

**June 26, 2014**  
**10:00 a.m. to approximately 3:15 p.m.**  
**At Department of Forestry's Central Regional Office**  
**900 Natural Resources Drive**  
**Charlottesville, VA 22903**

Facilitators Ken Jurman of DMME and Carol Wampler of DEQ welcomed attendees, and each person introduced himself and signed the [attendance roster](#).

Three speakers made presentations to the SSG regarding “Challenges & Opportunities of Solar Development in Non-Jurisdictional Markets,” as follows:

- [Scott Sklar of Stella Group and George Washington Univ. – Federal](#)
- Tommy Thompson of DMME – State
- [Cliona Robb of VEPGA and Christian, Barton – Local](#)

These presentations were followed by group discussion and Q&A.

Angela Navarro of SELC and Rob Marmet of PEC provided an [update on Clean Air Act §111\(d\)](#) during the group's working lunch.

The remainder of the meeting was devoted to small-group work on the Net Value of Solar Methodology Study, led by Damian Pitt. At the end of the meeting, a representative of each small group made a progress report to the plenary group

**Group I:** [Energy, Capacity and Grid Support Services Report](#)

**Group II:** [Financial Risk and Security Risk Report](#)

**Group III:** [Environmental Issues and Economic Development Report](#)

This input will be incorporated into the SSG Steering Committee's work.

As suggested by some SSG members, a [draft list of terms and acronyms](#) developed by Cliona Robb was distributed.

The meeting then adjourned. Future meeting dates are noted below.
