the Board agreed to reconvene in Executive Closed Session, pursuant to Section 2.2-3711 (A) (1) and (A) (7), for a discussion of certain personnel matters and to consult with legal counsel and obtain briefings by staff members, consultants, or attorneys pertaining to actual or probable litigation and any other specific legal matters requiring the provision of legal advice by counsel.

Board Member Bill Bosher moved to leave executive session and Board Member David Hines seconded the motion. Motion Carried

The Executive Closed Session was concluded. The members of the Board of Juvenile Justice present certified that, to the best of their knowledge, (1) only public business matters lawfully exempted from open meeting requirements by Virginia law were discussed in the Executive Meeting, and (2) only such public business matters as were identified in the motion convening the Executive Meeting were heard, discussed, or considered.

## ADJOURNMENT:

The Chair adjourned the meeting at 12:50 p.m.

## **VJCCCA**

## Virginia Juvenile Community Crime **Control Act**

**Juvenile Justice** Virginia Department of

> New Ideas One Team.

**Extraordinary Purpose** 

## VJCCCA

## Background

- Enacted in the 1995 to restructure funding for local juvenile justice programming
- Intent is for localities to develop and address juvenile crime implement programs and service to

- Juveniles before intake on complaints
- Juveniles before the court on petitions
- Children in need of services
- Children in need of supervision
- Delinquents

## Organization and Operations

- VJCCCA provides formula-based administrative oversight and funding to localities and provides monitoring to the program.
- Many localities contribute a required Maintenance of Effort.

## Organization and Operations

# 

- Every two years, the locality submits a plan for the use of the allocated funds.
- Plans are based on:
- A review of court-related data
- An objective assessment of need for services and programs

# Local Plans $\Leftrightarrow$ Statewide Process

- with: Plans are developed after consultation
- J&DR Court Judges
- Director of the Court Services Unit
- CPMT

## **Program Operations**

- Local governing bodies determine who will manage the plan's activities
- Local governing bodies may provide use of dedicated staff programs and services directly through
- agencies. programs and services from private Local governing bodies may purchase

1 coelie	B	Year 1	Year 1	Year 2	Year 2

### JCC Admissions by Mental Health Disorder

### **NEW INITIATIVES**

**Community Placement Program** 

One Team. New Ideas. Extraordinary Purpose.

### **Program Overview**

- Alternative to JCC for committed youth
- Short-term stay (3 12 months)
- Provide meaningful assistance to youth preparing for release from the JCCs
- Provide options for localities to utilize vacant beds in the face of consistently declining detention populations

### Program Goal / Objectives

- This program will house state-committed youth in secure settings, preferably closer to their home communities
- · 40 dedicated beds statewide
- Program Goals
  - Promote community safety and accountability
  - Prevent future criminal behavior
  - Increase offenders' educational competencies
  - Improve self-control, decision-making, and problemsolving abilities

### **Target Population**

- Males 16 20 years old
- Committed to DJJ
- All Risk levels of Offenders
  - Serious Offenders considered on case-by-case basis
  - Major Offenders
    - · After first Major Offender Review
    - · Require Director's approval
- Length of Stay 3 12 months
- Mandatory treatment completed

### Methodology

- Detention facility case manager assigned to each resident
- Comprehensive Reentry Case Plan (CRCP) for each resident developed by case manager and parole officer
- Youth Assessment and Screening Instrument (YASI) used to identify individual programming /service needs
- Periodic reassessments to monitor progress and make adjustments

### **Programming**

- It is anticipated that participants will require programming in one or more of the following areas:
  - Anger Management
  - Substance Abuse Relapse
  - Life Skills
  - Employability (job seeking, job keeping)
  - Community Service
  - Recreational and Leisure Activities

### Education

- Provided at Detention Center
  - Those under 18, or w/o diploma or GED will be rolled into school program at detention facility
  - Pre and Post-program educational assessments

### Education

- Those 18 and over, or who have completed school (diploma or GED) are required to participate in:
  - Post-secondary or Vocational Skill classes
  - Employability training
  - Independent Living Skills curriculum

### Education/Work Release

- Program participants may be eligible to participate in work /education release programs
  - Electronic monitoring/GPS required

### **Referral Process**

- Referrals made by JCC Counselor in collaboration with Parole Officer
- Residents referred through institutional case management system
- Final approval comes from Central Classification and Review Committee (CCRC)

### **Participating Facilities**

We currently have 40 CPP beds statewide. Ten beds at each of the following detention centers:

- Blue Ridge
- Chesapeake
- Rappahannock
- Virginia Beach
